

RECALLS FILED ON THREE OFFICIALS

Mayor Albee, Commissioners Dieck and Brewster Accused of Inefficiency.

9800 NAMES ON PETITIONS

E. E. Kennedy, W. E. Leet and H. E. Abery Named as Opponents, but ex-Mayor Ruslight Is Regarded as Contender.

STATEMENT OF MAYOR ALBEE. The only statement I wish to make at this time is that it is the will of the people that I should be removed as Mayor I am ready to step down. But I do not believe it is the will of the people...

MAYOR AND CITY COMMISSIONERS AND CANDIDATES SELECTED TO RUN AGAINST THEM IN THE RECALL ELECTION.

Grid of portraits and names of candidates: H. R. Albee, W. L. Brewster, Robert G. Dieck, B. E. Kennedy, W. A. Leet, H. E. Abery.

Recall petitions, bearing approximately 9800 names, were filed with City Auditor Barbur yesterday against Mayor Albee and City Commissioners Dieck and Brewster.

Petty Dealings Assorted. The statement says Mr. Dieck has wasted the city's money on theatrical schemes and has been petty in his dealings with employees.

While the election, reads the statement, "will cost the city a little, it will be economy, these members of the Commission are wasting monthly far more money than the cost of the election."

Candidates Are Announced. E. E. Kennedy, who is to be the recall committee's candidate for Mayor, has been a resident of Portland nearly four years.

Logan Is Questioned. According to City Attorney LaRoche the recall amendment to the constitution contains additional legislation by the State Legislature, which legislation has never been attended to.

Inefficiency Is Charged. In the petitions as filed by the recallers the three officials are charged with inefficiency.

Local Advice Wanted. City Auditor Barbur put clerks to work checking up the petitions as soon as they were filed yesterday.

With the filing of the petitions the recall committee issued a general statement in which their views are given in detail.

Mr. Albee says he is impressed particularly upon Mr. Kennedy that he need expect no political favors on position.

As soon as the recall petitions were filed yesterday the recall candidates got their nominating petitions out and started to circulate them.

Reductions on 500 Commodities Announced.

Reductions on 500 commodities in carload and less-than-carload lots, that range from 15 to 20 per cent and in some cases 40 per cent, have been made by the American-Hawaiian between Portland and New York.

Portland to Greet First of Boston-Pacific's New Canal Fleet. Due at San Francisco today is the liner Atlantic of the Boston-Pacific fleet, a maritime organization fostered by the old Emery interests of Boston.

Atlantic Is Nearing Port. The coming of the Atlantic means that Portland is favored by three of the big lines operating in the intra-coast trade by way of the Canal.

Four Carriers Are Fixed. Chartered for lumber, presumably to be dispatched to the Australian market, the British steamer Strathdene has been fixed.

Independent Lines Busy. Another angle of interest to shippers is the inauguration of service between the two coasts by four independent steamship lines, and though it is recognized that they will bid largely for lumber business eastbound, they will seek return cargoes from the Atlantic side of just such material as is now being shipped by the regular lines.

Several Ships Coming. The American-Hawaiian has compiled its second tentative schedule to cover its second tentative schedule to cover October and November sailings that provides for the arrival of the steamer Navajo here Tuesday with cargo brought from New York and Boston.

Chinese Crew Refuses Double Pay. The Chinese crew of the Hamburg-American liner Saxonia, which is tied up here on account of the war, has refused an offer of double pay for voyage to Australia and back on the Norwegian freighter Henrik Ibsen.

Marine Notes. In the loss of the British steamer Bankfields, sunk off the West Coast by the German cruiser Leipzig, Portland mariners lost an old friend who also loaded here in November, 1908.

Bringling salmon from Alaska and lime from Roche Harbor, the Portland-Alaska steamer Thomas L. Ward is due today at the wharf and will sail on the return Wednesday night.

To work 500 tons of wheat afflicting the British ship Kirkcubright-ships was shifted yesterday from the Eastern & Western mill to the Globe elevator. She is being dispatched by Balfour Guthrie & Company and will probably receive her principal cargo at Albion dock.

Cargo for San Francisco aboard the steamer Alvarado consists of 700 tons of fruit and 4000 cases of salmon, while for Coos Bay she has 1000 cases of empty cans and 100 tons of merchandise.

Captain W. J. Silva has succeeded Captain Zumwalt on the steamer Vulcan and the latter replaces Captain Silva on the tug Cruiser.

Officials of the Willamette & Columbia River Towing Company have a plan under consideration of equipping either the steamer Gamecock or the Vulcan with passenger accommodations and operating her between Coos Bay and the Dalles in conjunction with the steamer State of Washington.

The Gamecock is on the ways at the yard of the Portland Shipbuilding Company having repairs made to her hull, she having been damaged last month when she struck a rock and sank in the Middle Columbia.

Grace & Company have chartered the Hammond steamer Geo. W. Fenwick to load at San Pedro for New York and Seattle and the Hammond steamer Geo. W. Fenwick has taken the steamer Olson & Mahony.

It is expected to ship a new rudder on the harbor patrol launch today so she can be returned to service, her old rudder having dropped off Wednesday night when she was responding to a fire alarm.

Chinese Crew Refuses Double Pay

Has Fine Action in the Blood

Does Real Work in Cleaning Body of Impurities.

It is to the skin that blood impurities are driven by Nature. And it is in the skin that S. S. S., the famous blood purifier, has its most pronounced influence.

S. S. S. is none the less effective in the joints, glands and mucous surfaces in driving out rheumatism, overcoming boils and ridding the system of cancerous growths.

The purely vegetable ingredients in S. S. S. are naturally assimilated but they enter the blood as an active medicine and are not destroyed or converted while at work.

Upon entering the blood S. S. S. is carried throughout your body in about three minutes. And in a brief time it has set into action all the forces of the body, arouses digestive secretions, stimulates the blood circulation to destroy disease breeding centers.
