Women's Clubs
By Edith Knight Holmes

A LARGE delegation of representatives of clubwomen and others interested in our welfare were guests yesterday at a reception given by Mrs. W. J. Hawkins in compliment to Mrs. Jessie Hardy Stubbs, of Chicago. During the afternoon an informal parlor talk was given by the Eastern woman, who told of her work in the cause of equal rights for women. In introducing Mrs. Stubbs Mrs. Hawkins said:

"If the struggle for equal suffrage involves principle, then it involves every woman. If it is acceded in one state then it is right that it should be in every state. State lines in no way affect principle. The women who have undertaken to work for this principle, to be logical and just, cannot in any way excuse themselves from their labors until the whole task is accomplished. In this case surely only one thing can be done at a time."

"There is another attitude which literally says: I have all I need—you get yours the best way you can. Surely, this is far below the actions of womanhood. Everybody would laugh at a man who had accumulated a fortune by day labor and therefore, claimed that he must forever labor with his hands to prevent his capital from accruing interest. And yet that is exactly what we as women would be doing if we did not use the power our acquired vote gives us. We can afford to wait for party alignment; it won't be long if we all stand together. Let the men work alone a while longer in party politics. We will line up with them sooner or later."

Mrs. V. M. C. Silva entertained the members of the Daughters of the Confederacy yesterday afternoon. Charming Southern hospitality characterized the social part of the afternoon. An entertaining programme was given.

The public will be welcome to attend. Mrs. Felts, in accepting the invitation, said: "I think that cooking lessons and lectures on domestic science, given in a practical way, are perfectly splendid. I shall be delighted to attend and hope all housekeepers, mothers who have families to cater for and all members of the Parent-Teacher organizations will take the opportunity offered."

Mrs. C. W. Hayhurst, prominent in social service and club work, said: "I am planning to go every day. The chance of hearing so great an opportunity as Mrs. Vaughn is one not to be missed. Economy in cooking combined with the ability to make tasty and attractive dishes is an art."

Baby mesh bags in German silver rival those of sterling in the coarser meshes. They are quite as pretty as the sterling and much less expensive.

they would thoroughly enjoy. Such employment works harm in several ways. Suppose they were making beautiful silks or embroideries or hammering out exquisite metal work instead of making this useless stuff! Don't you imagine they would find more pleasure in that? "I don't believe people who work in factories get much pleasure out of their work, whether they make silk or lettuce for soup," replied the other practically.

"As some factories and workers are noisy, perhaps not," admitted the Housekeeper. "But the environment as it should be and then the nature of the work to be done will matter a great deal. And the worker who is making something useful and worthwhile will be happier than the one who is producing useless things to minister to the vanity of the mere desire for novelty."

"Here comes the fish," laughed the other. "I hope there are no building blocks or Noah's Ark animals garnishing that."

"You see yourself how childish such things are," smiled the Housekeeper.

COST OF JURY CASES CUT

Through better management in handling jury cases in Circuit Court, Deputy County Clerk Mahaffey is able to make a much better showing for the September term of court than for the corresponding period of last year. County Commissioners Holman, Lightner and Hart, yesterday. Present, also, were District Attorney Evans and Henry Teal, members of the advisory committee on bonds.

It was decided yesterday to offer bonds in denominations of \$100, \$500 and \$1000, and provision will be made to retire bonds to the amount of \$10,000 every five years. They will bear 5 per cent interest.

It was the suggestion of Commissioner Lightner that preference be given to small investors in the sale of the bonds. He already has been approached, he said, by one man of this city who asked that he be allowed to take a block of the bonds. Mr. Lightner believes that, by proper methods, the bulk of the securities can be marketed here and the money kept at home.
