LEITER IS CONFIDENT

Hanley Manager Tells How and Why His Candidate Will Win.

"MACHINES" ARE CENSURED

Republican "Ring" and Democratic "Royal Family" Declared to Have Estranged Many Members of Both Prevailing Parties.

"The Democrats admit that William Hanley is making inroads into the Republican strength; Mr. Moores admits

Independents, 11,900 7,400 1,000 1,500 1,500 TO,875 Independents, 11,900 7,400 3,000 1,500 TO,875 The Socialist candidate will receive about 15,000 votes and the Prohibition candidate 4000. It is estimated that 10,000 voters registered as Republicans will vote the Socialist ticket.

Farmers' Vote Expected.

"Mr. Hanley's supporters in every county in the state have sent in encouraging reports. The workers and the farmers are back of Mr. Hanley. The undercurrent of silent votes will go to Mr. Hanley.

"There is one thing certain that the balance of power in this election is held by the Progressive Republicans, and Hanley will get 53,000 of them. He will get one-third of the Democrats. The Progressives Republicans, Prohibitionists and Socialists will give him at least 15,000 votes, enough to bring his total up to 90,000

crats. The Progressives, Independents, Prohibitionists and Socialists will give him at least 15,000 votes, enough to bring his total up to 90,000.

"There are three brands of prosperity offered to the voters: The Chamberlain free trade brand, the Booth high protective tariff brand, and the Hanley brand of moderate protection, and the elimination of all tariff squabbles and disputes from the halls of Congress through the appointment of a nonpartisan and scientific tariff commission. But more important than anything else so far as the prosperity of the state of Oregon is concerned, is the actual carrying out of Mr. Hanley's programme for developing Oregon out of the proceeds of its own great natural resources, and compared to that the tariff question is a small issue.

"There are three brands of prosperity of the gland brand, and the Booth high protective tariff brand, and the Hanley brand of moderate protection, and the elimination of all tariff squabbles and disputes from the analysis of Congress through the appointment of a nonpartisan and scientific tariff commission. But more important than anything else so far as the prosperity of the state of Oregon is concerned, is the actual carrying out of Mr. Hanley's yrong John Pipes asked us the other day if we did anything besides edit this paper, and we told him No, but that we helped out a little on our est morning contemp, when there was a rush of work.

"The state of Oregon is concerned, is the other day if we did anything besides edit this paper, and we told him No, but that we helped out a little on our est morning contemp, when there was a rush of work.

"The standard Republicans are fight."

"The standard Republicans are fighting for the restoration of the old standpat Republican machine to power. Chamberlain and West are fighting for the continuance of the Democratic from Leadville last week, and Shad has ceased his heavy offensive operations against the down-town cafeterias.

Young Wall Tooze was down from Dallas last week G. O. P.

Chamberlain and West are fighting for the continuance of the Democratic "royal family" in power. The real issue is the election of a man who stands for, and will, in the United States Senate, fight for the welfare and prosperity of every man, woman and child in Oregon, and who has the brains and foresight and the energy to carry out his programme—William Hanley.

While the state of Oregon is strongly Republican, so far as the registra-tion is concerned, the great majority of the Republicans are Progressive Republicans. Irrespective of the merits of the present campaign, it is generally conceded that the Republican candidate cannot carry even one-half his party strength. With Mr. Hanley cutting down the strength of the Democratic candidate, the Progressive Republicans generally realize that they have to choose between Hanley and Chamberlain, and they prefer Hanley to Chamberlain on account of Hanley's moderate protective views.

Chamberlain's Attitude Criticised.

Chamberiain's Attitude Criticised.

"Mr. Moores and his friends who are in the saddle of the Republican party may some day win a victory, but when they do it will be because they have chosen as their candidate for Senator a man of strong progressive principles." But to the interests at present in control of the Republican party no progressive would have been acceptable, nor would Mr. Hanley have consented to have become a candidate of this small select midnight assembly.

"Senator Chamberlain's refusal to answer pertinent questions on his public record, to account to the voters for his stewardsip, his 'shoo-fly, don'thother-me' answer to any and all questions, and his refusal to meet Mr. Hanley in joint debate, have cost immany votes, being regarded as an open, when yous, being regarded as an open were an open of the stewardsip his 'shoo-fly, don'thother-me' answer to any and all questions, and his refusal to meet Mr. Hanley in joint debate, have cost immany votes, being regarded as an open of the record of the stewards of the struction and marine accidents will standard of her ships in whatsoever answer."

JUDGE WM. GALLOWAY

Candidate for Justice of the Supreme Court Judge A. S. Bennett, the well-known lawyer of The Dalles, has re-

cently written: "I have known Judge Galloway intimately for more than forty years, and have never found a better man. In both private and public life he is above suspicion or reproach. In his home, as a husband

and father, he is ideal. Truthfully has it been said of Judge Galloway: 'He has in more than one instance in the past shown that he has the courage of his convictions in difficult positions, and that he has 'made a record for honesty and courage.' He always does his duty as he sees it, regardless of consequences, and is absolutely in-vulnerable to 'pressure' or 'influence.' He has a fine legal education and is very familiar with legal principles and the administration of justice generally. His courtesy and kindly disposition are well known. He would make an ideal Supreme Judge."

Judge Henry E. McGinn, of Portland, one of the ablest Circuit Judges of Oregon, in a letter of September 21, 1914, writes:

"I have known Hon. William Galloway for a great many years. In fact I cannot say when I did not know him. He has always been a man of the highest integrity and courtesy. He is a candidate for the high office of Supreme Judge of the State of Oregon. If elected to this office, the state will be served in the best possible way. Judge Galloway has all the qualifications for a good Judge. Anyone who may take him for what I have here said will never regret it.
