DELATED TOTALS

Registration Lists Swelled by Outlying Towns.

REPUBLICANS FAR AHEAD

Clerks Check Over Books to Cut Out Duplications, Rushing Work to Have Names Ready for City Recall Election Nearing.

Registration totals were increased yesterday by the receipt of late figures from Gresham, St. Johns and Troutdale, where justices of the peace added 510 names last Saturday not previously reported. This makes a total registration for Multnomah County of 94,456. Of this number 58,498 are men and 35,958 are women.

The correct figures being the Republican total up to 50,958, almost two-thirds of the entire registration. Democrats number 22,512, independents 1451, Progressives 1898, Prohibitionists 3748 and Socialists 1599. The East Side registration remains at 61,166, being 35,945 men and 25,221. The West Side figures are unchanged, the total being 23,235, of which 17,985 are men and 16,250 women. The outside of Portland total is increased, being now 7925. Men number 5748 and women 2557.

Figures Show Heavy Gains.

These figures show great advances over the total registration prior to the last general election in November, 1912, chiefly due, of course, to the fact that women have since been granted the franchise. However, there are 6221 more men registered now than in 1912. Registration then reached a total of 52,087. The East Side had qualified electors to the number of 36,787 and the West Side 16,788, while the county outside of Portland showed a total of 4312. Registration two years ago was divided among parties as follows: Republicans 29,892, Democrats 8450, Independents 1454, Socialists 1168, Prohibitionists 574 and Progressives 419. Miscellaneous registrations and voters who refused to state their party affiliations numbered 120.

County Clerk Coffey put a large force of expert clerks to work last night on the registration books, who will check over the entire list for duplications with the least possible delay, as the East and West Side Justices are wanted for use at the coming city recall election.

Duplications Are Found. A considerable number of duplications are being found, so that when finally corrected the books will show a total somewhat less than that now listed. Many who registered prior to the primaries again got their names on the books during the recent registration.

Many incorrect addresses were given by persons living on street corners, as they frequently confused the intersections, giving the wrong corner as their address. Many families living in the apartment-house districts, where almost every street corner of an intersection may be in a district, have separated themselves because some members gave their addresses incorrectly. These errors were advised of their mistakes by postcard and directed to call at the registration offices and correct their addresses.

John H. Green, a student Republican, who has a barber shop in Rose City Park, forgot where he lived and registered last week from his business address. Fearing his right to vote might be threatened, he called at the Courthouse yesterday and rectified his error.

Among belated registrations by notaries public were two from Malheur County, George W. Saunders, a sheepherder, and J. E. Shreves, a bridge man, who gave their Portland addresses as the Arlington Hotel.

JOHNSON TURNS ON FOE CONGRESSMAN COMING TO ANSWER CHARGES OF PROGRESSIVES.

Candidate Writes He Will Have Records of His Activity for Rivers and Harbors Bill.

VANCOUVER, Wash., Oct. 19.—(Special.)—Albert Johnson, of Hoquiam, representative in Congress of this district, is coming to this county and the points in the district as soon as Congress adjourns, or recesses, on October 20, to answer some of the charges made against him by Stanton Warburton, Progressive candidate.

In paid advertisements, Mr. Warburton offered \$25 for any word Mr. Johnson ever uttered before the House committee on rivers and harbors. In a letter to Gordon Stuart, of Vancouver, Mr. Johnson said, "I doubt if Brother Warburton will be inclined to pay the \$25 and think he will excuse himself on the claim that in the body of his paid advertisement he referred not to the record of the rivers and harbors board of engineers, but to the Congressional Record and house committee on rivers and harbors."

"In other parts of the district he charges that Congressman is foolish to go before the rivers and harbors board unless he has a favorable report from the engineer board. Therefore, if his charge at Vancouver stands, his charges in all other parts of the district die. At any rate, you may be assured that I did all possible for all projects and that when I get home I shall have a photographic copy of the index or records of the rivers and harbors engineer board, which will answer all charges along these lines."

"I will be in Vancouver October 25, all day, and will speak there that night, and the next day go into the county. Republicans in Vancouver are planning to give Mr. Johnson a demonstration and they will provide a big hall for a big meeting October 26."

reduced to \$9250. This sum does not include the outside aid to poor, which is estimated at \$14,500, or the maintenance of the county poor farm expenses, estimated at \$4140. It has been found by the Commissioners that some women, who scorned to ask for aid from the county before the pension law went into effect, promptly applied under the act. It is believed here the Legislature will amend the law.

Why drink water when you can get SALEM BEER the most popular beverage on the Pacific Coast? SALEM BEER is brewed in one of the most modern plants on the Pacific Coast. It is aged in steel glass-lined tanks. It is conveyed by modern pipe line system direct to the bottle house, bottled under pressure and therefore never comes in contact with the air from the time it leaves the fermenting tank until the bottle is opened by the consumer. The consumer is absolutely assured a beer of ideal effervescence, snap and purity. A trial will surely convince any one of the excellence of Salem Bottled Beer. The family trade of Portland is supplied by the firm of PENNEY BROS.
