ENEMY IS CHECKED. KITCHENER AVERS

March on Calais Definitely Stopped by Timely Reinforcements of Allies.

War Secretary Tells Commons German Defeat by Russians in East Is Accompanied by Heaviest Losses of War.

LONDON, Nov. 26 .- "The Russians have defeated the Germans with the heaviest losses yet suffered; the Germans have made no advance since last addressed this house," and "the British are in touch with Turkish forces 30 miles east of the Suez Canal, were the salient points of a speech made by Field Marshal Earl Kitchener in the House of Lords today, when the British Secretary of State for War summarized the military operations.

Lord Kitchener paid a tribute to the gallantry of the Belgian army and to the King of the Belgians, who, he de-clared, had no intention of quitting Belgian territory. He said the losses of the allies were great, but at the same time were slight compared with those of the enemy, and that the allied

The Russians, he announced, have defeated the Germans with heavier ses than the latter ever suffered

More Men Will Be Needed. Regarding recruiting, Earl Kitch-

ener haid he still had room for men and he was confident that the men would answer the country's call and see that the war was brought to a successful conclusion. He said that about 30,000 recruits were enlisting

"The time will come when we shall require many more and I will then make it thoroughly well known," the Field Marshal said, and added that in the meantime all the gaps in the British force on the Continent had been

Dunkirk and Calais, after the capture of Antwerp, Lord Klichener mentioned that in spite of the overwhelming numher of the German forces the British troops vigorously attacked and a Brit-ish cavalry division extending over seven miles of trenches threw back the flerce attacks of a whole German army corps for more than two days.

Indian Troops Do Good Service. The arrival of the Indians on the scene, he said, proved to be a great scene, he said, proved to be a great sdvantage and when the fresh rein-forcements pushed forward the Ger-man march on Calais was stopped. Lord Kitchener spoke of the splen-did fighting qualities of the French troops and of the "pluck of the gallant Belgian army, whose fine resistance, had been strengthened and encouraged by the co-operation of the British fleet, which had effectively shelled the German artillery positions."

the German artillery positions."

Sir John French's ruccettful resistance to the German advance, Lord Kitchener told the Lords, was maintained, notwithstanding that the German supports had been pushed up in large numbers.

Supreme German Effort Falls.

"In the early days of November," he continued "no fewer than 1" army corps were attacking the British position. At this critical period the eighth division was dispatched from England to Join the forces in the field, and the valuable co-operation of our allies on

was made by the Germans. The Prussian Guard was ordered to force its way through our lines at all costs and to carry them by sheer weight of num-bers. This desperate attempt failed, like its predecessor.
"Strong French reinforcements occu-

pied a considerable portion of the Brit-ish trenches in front of Ypres, and, with their front thus appreciably shortened, the British troops, which for more than 14 days and nights had never left the trenches or allowed the enemy to maintain a footing in them, were enabled to enjoy a partial wellearned rest."

Territorials Sent to Front.

Several battalions of territorials, the Secretary for War announced, had joined the British forces and had made themselves felt. Referring to the latest phase in the conflict raging in Russian Poland, Lord Kitchener said: "After a hotly-contested battle the reinforced Russian troops in this neighborhood have been able to check and defeat the Germans with, I believe, heavier losses than they ever sustained

Lord Kitchener also briefly touched on Turkish intervention and said that the Russians were advancing steadily in the Caucasus, while an Indian ex-peditionary force had twice defeated the Turks at the head of the Persian Gulf, where they had occupied the im-portant town of Basia and were also in touch with a Turkish force 30 miles to the east of the Suez Canal.

The number of free meals given at both hospitals was increased largely, more than 40 being welcome guests at the Good Samaritan alone.

Some of the convalescents were taken for automobile rides by friends and others strolled in the bright sunshine near the big buildings in which they are being given back their health and strength.

The roof garden at the Good Samaritan was inhabited by several children thankful to be out in the bracing air, and their nurses, who cracked nuts for them, rattled their rattles and recovered the dolls and playthings that the owners dropped from their wheel-chairs.

Visitors to the roof garden were de-lighted with the view of the city af-forded by that point of vantage.

Bartender Glad State Voted Dry and One Appreciates Warm Bed on

Chill Winter Nights. "Say, 'bo, what kind of a day is it outside?" The question came from the wrong side of the heavy, white-painted bars of one of the neat, sanitary cells at the city Jail.

The questioner, a well-built, athletic young fellow, was told that it was a bright, clear day, regular football weather, with prospects of a cold night. "Well," said a boy still in his 'teens, "that makes me thankful that I ain't

got to sleep out tonight."

The spirit of the day found its answer yesterday in many thankful hearts, whose owners are temporarily at outs

with society.

Both in the city and county jalls many were thankful that their terms were nearing completion.

One young fellow was thankful in the belief that his mother back in Illinois did not know where he was.

"They'll have turkey and all the fix-ings." he said, "and it would spoil their dinner if they knew I was in jail."

All were thankful for the splendid dinners that were served to them.
"Nobody outside could have had a better feed than we did," said Henry Martin, one of the trusties at the City Jail, "and we're mighty thankful for that. We've been treated like gentlemen."

The head trusty, who said that he was so well known in Portland that he didn't want his name printed, joined in these sentiments. He is a native of Sweden, and, having told his fellow trusties that he has the rank of a baron in that country, they have named him "the Count of Sweden." "Count" is a more familiar title to them than "Baron," and to "Count" he cheerfully answers.

"I am a bartender by profession," said the "Count," "but I am thankful the state went dry."

There were no dissenters, several of the men confessing that it was their co-operation with "booze" that brought them where they were.

"I'm thankful I ain't a policeman," said one of the inmates of the County Jail.

George M. Brown, Attorney-Generalelect, of Roseburg, Or., will assist the Anti-Saloon League in drafting the en forcement statute for "Oregon Dry," it was announced last night by R. P. Hutton, secretary of the league.

"Inasmuch as the Attorney-General will have the chief responsibility for enforcing the law," said Mr. Hutton "the league feels that it is only right that he should be consulted and that his wishes should largely govern in the framing of the statute. He is a strong 'dry,' and his experience fits him for service. LOCAL OPTION LAW FOR VANCOU-VER IS DECLARED UNFAIR.

VANCOUVER, Wash., Nov. 26 .-Special.)-While no suit has been filed, it is understood from good sources here that the recent local option election held in Vancouver will be contested and brought before the highest court in the state. It is declared unjust to cause the saloons here to close a year before Portland will be "dry," or any other wet territory in the state. The firm of Miller, Grass & Wilkinson has been retained to fight the case.

While it is not known what points will be brought up, it is believed that the state law takes precedence over municipal law. Insamuch as there was a state-wide prohibition measure voted on at the same time as the Inasmuch as there
