In a queer fronical way our grief drew us together. "Apart from this, the definition of our situation helped to clear the air. I was acutely unhappy that evening, yet oddly relieved. The necessity for acting a part was over. I could be myself. We could meet each other with-out adopting a role of 'affectionste-ness' and forced continual happiness. "I remember the next day at break-fast I felt that I understood my hus-band for the first time for months-and quite promptly we both made the discovery that we did not want to sep-arate. But we changed the course of our living a little. At intervals we paid visits separately-a thing never proposed before-and soon we began to enjoy a rather novel friendship. I looked forward to his return from the office. "Our story is too long, too gradual in its movement, to be written here. I can only conclude that our fortunes changed almost from the moment when William and I, thinking it was all over between us, had it out, with absolute candor. Soon we began to get on well together, and instead of trying to keep up the standard of a boy and girl we learned the value of a man and woman friendship."
