WATER RATE ISSUE NOW

Opposition to Mr. Daly's \$3 Charge for Coolers Is Extensive.

Whether or not waterusers having cooling closets are to be forced either to pay a monthly rate of \$3 in addition to their regular charge will be decided by the City Commission this morning. Mayor Albee has sent an ordinance to the Council repealing the cooling closet charge. He says the charge would force the people having cooling closets to put on water meters regardless of the fact that there is a referendum measure now pending involving the meter proposition.

Mayor Albee was besieged with telephone calls yesterday from persons protesting against the \$3 a month charge for the water coolers. There are 225 houses in the city now fitted with the water cooling arrangements. It is contended by Commissioners Daly that these devices cause waste of water. Mayor Albee contends that they do not and that the imposition of a \$3 a month rate would be an injustice.

Should the enforcement of the city's sanitary ordinances prevent a man from getting married? This is a question which City Health Officer Marcellus has been asked to decide.
