

HOP AND PRISK

Over 2000 Bales Are Taken in Northwest.

LOW GRADES ARE CHEAPER

Heaviest Business in Western Washington Since Opening of Season Is Done by McNeff—Conditions in England.

The hop market woke up yesterday, and trading was on a heavier scale than for the past two weeks. Over 2000 bales changed hands in this state and in Washington.

Choice hops are still rather firmly held, but there was more pressure to sell the lower grades, and the cheaper prices at which these are now available has induced buying. Ordinary prime hops are quoted at 8 to 9 cents, but for the best remaining lots 10 1/2 and 11 cents and probably 12 cents is obtainable.

The largest business done in Western Washington since the crop was picked was closed yesterday by McNeff Bros., who bought 700 bales of Oregon, 1500 of Washington, comprising the crops of Charles Fries, J. C. Lindsay, F. S. Miller and Copeland. This also bought 300 bales of Oregon, including the crops of Herman Schmidt, at Aurora, and Jones at Newberg.

The J. W. Weaver Hop Company purchased 400 bales in Washington and 1000 in counties at 8 1/2 to 11 cents. A Banks report stated that H. L. Bents had obtained 400 bales in that section at 8 and 8 1/2 cents.

England is supplying the British colonies freely out of her large crop, and prices in the English markets are as low as in this country. Over half the English crop has been sold to date. Late clearances from London dealers say:

Caution & Co. — Trading during the past week has been principally in the best English hops that can be now found. Strictly choice are already exceptionally scarce, and when found prices are paid for them. A large quantity of medium hops is still on hand, in some cases pressed for sale, thus resulting in lower prices being accepted. A good demand exists for the cheapest qualities, and prices of such are fully maintained. It is calculated that considerably over half the crop is now out of planters' hands. Cables from the Pacific Coast report little business as yet for England. The currency still remains above par, that which rules here, and the quality of their crops is not generally good.

Wild. Neuman — There has been a further absorption of East and Mid Kent growths at current rates. The general trade is inclined to be somewhat slow. Thursday and Monday — General trade continues very dull, price apparently not affecting the demand. Choice hops are still in request and fully maintain their value. A limited trade passed in the lower descriptions.

Manger & Henley — The demand continues for choice Goldenings, which buyers find difficult to meet with. The general trade for medium and lower grades keeps steady.

W. H. & H. — London cargo market, however, was 2d lower. Local receipts, in cars, were reported by the Merchants Exchange as follows:

OREGON BUTTER IS SHIPPED EAST
Two Carloads Sent Out of State—First Business of Kind Known.

For the first time in the history of this market Oregon butter is being shipped to the East. The carload was shipped to its destination by a packer and its destination is supposed to be Chicago. The movement of butter from this state is likely to have some influence on the local market, as production is steadily declining and the market is gaining in strength.

The movement of butter from this state is likely to have some influence on the local market, as production is steadily declining and the market is gaining in strength.

Eggs continue firm and fresh Oregon are very scarce, but storage stock is offered freely.

Poultry was weak yesterday and chicken prices were demoralized. Hens and Springs sold at their street at a price of 10 to 12 cents. Other poultry quotations were unchanged, but sales dragged.

Dressed meats were firm at last prices.

FIRST CAR OF NAVELS DUE TODAY
Initial Shipment Will Sell at \$3 Per Box. Los Angeles Tomatoes In.

The first car of California navel oranges of this season's crop will reach this port tomorrow. They will sell at \$3 a box. The Japanese orange shipment received Wednesday is cleaning up.

Grape supplies are much reduced. The car of Empereurs received lately has been nearly all disposed of. The remaining lug boxes are still on hand and offered at \$1.

There is a steady movement in apples but the demand is chiefly for cheap grades. Most of the apples are now in the hands of winter Nellis pears are in fair supply and quoted at \$1.25. Other pears are offered at \$1.

A car of Los Angeles tomatoes was received yesterday. They were in lug boxes and were held at \$1 a box.

Bank Clearings.
Bank clearings of Northwestern cities yesterday were as follows:

Portland 2,257,200
Spokane 220,854
Seattle 1,157,154

Sugar Will Be Higher Today.
The eastern sugar market was firm yesterday. Raw sugar advanced 6 points and refined grades went up 10 cents. Local prices will be advanced 10 cents this morning to correspond with the Eastern rise.
