ATTEMPTS MAY BE MADE TO "PACK" MEETING TO RAISE SCHOOL TAX.

Taxpayers of a certain district threatened the School Board yesterday that they would appear in a body tonight to see that the levy was raised sufficiently that they might have a new school building. Large representations from various sections of the city hoping to benefit by a higher levy may attempt to "pack" the meeting tonight.

There is a possibility that the scene of last year's taxpayers' gathering will be repeated with the result that the levy voted will not represent the desire of the dity as a whole. A year ago the tax was raised more than \$400,000 over the recommendation of the School Board through large representation at the meet-

of \$100,000 for the trade school site purchase.

"It has been understood all the while that the surplus \$100,000 was to be used for the purchase of a slie for the trade school," he said. "There has never been any question about that."

Discussion was cut short by Director Plummer, who moved that a levy of 5 mills be recommended and a budsat providing for the same of adopted. Dr. Smith seconded the motion carried, who Dr. Sommer voting no. Dr. Sommer requested that he be permitted to place a minority report in the bidget.

The meeting of the Board was opened by the announcement of the chairman that it would be the last opportunity.

Woodstock Pleas Heard.

Mrs. E. H. Ingham, representing the Parent. Teacher Association of the Woodstock school, was the first to respond to the invitation. She said that five acres to the north of the building and a small strip at the west should be purchased for playground purposes, as asked for last year. She said that the land was in danger of being sub-divided and sold in pieces, while at present if would be sold at a low figure. It has been used for gardening by the students, but this work may have to be discontinued. When the present Woodstock building is completed there would be no grounds adjacent, said Mrs. Ingham.

The Taxpayers' League had no representative at the meeting.

"My boy hasn't as good a place to go to school in as I keep my horse in." complained a taxpayer of Terwilliger district in asking for enough money to put a building on property already purchased. F. S. Miller added to the plea for Terwilliger.

J. E. Werlein, representing residents of the Hawthorne school, declared that increased purchases of school property made more valuable all real estate in a city. He asked for a levy of 5 mills.
