

\$13,000,000 PAPER MERGER ORGANIZED

Crown-Columbia and Willamette Pulp & Paper Companies Will Unite.

PLANTS IN THREE STATES

Portland and San Francisco Capital Involved in Deal Which is to Bring Two Concerns Under General Management.

Organization of the Crown-Willamette Paper Company with an authorized capitalization of \$13,000,000 has just been completed by Portland and San Francisco capitalists for the purpose of purchasing the properties of the Crown-Columbia Paper Company and of the Willamette Pulp & Paper Company, operating plants in Washington, Oregon and California.

Although details of the organization have not been entirely agreed upon, it is understood that most of the principal stockholders in the two existing companies will be interested also, in the new corporation, which will be formed in the State of Maine.

It is probable that the management of the new corporation will be in the hands of the managers of the present companies.

Organization Formed Here.

Plans for the new organization were effected in Portland a few days ago, when the managers of both companies visited the various plants of the two companies in this vicinity. The purpose of the organization, it is understood, is to reduce operating expenses in the paper mills by eliminating a duplication of fixed charges, thus enabling them to compete with British Columbia and Norway and Sweden, which countries have been active in the markets of the Pacific Coast since the removal of the tariff.

Through the new company additional capital also will be available, it is said, for some extensive improvements in the vicinity of Portland that have been contemplated by the two old companies for the last five years.

The Crown-Columbia Paper Company operates a large mill at Camas, Wash., where it installed recently what was regarded as the largest and best machine in the world for the manufacture of print paper. The capacity of this mill is 175 tons per day. It operates at Camas, also, a large plant for the manufacture of paper bags, tissue paper and toilet paper. It has an additional wrapping paper plant at Oregon City and pulp mills at Warrendale, Or.

Plant in Sierras.

The same company operates a large wrapping and tissue paper factory at Floriston, Cal., a point in the heart of the Sierras, 6000 feet above sea level and convenient to the native timber requisite to the manufacture of wood pulp, from which paper is made.

At both Camas and Floriston the company specializes in the manufacture of a high-grade tissue paper for wrapping citrus and deciduous fruits. In connection with this industry extensive printing plants are operated at Camas, Wash.; Los Angeles, Cal., and Sanford, Fla., where the tissue paper wrappers are printed with the private brands and the names of the various fruit packers and shippers.

The principal plant of the Willamette Pulp & Paper Company is at Oregon City, where it operates one of the largest print or newspaper mills in the country. This mill has a daily capacity of 200 tons.

The daily capacity of the various plants to be owned by the new company will be in excess of 450 tons.

VETERAN DIES AT AGE OF 71

Henry S. Wendan Served Under McKinley and Hayes.

Henry S. Wendan, a veteran who served in the regiment of which the late President McKinley was Major and the late President Hayes was Captain, died at his home, 1620 East Davis street, Mount Tabor, Wednesday at the age of 71 years. He had been a resident of Portland for seven years. In 1861 he enlisted in the Twenty-third Ohio Regiment and served for three years with an excellent record.

IDAHO HAS TAX PROBLEM

18 Counties Delinquent to State Total of \$129,167.50.

BOISE, Idaho, Oct. 1.—(Special.)—Eighteen counties in Idaho are delinquent in their state taxes to a total of \$129,167.50, and a number of the 18 have failed for several years to pay into the State Treasury their share of state tax.

The fact that the State Tax Commission has been under fire since its creation two years ago because it found on a Supreme Court test it was not vested with the power it believed it had made the new Legislature, the approach of the new Legislature, loom up as an important one. The Legislature probably will make an effort to revise the tax laws so it will be possible to collect the delinquent counties to pay their taxes. This may mean the submitting of an amendment to abolish the board of equalization on the Tax Commission.

ART LECTURES ARRANGED

Speakers and Topics for Course to Be Given Are Announced.

