"I thought when we were old we were treated kindly and given a nice easy chair, and our grandchildren were kind to us, but now I find it is not so; we are to be turned out into the road to die, and I am very unhappy."

The father tried to quiet the child and told him he would find the old dog and bring him back. He saw what he had done was a heartless and dog and bring him back. He saw what he had done was a heartless and wicked thing, and he knew he was justly punished that his child shoul think that would be the way to treat him when he grew too old to work. In the morning he started out to look for the dog, and found him under a bush by the side of the road, where he had crawled in out of the cold. He carried him home and made a nice bed carried him home and made a nice bed for him and gave him a good break-

Muddy Skin. The sanest, safest and surest method of giving a clear, healthy, transparent appearance to the complexion is to apply ordinary mercolized wax every night for from one to two weeks. This wax, obtainable at any drug store (one ounce is sufficient), actually takes off a bad complexion by gently and gradually absorbing the thin well of surface skin. The new skin then in evidence is as frean and velvety as a young girl's. The wax is applied like cold cream and washed off mornings.

Don't Merely "Stop" Cough

Stop the Thing that Causes It and the Cough will Stop Itself

A cough is really one of our best friends. It warns us that there is inflammation or obstruction in a dangerous place. Therefore, when you get a bad cough don't proceed to dose yourself with a lot of drugs that merely "stop" the cough temporarily by deadening the throat nerves. Treat the cause—heal the inflamed membranes. Here is a homemade remedy that gets right at the cause and will make an obstinate cough vanish more quickly than you ever thought possible.

Put 2½ ounces of Pinex (50 cents worth) in a pint bottle and fill the bottle with plain granulated sugar syrup. This gives you a full pint of the most pleasant and effective cough remedy you ever used, at a cost of only 54 cents. No bother to prepare. Full directions with Pinex.

It heals the inflamed membranes so gently and promptly that you wonder how it does it. Also loosens a dry, hoarse or tight cough and stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent loose cough. Pinex is a highly concentrated com-pound of Norway pine extract, rich in guaiacol, and is famous the world over for its healing effect on the membranes.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex," and don't accept anything else. A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

The Creamlike

It scarcely would be possible to imagine more ideal conditions of manufacture than those existing in the spotless Crisco factory. Human hands do not come in contact with Crisco until you open the attractive can in

Crisco is unlike any other food product. Never has it been possible, before the discovery of the Crisco Process, to produce a solid fat from a vegetable oil without adding a stiffening agent. Nothing is added to Crisco. It is all vegetable, all pure, all digestible. It is the best or solid cream of the oil.

Crisco does more for cooking than any other fat known. The beneficial result of Crisco foods upon the digestion is as great in importance as the fact that they are more delicious.

Crisco is now used chiefly in those thousands of homes where men and women are most alert to the improvement of cooking methods and family digestion. They use Crisco for frying, for shortening, for cake making.
