

SUFFRAGE HEAD IN 25 STATES, CLOSE IN

Women Believed to Have Won Ballot Tuesday in Montana and Nevada.

NEBRASKA IS IN DOUBT

Movement Certainly Defeated in Ohio, Missouri and Both Dakotas—Miss Addams Blames War, Mrs. Trout Politic.

CHICAGO, Nov. 4.—Woman suffrage leaders rejoiced tonight when belated returns indicated that votes for women had apparently won in two of the seven states voting on the question in Tuesday's election, with a third state in doubt. First returns had indicated defeat of the granting of the franchise to women in all seven states concerned.

Montana and Nevada, according to the latest returns, granted votes to women, while Nebraska showed such a small vote against the proposal that the women claimed the state. Missouri, Ohio and North and South Dakota refused to grant equal suffrage, the vote against granting the franchise to women increasing with the size of the population concerned.

In Montana, where workers of the American Woman Suffrage Association made heroic efforts to win the ballot, the vote was so close that the official count will be necessary to decide the outcome, but the women have a slight lead on unofficial and incomplete returns.

In Nevada, which seems won to the cause of equal suffrage, 105 precincts out of 240 gave 3619 votes for woman suffrage and 2508 against.

Miss Addams Blames War. Mrs. Jane Addams says that the European war has caused men to lapse back into primitive instincts and that it is the history of the world that in times of great crisis men desire to shoulder the responsibilities themselves and do not care to have women interfering in their councils or mixing in their plans.

"Ideals of reason are thrust aside, in times of war," said Miss Addams today. "Persuasion has no place in the psychology of men who are content with resort to force. The women are sent to the rear and not allowed to participate in the tribal councils."

Mrs. Grace Wilbur Trout, president of the Illinois Equal Suffrage Association, takes another view. "Our loss may be explained by the reluctance of the people to waver in their experimental issues at a time when a President, needing the solid support of his party, is managing a delicate situation in a world crisis."

"Big Interests" Also Accused. Mrs. Medill McCormick takes still another view, saying: "We are fighting against 'big interests'—the mining interests and the liquor interests. It is all a hard times reaction against President Wilson. We are suffering with the general reaction against radicalism, since woman suffrage is a radical movement."

Chicago and Illinois are grateful to the women voters, as was by their help that several splendid officials were pulled through yesterday.

The results in Ohio are especially depressing to the suffragists, who counted heavily on that state, but the suffrage movement seems to have been linked with the prohibition movement and both have been defeated. The women counted absolutely upon capturing Nebraska and were more confident than ever since Secretary Bryan had declared his opposition to it. It is noticeable that the women were defeated by the votes in the cities.

This can be traced, it is said here, in part to the foreign voting population in the cities, especially the industrial centers. It has been the experience in Illinois and adjacent states that practically all foreigners are opposed to suffrage. In this city, this has been overcome by the politicians, who realize the value of the additional votes.

Mrs. Dodge Says End Is Near. Holding that woman suffrage is doomed and that the backbone of the movement in this country had been broken by the defeats in the elections yesterday, Mrs. Arthur M. Dodge, president of the National Association Opposed to Woman Suffrage, today issued from Washington a statement expressing her satisfaction.

After pointing out that not one of the 18 candidates who were blacklisted by the suffragists had been defeated and declaring that Montana was only one of the seven states in which the suffrage fight was on to go into the suffrage ranks, Mrs. Dodge says: "Woman suffrage suffered its crushing defeat yesterday in spite of the fact that it had on its side great organization, many years of experience in campaigning and unstinted expenditure of money. In Nebraska, an announcement was made by the suffragists that they had \$500 available for the last 10 days alone of their campaign there. Tried campaign workers, in some states to the number of 200, could not affect the impression in the minds of the voters that woman suffrage is a radical and undesirable measure."

The most gratifying fact in connection with this fight has been the earnestness with which men studied the whole question. Apparently, they have been convinced that the time had come to deal seriously with the situation, they looked into it and decided to put a stop to a movement in which they could see no good. Woman suffrage has been stopped in the West, and it will encounter like fate whenever a vote is demanded on it again in the Eastern states.

"The suffragists made wild claims of victory before the election. 'When the gods would destroy their first-made,'" the results speak for themselves."

Turning the corner at East Water and Morrison streets on his motorcycle last night, Norman Myers, of 298 East Stark street, crashed into an express wagon and was knocked unconscious. His motorcycle was completely wrecked. Witnesses declare the expressman, whose name could not be learned, whipped up his horse and departed without stopping to see how badly the young man was injured.