Plans for a series of lectures to be given in connection with the Art School work have been completed and a list of topics and speakers for the course are announced. The lectures are designed to show the history of art.

ment in its relation to the fine arts. The Art School of the Museum of Art will open Monday. A large number of students are registered in the various classes.

- March 2, "Late Renaissance Painting (Dutch and Spanish)," Miss Crocker;
- March 9, at the Library, "Books of Japanese Textiles," Miss Rockwood;
- March 16, "Chinese and Japanese Design," Miss Crocker.

WOMEN CENSORS MIFFED

MRS. MILLIE TRUMBULL THREATENS TO RESIGN.

Mrs. Colwell, Chairman, Also Talks of Quitting After Row Over Retention of Mrs. A. C. Newill.

More troubles are on among women members of the board of motion picture censors. As an outcome of a little word-battle between Mrs. Millie Trumbull, secretary of the board, and Mrs. E. B. Colwell, chairman of the board, at a meeting at the City Hall yesterday, Mrs. Trumbull announced that she proposed to resign. She announced that she would see Mayor Albee before doing so, however. Mrs. Colwell said she thought she, herself, would have to resign from the board if Mrs. Trumbull did not.

The fuss started about a month ago when Mayor Albee announced that the censorship board is an official body, and its members should be appointed by the Mayor. He retained Mrs. A. C. Newill on the board. Mrs. Trumbull contended that the members originally were appointed by the various women's organizations, and that while Mrs. Newill was the Woman's Club appointee originally, she was not the choice of that body now and should be removed. Mrs. Trumbull insisted strongly that Mrs. Newill be replaced by the new appointee of the president of the Woman's Club, whose name has not been announced.

At the prior meeting of the board the question was settled over Mrs. Trumbull's objections, and she was requested to resign. Mayor Albee's notice of the appointment of Mrs. Newill and the retention of the board as an official body on the minutes. When the minutes were read, Mrs. Colwell declared that Mrs. Trumbull had "read in" a lot of things that did not take place at the meeting. This led to the announcement of intentions to resign.

Mayor Albee Pleaded in Vain for Harmony in the Organization.

The same company operates a large wrapping and tissue paper factory at Floriston, Cal., a point in the heart of the Sierras, 6000 feet above sea level and convenient to the native timber requisite to the manufacture of wood pulp, from which paper is made.

VARIETY IN SUNSET FILMS

Human Interest, Comedy and Current Events on Programme.

The Sunset Theater's programme for the remainder of the week is one which presents a charming variety of human interest and fun.

The headline offering, "A Modern Rip Van Winkle," is the story of a man sentenced to the penitentiary for fire for killing his rival.

After serving 35 years of his sentence the man is released and goes back to his old home.

After wandering about in the labyrinth of streets and alleys, he goes back to the prison that has become his home.

The photograph in this play is particularly good, and the "Flying A's" all-star cast, including Vivian Rich, Harry von Meter and Jack Richardson, does excellent work.

Roscoe Arbuckle, Keystone's funniest funnymen, is going through his antics in "Fatty Again," a slap-stick comedy with a lot of "pep."

"The Harvest of Regrets" is a one-act melodrama, hackneyed in theme, but prettily handled.

The Pathé Daily News gives an interesting potpourri of European and American current events.

Matt Dennis, the popular baritone soloist, sings some excellent song selections.

CENSORSHIP LAW HELD UP

Willingness of Theater Owners to Co-operate Halts Action.

Because managers of motion picture theaters have shown a willingness to co-operate with the city and the official censor board in eliminating undesirable films, Mayor Albee has withheld introduction before the City Council of the proposed ordinance which would prohibit the display of uncensored pictures.

Mayor Albee says the ordinance was the outcome of attempts on the part of some of the motion picture theater managers to use undesirable films in spite of the demands of members of the board of censors that these films or parts of them be eliminated.

Grandmother kept her hair beautifully darkened glossy and lustrant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drugstore for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this oil-in-alcohol recipe, ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears. After another application or two, it is restored to its natural color and looks glossy, soft and abundant.
