

## LAND SHOW RECORD SET BY HILLSBORO

Orengo Joins in Sending Delegation of 480 Persons on Seven-Car Train.

## BAND ACCOMPANIES PARTY

President Dunne and Manager Buckley, of Products Exposition, Extend Welcome—Vancouver to Have Turn Today.

## PROGRAMME FOR TODAY AT MANUFACTURERS' AND LAND PRODUCTS SHOW.

Afternoon.  
3 P. M.—Vancouver Woman's Club. 4 P. M.—Lecture by Charles H. Flory, forestry service. The Dalles day.  
Evening.  
8 P. M.—Ad and Rotary Clubs. 8 P. M.—Third Streeters. Parade at 8 o'clock, reach here at 8:30 P. M. for exercises in theater. 8:30 P. M.—Military night.

All records for out-of-town attendance in organized delegations at the Manufacturers' and Land Products Show were broken yesterday, when Hillsboro and Orengo sent in 480 persons in observance of "Hillsboro Day." The Orengo band of 23 pieces accompanied the delegation and immediately after the seven cars that bore the crowd reached Portland, they paraded the streets to the Armory in force.

President Dunne and Manager Buckley, of the Show, received the delegation and a short programme was held in the little theater. Addresses were made by Mayor H. T. Bagley, of Hillsboro; E. L. Moore and R. M. Erwin.

Musical selections were offered by the Orengo band and by the Hawaiian singers. Members of the committee who were responsible for the great success of the celebration were: G. V. Payne, G. C. Combs and E. L. Moore.

After the programme in the little theater the crowd swarmed out through the exhibit pavilions or scattered through the city to visit the Commercial Club and special points of interest. A close rival of Hillsboro in numbers is expected to be found in the Vancouver delegation, which will have its day today. The Vancouver people will come over in the afternoon and will offer two programmes, followed by a military reception in the ballroom.

**Women to Give Programme.**  
The Vancouver Women's Club will give a programme in the afternoon and in the evening the following programme is offered by the Vancouver Commercial Club.  
Address of welcome, J. H. Ellwell; vocal solo, "Meditation" (Leoncanelli); Mrs. Margaret E. Gray; address, "Clarke County," James P. Stapleton; violin solo, selected, Professor John R. Knight; address, "Business Relations Between Vancouver and Portland," Lloyd DuBois; vocal duet, selected, A. J. Dorland and Robert Schulz; address, "Lively Statistics," E. E. Beard; song, "America" (in sign language), by student of School for Deaf. Awarding of prizes.

Rivaling the Vancouver crowd in the evening will be three organized Portland parties, the Ad Club, the Rotary Club and the Third Streeters. The Ad and Rotary Clubs will meet at the Portland Hotel at which address will be given by A. Neppach and Frank Klerman.

Aside from the Hillsboro programme yesterday the principal feature in the afternoon was a lecture on "Walnut Culture," by J. C. Cooper, of the Yamhill experiment station.

## SCHOOL STEP BY HONED

HAWTHORNE PARENT-TEACHER CLUB BACKING MOVEMENT.

East Side Business Men Lend Aid in Urging Purchase of Taylor Street Property for Building.

Petitions are being circulated by the Hawthorne Parent-Teacher Association and the East Side Business Men's Club asking the Board of Education to secure a site for a new schoolhouse to take the place of the Hawthorne grammar schoolhouse now located on the Washington High school grounds. It is set forth that the site at East Harrison and East Thirty-third streets is too far east and south to take care of the children attending the Hawthorne school. It is asked that the provision be made to purchase the site in this year's budget.

"We suggest that the site located at the northeast corner of East Seventeenth and East Taylor streets, including Yamhill street, be secured," the petitioners urge, "either by purchase or by condemnation and purchase. This block would give a site 260 by 260 feet, and later the Gulch property to the east can be secured for swimming pools, sunken playground and stadium in the heart of the city without cost of excavation. This site is located two blocks from the East Morrison-street carline, four blocks from Hawthorne avenue carline, one block from Belmont and East Salmon streets, two thoroughfares, and two blocks from East Twentieth street, which will ultimately have a cross-town carline."

It is expected to have the petitions assembled at the meeting of the Parent-Teacher Association this afternoon at 8:30 o'clock in the assembly hall of the Hawthorne school. Representatives from the entire district have been invited, including delegates from the East Side Business Men's Club and the Ladd Addition Improvement Association.