Motorcycle Officers Long and Tully summoned the ambulance and Myers was taken to the Police Emergency Hospital. A severe gash on the head, a cut on one arm and numerous bruises were the extent of his injuries.

NEWS PLEASING TO PARIS (Continued from First Page) official report received by him from Furnes, on the Belgian coast half way

between Dunkirk and Ostend, the text of which is as follows: "Detachments of allied troops, which today pushed ahead as far as Lombardzyde, on the Yser front, below Schoorbaake, failed to discover any of the enemy. Only small detachments of artillery still remain in the direction of Westende and to the north and east of Schoorbaake. Small portions of the enemy's rearguard still are holding several bridges and farmhouses on the left bank of the river near Stuyvenkenskirke."

"An almost unbroken column of the enemy, composed of all arms and extending from Leke to the coast, has marched in an easterly direction. No forces of the enemy of any importance are reported to be in the Yser, but several supply trains have proceeded from Thourout in the direction of Roulers and Deinze on the Lys."

FIGHTING ALONG YSER SEVERE Germans at Bruges Awaiting Attack by Allies.

LONDON, Nov. 4.—A dispatch to Reuters' Telegram Company from Amsterdam says: "According to the correspondent of the Telegraaf at Sint, the fighting on the Yser front, Belgium, has quieted yesterday. It is reported the allies forced the Germans back to the village of Jabbeke, between Ostend and Bruges. Several trains filled with fresh troops from Ostend passed through Bruges without stopping."

"The Germans at Bruges are expecting an attack from the allies. All the drawbridges are raised at nightfall."

COLONEL IS COMFORTED PAUL'S WORDS TO TIMOTHY ARE BALM AFTER ELECTION.

"For Time Will Come When They Will Not Endure Sound Doctrine," He Quotes—Has Nothing to Add.

NEW YORK, Nov. 4.—When Theodore Roosevelt was asked today to express an opinion on the outcome of the election in New York State, he said: "In the Episcopal church lessons taken from the Bible are appointed for every day of the year. The lesson for November 3 includes the second Epistle of Paul to Timothy, chapter IV, which reads: 'For the time will come when they will not endure sound doctrine. But after their own lusts shall they keep to themselves teachers having itching ears and they shall turn away their ears from the truth and shall be turned unto fables.'"

"I have nothing to add to this at present. After all the returns are in I may have something more to say."

LINE IS HELD BY ALLIES BRITISH CAVALRY WINS ADMIRATION OF ENTIRE ARMY.

Territorials Get in Action and London Scottish Make Brilliant Charge. Foe Admits Heavy Loss.

LONDON, Nov. 4.—An official account of the operations of the British forces in Belgium issued by the press bureau today brings up to Monday, November 2, when the allies still were maintaining their unbroken line and had been reinforced to meet the attacks which this day threatened them. The report says: "The violent attacks were made by the First Army Corps and the cavalry. Large reinforcements evidently had joined the enemy's line at this point. The cavalry was defeated by the enemy and the commander of the First Army Corps maintained his ground. The cavalry has fought to the admiration of the whole army. Indian troops have been brought into the fighting line."

"On the night of October 30 a strong attack on Messines was beaten off. At one point the enemy, by dint of their masses, penetrated for a time into the line, but excellent counter attacks, which bayonets drove them back. The attack on the left wing was so pronounced that the British line was substantially reinforced by troops from home, which were moved up. The French also brought into the line some of their reserves to support the threatened wing."

"The London Scottish, the first Territorial regiment to take its place on the front line, made a brilliant charge. On November 1 they were attacked all along the line, but the enemy everywhere was repulsed and suffered a heavy loss. Our howitzers demolished two of the enemy's eight-inch guns."

"The maintenance of an unbroken line and the repulse of repeated assaults, which has caused in some cases the loss of entire columns and has greatly discouraged the German troops, has naturally entailed losses on the defending forces."

"The position of the allies has been strengthened and reinforcements of every description have been sent to meet the furious attacks."

POWER LINE KILLS HORSE Hay Derrick Touches Cable, Driver Shocked but Unhurt.

ONTARIO, Or., Nov. 4.—(Special.)—While Peter Tensen, a prominent rancher of this county, was turning a hay derrick near an electric power line between here and Nyas this afternoon, the cable came in contact with the line and the four horses hitched to the derrick instantly were killed.

Tensen, who was driving, received a shock, but was not injured. The Philippine produce about 10,000,000 gallons of nipa palm oil is being made from the sap of the nipa palm.
