Along with the progress of our arms there should be observed the progress of the Rus-sian armies, which has been becoming more noticeable since November 3. At the doors of Cracow and of Kallsz our allies are now making their weight feit in this field that we should draw our conclusions, for here it is that one may perceive in the full light of day the failure of the German plan. Continuous Progress Asserted. The foregoing is an outline of our successes. To present them more defi-nitely it might be well to throw on the screen a comparison of the fronts occu-pied by our left and by the right in the beginning of September, and then in the middle of November.
