

NEW BATTLE IS ON IN RUSSIAN POLAND

Stubborn Conflict of Several Days in Galicia Ends, Austrians Claiming Victory.

CZAR'S TROOPS DISLODGED

All Attacks on Teton Position Are Successfully Repulsed, Reports Vienna Government—Archbishop's Home Target.

VIENNA, via Amsterdam to London, Nov. 1.—The War Office tonight issued the following official statement: "A new battle has developed in Russian Poland. All attacks on our positions have been repulsed. The stubborn battle which had been raging several days in the district northeast of Turka and south of the Stary Sambor line (Galicia) resulted yesterday in a complete victory for our arms. Two infantry divisions and one rifle brigade of the enemy were dislodged from the position. Czernowitz is still held by our troops. The Russian artillery fire is directed especially against the residence of the Greek archbishop, but has produced little effect."

GERMAN RETREAT DELIBERATE

Clean Work Made of Bridges and Stores on Way From Warsaw.

LONDON, Nov. 1.—Professor Bernard Pares, the British government correspondent with the Russian army, telegraphs under date of October 30 the following account of the battle around Warsaw which is issued by the official press bureau: "I have spent some days at Warsaw and have examined the scenes of the recent fighting as far out as beyond Skierniewice. The Russian river line of defense ran along the Nieman, Babr, Narow, Middle Vistula and the Great Vistula. The Germans have not previously tested seriously the strength of the center of this line, and the Russian reports issued had so far only spoken of a northern and southern front. Warsaw lay beyond the defensive river line. A rapid seizure of the city before Winter set in would have greatly strengthened the Prussian northern front and would have endangered Russian occupation of Galicia. It would also have created a moral effect on the Poles and they might have supported any proposals to negotiate. The Germans advanced principally from the south, and they have greatly left in their hands. The German army corps reported a line southeast of Elone, and at Piotrow they were fighting more than six miles from Warsaw. The cannonade shook houses in the city. German aeroplanes dropped bombs near the railway bridges, the quarters of the staff and elsewhere, killing over 100 persons. The Germans in retreating made clean work of the bridges, railways and stores. There is every sign of a deliberate and well-executed retreat. Fewer prisoners were taken than in the case of the Austrians, the wounded being for the most part carried away."

Advance on East Prussia Front and Rout of Rear Guard Reported.

PETROGRAD, Nov. 1.—The Russian general staff takes the following announcement: "On the East Prussian front our troops are progressing in the region of Wladislawow (government of Suwalki) and the forest of Romenin. The German attacks in the region of Bakalarazovo on October 31, have ceased, following terrible losses suffered by the enemy. Beyond the Vistula we have advanced victoriously along the whole front. We have occupied Patrikau, Opatow and Piotrow. Battles took place in roads leading to Opatow, where we routed the rear-guard of the enemy. We took 400 prisoners and captured six rapid-fire guns, convoys and provisions. Upon the San River, near Leczawo, a Russian regiment which had entrenched itself step by step, reached the enemy's position and, profiting by the panic among the Austrians, took by assault a temporary fort. Five officers and 500 soldiers were taken and five rapid-fire guns were captured. A column of the enemy which descended from the Carpathians and fortified itself near Piotrow, was attacked and put to flight."

Advance Made Near Ypres. "Our troops have advanced near Ypres. At least 400 prisoners were captured; also some British guns. The forces filing to the westward of Lille also have progressed. Several prisoners were taken near Vally—about 1500. In the region of Verdun and Toul there has been only insignificant fighting. In the northeast the battle against the Russians is still indecisive."

Inundation Makes Ground Marshy and Trenches Unbearable.

HAVRE, Nov. 1.—The Belgian War Office issued today the following communication: "This morning the enemy, who still occupied part of Ramscappelle, was repulsed beyond the railway line between Nieuport and Dixmude. They lost a great number of prisoners and left many wounded on the field. On the other parts of our front the enemy made no further infantry attacks. The bombardment was rather violent at Nieuport during part of the day and intermittent on other points of our position. WHOLE FRONT IS ENGAGED

French Report Enemy Is Unable to Penetrate Allies' Lines.

PARIS, Nov. 1.—The following official communication was issued tonight: "During today we have repulsed violent attacks of the enemy in the vicinity of Libons, Le Quesnoy-en-Santerre, Vally-on-the-Aisne, and in the Bois de la Gurie, in the Argonne forest. To the north of Houain we have continued to make slight progress. Dr. Helfferich finds that the marked movements we have taken possession of the heights of Veraines de Sainte Marie. French official statement issued earlier in the day said: "The Germans have continued their fierce attacks throughout the region to the north, east and south of Ypres. All these attacks have been repulsed and we have made slight progress to the north of Ypres and progressed perceptibly to the eastward of this locality. At daybreak hostile forces, detaching from the Lys, succeeded in seizing Hellebecque and Messines, but these two villages were retaken toward evening by a vigorous counter attack on the part of the allied forces. On the rest of the battle front yesterday was marked by violent cannonading and several unsuccessful counter attacks by the enemy, which were intended to recover the ground conquered by us during the last few days. The struggle is still violent in the Argonne region, where the Germans, however, have made no progress. According to statistics furnished by our service in the rear, 783 German prisoners were interned during the week of October 14-20 alone. These figures do not include the convalescent wounded in our field hospital nor the detachments which are ready to be sent from the front to the rear."
