ONE of the most elaborate home weddings of the early season was that of Miss Lou Constance Killingsworth and Harry A. Swart, which was solemnized last night at the home of the bride's parents, Mr. and Mrs. William M. Killingsworth, Rev. Luther R. Dyott officiated, and Miss Fay Killingsworth, a sister of the bride, sang, and the wedding march was played by Miss Grace Jarvis. An artistic scheme of pink, lavender and white was developed throughout the floral decoration and the gowns of the bridal party. The ceremony was read before an improvised altar, tall standards topped with baskets of white, feathery chrysanthemums and linked with broad satin ribbons forming an aisle from the staircase to the altar.

The bride was attired in a handsome gown of soft white satin, elaborated with chantilly lace and pearl trimming. Her full-length veil was fashioned in a mob cap and adorned with white and pink ribbons. She carried an artistic shower bouquet of bride's roses and lilies of the valley.

Miss Flawnice Killingsworth, a sister of the bride, was maid of honor, and was attired in a handsome gown of lavender satin, embellished with lace, and she carried a bouquet of roses. Misses Hazel Cook and Rae Killingsworth were bridesmaids and wore pink taffeta gowns, and carried Killingsworth roses.

Little Margaret Farrington acted as ringbearer and was charming in a lace frock over pink silk. Herbert Clarke acted as best man.

After the ceremony a large reception was held, hundreds of invitations being sent out. Receiving with the bride party were Mr. and Mrs. Killingsworth and Mr. and Mrs. Warren Swart, parents of the bride.

Mrs. Chandler gave a sketch of the life of Confucius and Mrs. Brewster read a number of Chinese poems. Each member read a proverb of Confucius. The rooms were lighted with Chinese lanterns and decorated with flowers and Chinese articles. The refreshments were also Chinese.

ILLUSTRATED talks will be given in the Young Women's Christian Association next Monday, Tuesday and Wednesday evenings by Miss Carrie Holbrook, Miss Laura Miller and Mrs. John Bell. The regular monthly social for girls will follow the Tuesday night address.

Miss Holbrook, president of the association after a month's absence visiting relatives in Lewiston, Idaho, was in her accustomed place at the board meeting Tuesday.

Mrs. James Failing, secretary of the board, also has returned after a two months' trip East.

Miss Marian Briggs, chairman of the social committee, had charge of the vespers service last Sunday. She gave an interesting illustrated talk on Indian art and handicrafts. A large number remained for a chat over the teacups. The social hours are a blessing to the girls who are strangers in the city.

The display of hats made by the domestic arts students attracted considerable attention last Saturday. The chapeaux would have done credit to a smart hat shop. Many who attended expressed a regret that it was not a sale instead of an exhibition. There are now 91 enrolled in the millinery department and new classes are forming. Classes in Bible study, teacher training and story telling were organized by Miss Wicker, secretary of religious work. The housemaid's Bible study class numbers 72.

An effort is being made to send four Y. W. C. A. secretaries to the foreign field from the Pacific Coast. Arrangements already have been made to send three from California and a campaign is now on to raise funds from the membership of the Young Women's Christian Association in the cities and colleges of the Northwest to send one worker from this district. The Y. W. C. A. has now about 40 American secretaries in the foreign field.

Take-It-Back Day.
THE progressive West has instituted a new custom. Trust the West to think up new and unheard-of things and put these ideas into effect, if they seem practicable.
This new idea that has been launched is a take-back-what-you-borrow day. It started this Summer in one of the Western States and has already spread so rapidly that the take-it-back day promises to become a yearly event in many Western cities.
It is a day when every one in the town celebrating it returns everything he has borrowed.
Rather a clever idea, isn't it?—useful and highly amusing. It not only brings joy to the heart of those who see long-lost articles returning in the hands of beaming or contrite neighbors. But it brings many a good laugh as well.
In one town that observed it, the Mayor's wife received an ice-cream freezer that she had not seen for two years, and in the meantime it had passed through the hands of at least six neighbors, each one of whom had borrowed it in turn. The editor of the local paper had returned to him a halter that he had loaned to a farmer 21

OLD WITCH BETTO stood in the doorway of her cave on top of a high mountain. Old Witch Betto was very angry. The people of the village were giving a fete to which she had not been invited.

In her cave on the top of the mountain she was calling down the rain and spoiling their fete. Such rain had never been seen before. The valley was like a sea of mud. The people were angry. The whole town that night was in a state of confusion. The rain was so heavy that the people were unable to get to their property back and at the fun it had been doing it.

The idea started from a grudge, it is said. An employe of a municipal department in the Western town that originated the scheme complained bitterly about those who borrowed his things and did not return them. In a fit of temper he exploded that there ought to be at least one day in a year set apart for people to take back what they had borrowed. The idea caught. His fellow employes took it up. The Mayor heard of it. And Take-It-Back day was instituted.

But even if the Mayor of our town doesn't institute a Take-It-Back day, can't we have one of our own?
Why not look among our books and take back all the borrowed ones. Some one perhaps is mourning the loss of some cherished volume that is now complacently resting on shelves.
How about that preserving kettle borrowed to make jelly, or those cake pans asked for the ligan of when company comes?

