Prime Minister Borden Gives Out News of Another Army for Great Britain.

TOTAL WILL BE 55,000

Seven Thousand Horses Are Also Provided and Organizations Are Thoroughly Equipped to Engage in Warfare.

OTTAWA, Ont., Oct. 6.—Canada will raise immediately and send to the front a second expeditionary force of 20,000 men with a first reinforcement of 10 per cent, making 22,000 in all. This decision was reached at today's Cabinet Council. The second contingent will bring the total of Canada's force at the front up to more than 50,000 men.

The government proposes forthwith to organize and train a second expeditionary force of 20,000 men with first reinforcements of 10 per cent, making 22,000 in all. This force will be organized as expeditiously as possible and the arrangements for providing the necessary armament and equipment are already in progress. The government is also making preparations to organize and train the necessary further reinforcements for the first and second expeditionary forces.

As to the disposition of the forces already dispatched the Prime Minister said:

"According to the report of the chief embarkation officer the total force embarked at Quebec amounted to nearly 33,000 men besides 7000 horses and a proper complement of guns and vehicles, with full equipment for men and horses. The transportation of this force required no fewer than 31 large steamships. It is probable that on arrival in England the force will be organized as follows:

"Field troops, including a first reinforcement of 10 per cent, 25,400; line of communication troops, 2100; total force at the front 27,500.

"That will leave about 4500 men for training in Great Britain who will constitute a regiment of nearly 20 per cent for the men at the front.

actions on the island of Jaluit is in accordance with this understanding, and a more or less official statement is expected that the Marshall Islands, after the extirpation of the German naval base there, will either be vacated by the Japanese or turned over to the British, their future to be decided in the conference which must terminate the present war.

Officials at the British embassy were told today in their assurance that the act would in no way develop violation of the memoranda limiting the scope of Japanese military activity. This being the case, the Japanese aggression was reiterated and declared to be a proof that

the seizing of Jaluit was merely a temporary act.

### Japanese Embassy Explains.

Late today, after receiving an official cablegram from Tokio, confirming the destruction of the German base at Jaluit, the Japanese embassy issued the following statement: "In this connection it may be recalled that the German men-of-war have been making appearances in the Pacific and the South Seas and have been disturbing the shipping ever since the outbreak of the present war, and that this fact has last compelled the allied fleets of Japan and Great Britain to decide on expeditionary measures to keep the routes clear, as was recently reported in the press.

"In the light of this fact, it may be safely concluded that the action taken by a portion of the Japanese squadron above referred to is nothing but a step for the fulfillment of the expeditionary mission."

### Higher Rates Desired

Railway Campaign to Be Conducted in States.

Northern Pacific Meeting Resolves on Direct Campaign in Hope of a Speedy Conclusion.

NEW YORK, Oct. 6.—The necessity for higher passenger and freight rates was urged at the annual meeting of the Northern Pacific Railway Company in this city today. The principal argument was made by G. A. Buder, of St. Louis, owner of a substantial amount of Northern Pacific stock, and spokesman for other Missouri shareholders.

Mr. Buder advocated that the question be taken up not with the Interstate Commerce Commission, but with the individual state commissions, which, he believed, would insure more speedy action. These commissions would be asked to restore the 3-cent passenger rate and an increase of 10 per cent in freight rates.

Resolutions empowering the directors to take action along the lines suggested by Mr. Buder were unanimously adopted. The proposed campaign will include the states traversed by the Chicago, Burlington & Quincy road, in which the Northern Pacific has a half interest.