**PERSONAL MENTION.**  
N. Bragen, of Albany, is at the Nortonia.  
C. M. Everett, of Seattle, is at the Oregon.  
A. D. McCully, of Newberg, is at the Carlton.  
J. B. Werner, of Madras, Or., is at the Perkins.  
J. R. Carroll, of Chehalis, is at the Carlton.  
J. C. Cooper, Oregon's pioneer Eng-

lish walnut-raiser, is registered at the Imperial.

K. C. Earle, of New York, is at the Oregon.

W. E. Norton, of Salem, is at the Nortonia.

Will Madison, of Astoria, is at the Cornelia.

Estella Lanham, of Albany, is at the Cornelia.

F. L. Godard, of Cottage Grove, is at the Nortonia.

L. Barnum, a banker from Moro, Or., is at the Imperial.

C. J. Johnson, a contractor from Astoria, is at the Oregon.

Mr. and Mrs. C. E. Shinn, of Hood River, are at the Nortonia.

A. J. Cooley, a merchant from Omaha, Neb., is at the Multnomah.

Charles V. Brown, a merchant from Astoria, is at the Imperial.

C. W. J. Reckers, of White Salmon, Wash., is at the Cornelia.

Mrs. F. A. Plisher, wife of an Astoria merchant, is at the Perkins.

M. Adams, a merchant from Medford, is registered at the Perkins.

Charles Seaver, a book dealer of Seattle, is registered at the Seward.

Mr. and Mrs. Stuart Mannell, of Lewiston, Wash., are at the Carlton.

C. J. Vassar, an undertaker from Lewiston, Idaho, is at the Oregon.

Bob Mabry, a mine owner, is registered at the Perkins from Spokane.

John Bader and William H. Bader, of Cottage Grove, are at the Carlton.

William J. Pedler, an automobile

dealer from San Francisco, is at the Multnomah.

Victor Seeburg and R. W. McLean, two Astoria business men, are at the Multnomah.

M. S. Whitman, a professor at the State Normal School at Monmouth, Or., is at the Seward.

R. N. Stanfield, Representative-elect to the State Legislature from Umatilla County, is at the Imperial.

John G. Collins, Russell Ambus and O. M. Gaston, three Government surveyors, are at the Seward on their way home from a summer's work in South-eastern Oregon.

**Audience Applauds, Thinking Arrest Part of Play.**

Detestive Sells Three Pugnacious "Strong-Arm" Suspects.

W

HILE 300 patrons of a Sixth-street nickelodeon applauded vigorously, thinking it a part of the performance, Detectives Coleman and Snow walked up onto the stage of the theater and placed three alleged notorious "strong-arm" men under arrest.

John Ashburn, William McLain and W. A. Strong, the three men, were giving a boxing performance, and after they had weakened themselves by their exertions the detectives seized them.

Ashburn and Strong are being held on charges of vagrancy, while McLain is charged with passing a forged check for \$10 on the proprietor of the Muller Hotel, at Sixth and Burnside streets.

While Riley Ross stood behind the counter of a cigar stand at Eleventh and Washington streets, which, it is said, he owns in part, Fred Urlick, of 193 Chapman street, and Detectives Coleman and Snow were busy examining the clothing worn by Ross.

"Them's mine, them's mine," excitedly whispered Urlick to Coleman.

Fourth the detectives placed Ross under arrest and charged him with having entered the rooms of Urlick and with having stolen a diamond pin, a watch and a suit of Urlick's clothing the night of November 3.

Special Agent McChane, of the Southern Pacific Company, assisted Coleman and Snow in the day's campaign.

American "cowboy" pictures continue to captivate children and even the whole public.

**COAST-TO-COAST LINER LOADS LUMBER AT WAUNA FOR BOSTON YARDS.**

At the Wauna plant of the Crosssett Western Lumber Company the steamer Atlantic, of the Boston-Pacific fleet, loaded 800,000 feet of lumber, some of which was tied for use at and near Boston. The vessel is on her maiden voyage from the river and sailed the last of the week by way of San Francisco, where she will be in company with her sister ship, the Pacific, which has reached there on her way to Puget Sound, also being on her initial voyage.