Haven't we still that pattern we borrowed to make Mamie a dress or Willie some bonnet?
Perhaps you've yet those road-maps or blue book borrowed from a motoring friend for that little run taking in the country.

Does any of that music lying on the piano belong to kindly disposed neighbors whose new pieces we wanted to try?

Suppose we look about the house, into the bureau drawers and closets, in the cellar, in the toolhouse and garage. Perhaps we'll be surprised to find a bit mortified at the things we'll find that are not our own property, but are the kindly loans of friends and neighbors.

The very thought of Take-It-Back is stirring, isn't it? It wakes us not only to the things we have borrowed, but to the ready help friends and neighbors have given in a time of need.

THE annual open meeting of the Big Sisterhood was held yesterday afternoon in the People's Institute. Interesting reports told of good, sisterly work that is being carried on in the city in an unostentatious but thoroughly practical way. Miss Valentine Pritchard, chairman of the organization, said in her address: "The vital requisites for a big sister are time and wise judgment. The latter is the more important, that breadth of view, charity, wisdom in diagnosing cases and an insight as to methods of procedure and in all she must have patience and perseverance."

The following are suggestions that were offered to the Big Sisters:
"Call on the girl at her home. You can better enter into real sympathy with her when you know the life she lives and the air she breathes."
"Become acquainted with her father and mother. The battle is half won when you have gained the confidence of the parents. By knowing the family you can often show them how to help the girl—and you can help them, too."
"See what can be done to improve the home conditions. The lack of real home life is generally the cause of the girl's trouble."
"Do not give financial aid except in extreme cases. If such is needed, communicate with the institute. See the girl's teacher. She usually has a good idea of what the girl needs."
"If she is not in school or at work the best thing to do is to get her back in school, if possible. A Big Sister can do wonders in arousing a girl's ambitions."
"Take her to a concert or to a good, clean play and she will begin to lose her taste for the undesirable variety. Don't patronize. You may know more about virtue, but the girl is probably a better expert on temptation."
"Above all, remember that you are a Big Sister; that you were once a girl. Be patient. Some one had to be patient with you. Your girl is not yet a woman. It is your task to make her one."
"Try to encourage the habit of reading. Give or lend her a book or a magazine. Spend an evening with her home and read a good story with her."
Stories of the work that were told of human interest were told by Miss Lillian Sabin, Mrs. W. B. Osborn, Mrs.

Bertha Davis, Mrs. Forest-Fisher, Mrs. Etta McOmber, Mrs. E. Jobs, Miss Chandler, Mrs. Margaret Thorman and Miss Emma Butary.

An appeal was made for more workers and for an increased interest in this constructive work which means all that the name signifies—being in reality "big sisters" to less fortunate little sisters.

Miss Mabel Riggs sang two groups of songs and received a well-deserved encore. She was accompanied by Miss Clarice Biles.

Holiday Parent-Teacher Circle will meet at the schoolhouse Friday at 3 o'clock. Mrs. Robert H. Tate will give an address. All members and friends are invited. Mrs. Laurence Holbrook is president.

The first of these regular meetings, held every Friday afternoon at 3 o'clock in room A, Library, last week, Mrs. L. A. Deaneau, who spoke on the importance of teaching the geography of the Bible and this week she will continue the subject, "How to teach the geography of the Bible." All persons interested in Sunday school work are invited to attend.

Why Not Have Perfect Lenses

Improvements and betterments in glasses are just as frequent as in anything else.

Until a few years ago all lenses were made because no one had thought of a better way to make them.

Today nearly 90 per cent of lenses fitted are Toric lenses, curved to follow the shape of the eyeball.

Toric give a perfect range of vision from every angle—the edges do not confuse you when looking from the corner of the eye.

Let us demonstrate the many advantages of Torics made by us.

LADIES' HAIRDRESSING IN LONDON AND PARIS

A returned traveler says, "When I was in Europe this year I found both cities so thickly dotted with hair-dressing parlors and hair goods stores that I wondered if the women ever had time for anything but care of the hair. Personally I was interested in finding a really good shampoo and was happily surprised when several inquiries each brought the suggestion that our own American-made canthrox shampoo is best. I tried it and have decided that it is not advisable to use makeshift but always use a preparation made for shampooing only. You can enjoy the best that is known for about three cents a shampoo by getting a package of canthrox from your druggist; dissolve one teaspoonful in a cup of hot water and your shampoo is ready. After its use the hair dries rapidly with uniform color. Dandruff, excess oil and that irritating scalp condition disappear. Your hair will be so fluffy that it will look much heavier than it is. Its lustre and softness will also delight you, while the stimulated scalp gains the health which insures hair growth."—Adv.

French Remedy Aids Stomach Sufferers

France has been called the nation without stomach troubles. The French have for generations used a simple mixture of vegetable oils that relieves all stomach and intestinal ailments and keep the bowels free from foul, poisonous matter. The stomach is left to perform its functions normally. Mr. Geo. H. Mayr, a leading druggist of Chicago, cured himself with this remedy in a short time. The demand is so great that he imports these oils from France and compounds them under the name of Mayr's Wonderful Stomach Remedy. People everywhere write and testify to the marvelous relief they have received using this remedy—one who suffers from stomach, liver or intestinal troubles. Mayr's Wonderful Stomach Remedy is now sold here by all druggists.—Adv.
