The election of the Republican state and Congressional ticket, with the exception of United States Senator, is indicated by incomplete returns covering the state generally. On the vote for United States Senator some returns have been received from every county, and, although George E. Chamberlain and R. A. # Tuesday's War Moves

NTEREST in the war shifted mo mentarily yesterday from land to sea. A rumor from Dover that the German fleet was issuing from its base o do battle, though unconfirmed, gave a fillip to the situation, and a note-worthy victory on Sunday last by a German fleet off the coast of Chile gave a decidedly new turn to the situation of British commerce in the Pacific Ocean. Five German warships engaged the fleet of Admiral Sir Christopher Cradock and came off victo-rious. One British vessel is known to have been sunk, one was in flames as she steamed away, and is believed to have been lost; one is badly damaged and is bottled up in a Chilean harbor, and a fourth was badly damaged when she sailed away. She was a transport, however, and had nothing to remain for in a losing battle in which she could not take part

The fleet of Admiral Cradock was eported some time ago in the Straits Withycombe Keeps Big Lead of Magellan, on its way to clear the Pacific of vessels that had threatened the safety of British vessels. The German vessels had recently been widely scattered, but assembled quickly, as results show, and attacked the British, whom they appear to have overwhelmed.

A state of war exists between Turkey on the one side and Russia, Great Britain and Servia on the other, yet the Ottoman government appears as a house divided against itself, one section Tax Exemption, Abolishment seemingly being desirous of war, while the conservatives are trying to smooth over the situation arising from the attacks upon Russian ports and ships by Turkish war vessels directed by German officers.

That the German army has abanioned its attempt to back its way along the Belgian coast to Calais is agreed by all the official reports tonight. A combination of inundated country

the remnant of the Belgian army under King Albert and the activity of the British warships, seemingly all contributed toward ending the costly struggle. A Berlin official report attributes the
