# 500,000 TONS OF FOOD ARE NEEDED

Belgian Relief Forces Say Some Sections Have Failed to Respond to Call.

### ALL TRANSPORTATION PAID

With 17,000 Tons Delivered, 30,000 Tons Affont and 40,000 Tons in Sight, Vast Problem Still Is Far From Solved.

NEW YORK, Nov. 19 .- The American Commission for Relief in Belgium, which was formed by Ambassador Page in London soon after it became apparent famine was impending, has opened offices and hired dock space in New York. The commission announced to-

York. The commission announced to-day that it was ready to ship pro-visions in any quantity straight through to Belgium.

This commission is attending strict-ly to the transportation end of Bel-gian relief work and does not in any way conflict with relief committees al-ready constituted in America. It has ready constituted in America. It has ry in its construction. It was an old-the funds to handle all the shipments fashioned fortification, largely earthwhich America can raise this Winter, and it has made all diplomatic arrange. ments to have the food sent through expeditiously and without interference.

S7,000 Tons Provided For. Already 17,000 tons of food have been sent across the sea and distributed with the help of the German military authorities, 30,000 tons are now afloat and the commission announced today that 40,000 tons more were in sight.

Linden W. Bates, American vice-chairman of the the commission, said today:

"In spite of the efforts of the Belgian relief funds, the Rockefeller foun-dation and many other organizations at work in the West, Belgium cannot be fed at this page. American members of the commission declare we must send at least a haif million tens of food

"Certain parts of the West are doing nobly, but certain others have not yet awakened to the call on our charity. William E. Edgar, editor of the Northwestern Miller, at Minneapolls, has western Milier, at Minneapolls, has been at work among the flour men in the Northwest and a whole cargo of flour is on the way to us from there. Governor Stubbs, of Kansas, is cooperating with Mr. Edgar to send still further supplies from that important food center.

Each County to Send Carload.

"A proposition is on foot to send a carload of wheat or flour from every one of the 99 counties in Iowa, Indiana, California and part of the Pacific coast are now hard at work; but from many sections of the country the call has had no response. "What Belgium needs most of all is

"What Belgium needs most of all is food—any kind of food, so long as it will stand ocean transportation. It would be a good thing to send the Belgians clothing were it not that food is the first necessity of life and America will have to strain every effort this Winter to bring the Belgians through alive. Wheat, flour, beans, peas and preserved meats are especially needed, but perhaps, above all things, the most pathetic need of Belgium is for condensed milk. The cattle are gone and children of a certain age cannot live without milk.

"We have just received \$35,000 from wall to be expended for food. Hawaii is so far away that they find it more expeditious to send us the money at present instead of supplies. Later they may send a food ship.

Shipping Arrangements Made, "The American offices of the com-mission are 71 Broadway, New York City, and they will ship mostly from the Bush terminal, New York, However, arrangements are being made to ship from all the other ocean ports on the Atlantic, Pacific and Gulf of Mexico. San Francisco is about to send a special vessel through the Panama Canal. "The commission hopes to be able to announce in a few days a plan whereby any person wishing to sand feed to an arrangement of the sand feed to the sand seed to any person wishing to send food in small quantities may do so without further trouble than delivering the goods at an express office. We will then be able to send any and all supplies from the point of first shipment clear to the committee in Belgium, free of cost to the donor. We are already doing that for the large shipments." for the large shipments."

Women's organizations whose memberships aggregate 5,300,000 have entrolled in an executive co-operating committee to assist the American Commission for Relief in Belgium, it was announced tonight by officers of the women's section of the commission. Already in the Crimea 2,500,000 acres, the property of Germans, have been seized by the government. If this measure is applied throughout Russia the losses suffered by the German people will be equivalent to the losses inflicted on Belgium. Russian papers publish the translation of an order issued from the head-quarters of the Austrian army giving stringent instructions to commanding officers to check desertions of soldiers. This corroborates a previous statement that Austrian soldiers from Moravia, Ruthenia, Dalmatia and other Slavonic districts are throwing away their arms at the first opportunity and deserting in great numbers.

# The ANGELUS Player Piano

The great and distinguishing feature of the ANGELUS Player Piano is that the music produced sounds exactly like hand playing.

There is the same quality of touch, due to the Diaphragm Pneumatics, which are designed to exercise the same character and degrees of force as the human fingers. There is the same unlimited control of tempo, due to the wonderful Phrasing Lever, also an exclusive ANGELUS feature, which allows every tempo effect that the most cultivated musical mind can conceive—the hastening of one passage, the prolonging of another-retards, accelerandos, all the infinitive variety of tempo nuances that give life and character to musical renditions.

> You do not need to "know" music to play the ANGELUS Player Piano—the Artistyle Roll markings will show you the way.

To play the ANGELUS, all you need is a love of music and a desire to play it. The ANGELUS will supply you with all the skill of educated fingers, while the Artistyle roll markings will indicate for you the proper expression, which you yourself put in, changing as much as your taste or fancy may suggest.