**STEAMER ATLANTIC.**

At the Wauna plant of the Crosssett Western Lumber Company the steamer Atlantic, of the Boston-Pacific fleet, loaded 800,000 feet of lumber, some of which was tied for use at and near Boston. The vessel is on her maiden voyage from the river and sailed the last of the week by way of San Francisco, where she will be in company with her sister ship, the Pacific, which has reached there on her way to Puget Sound, also being on her initial voyage.

**HYDROGRAPHIC OFFICE NOTICE.**

Thomas Jackson, of the steamer City of Seattle, reports that November 1 he saw numerous icebergs between Ico-

berg Point and Outer Point, Lynn Canal, very dangerous to navigation. Also that November 4 Nell Point light, Vancouver Island, and Island Point light, Stukken Straits, were not burning.

Captain C. W. Delano, of the American steamer Kentuckian, reports by radio that at 4:15 P. M., November 6, when in latitude 48:25 N., longitude 124:57 W., we passed a log 15 inches in diameter standing upright six feet out of water. R. R. Smith, Lieut. (J. G.) U. S. N., in charge.

**ST. HUGO IS FOR LIVERPOOL.**

Balfour, Guthrie & Co. Will Accept Outside Shipments.

Balfour, Guthrie & Co. have placed the British steamer St. Hugo on berth to load general cargo for Liverpool. After the steamer had shifted from the North Pacific mill to Montgomery dock yesterday it was given out that she would accept shipments of a miscellaneous character for that port, though up to that time it was understood that she would only work wheat for the firm. The news also came as a surprise because some firms have evinced such reluctance about making known the destination of ships carrying food-stuffs.

The British steamer Uruguay, which M. H. Houser recently fixed for wheat, sailed from Norfolk Sunday and the same day the Japanese steamer Asanuma Maru, coming to Mitsui & Co. for cereals, left San Francisco for Portland and will first go to Municipal

berth Point and Outer Point, Lynn Canal, very dangerous to navigation. Also that November 4 Nell Point light, Vancouver Island, and Island Point light, Stukken Straits, were not burning.

## HUGE TRAFFIC SEEN

Portland Likely to Have Record Grain Shipments.

## ACREAGE INCREASE DUE

Tonnage Not Viewed as Doubtful if Britain Continues to Be Chief Buyer but Freight Probably Will Be High.

Barring losses to growing grain next year through hot winds or other causes, predictions are made that in the 1915-16 season Portland will dispatch more tonnage loaded with cereals than ever before in its history, providing also that the European conflict continues. Besides increases in acreage for winter wheat, which are natural, it is expected, it is estimated that fully

1,000,000 acres in the Northwest will be sown in spring wheat.

The latter, it is pointed out, may not all be stubble that is going back from this year's summer fallow, but information reaching here is that every available acre of land will be utilized in the wheat growing sections, a general activity that has been brought about by prevailing high prices.

In a favorable year it is said spring wheat will run 15 bushels to the acre and that it is just as good as winter wheat, though more likely to be caught by hot winds.

**Winter Wheat Favored.**

Winter wheat is more favored because it has the advantage of getting a strong growth and reaps strength from heavy rains and snow moisture, while spring wheat is nourished only by rain falling after it is sown.

Russia, France and Germany though all large wheat producers, are in a fair way to have their crops curtailed enormously because in each country so many have been called from the fields to the army and a continuation of the conflict means that there will be materially less acreage in wheat, owing to the lack of farm laborers and not only will the crop be neglected, but the consumption will be increased, which will stimulate high prices and should produce an active demand for Northwest grain.

Unless a radical change is wrought in the present war map, Great Britain will continue to be the heavy purchaser, and for that reason the question of tonnage with which to move the crop is not looked upon as doubtful.

Freights will no doubt be stiff in view of the hampered movements of German vessels at large and the added fact that England's merchant marine has been decreased through destruction, capture and seizure. By then, it is assumed, many more foreign carriers will have adopted the Stars and Stripes for protection and engage in the wheat trade.

There have been 74 vessels so far to come under the United States flag from those of belligerent nations, which 57 are steamers of 245,617 gross tons and 17 sailers of 24,197 tons, virtually all coming under the flag during September and October. It is reasoned that there will be many more before the war is terminated.
