gium, which the Germans were preparing as a naval base, have reached the London newspapers. The correspondent of the Express on the Belgian frontier telegraphs that refugees report that the first shells thrown by the British warships on Zeebrugge fell among the German submarines in the inner harbor. After 20 shells had been killed or wounded, the submarines were ordered to make a dash for safety to the English Channel and try to run the gauntlet of the fleet. Some of the submarines returned to Zeebrugge, and the correspondent telegraphically remarks, and he adds that the fate of the others is unknown. In describing the bombardment the correspondent of the Daily Mail at Amsterdam says: "The German submarines in the harbor basin hid themselves below during the bombardment, and were not seen until they retreated. When the warships retreated they rose again and went in pursuit, but soon returned."

MONTECLAIR, N. J., Nov. 27.—The Monroe Doctrine is being attacked, its relation to the present European war discussed and the declaration that interference by the United States in Mexico and Central American states has had nothing to do with that doctrine, was made by ex-President Taft in an address here tonight. There are some of the salient features of his remarks: The landing of troops in Canada by enemies of Great Britain would not constitute a violation of the doctrine, but an effort to establish a new form of government in case of victory would. Three Nations Self-Defending. There is little likelihood of the policy's being pressed in Argentina, Brazil and Chile. These countries are able to protect themselves, and they are so remote from the United States that violation of the doctrine in respect to them would not be harmful to this country's interests and safety. The doctrine has not been applied in Mexico because there is nothing in it which requires a permanent anarchy to bring about peace in that country. "Watchful waiting," Mr. Taft said, was the term applied to the United States' status, but he went on: "We have never watched nor waited, but have, in fact, most hastily intervened, and thus find the present anarchy regarded as the logical consequence of our policy."

There is little likelihood of the policy's being pressed in Argentina, Brazil and Chile. than three Commissioners of equal authority. "The trouble with these high-salaried officers," he said, "is that each of them needs a stenographer. He generally wants a chief clerk to do the work while he himself is out playing politics." Senator Perkins, who was chairman of the ways and means committee of the last session, explained how appropriations can be kept at a minimum at the coming session. Representative Cobb warned his colleagues against making too bold a prediction of a so-called economy programme. "We ought to let our deeds speak for themselves," he urged, "we should not publish to the world that we are going to cut a wide swath and then fail to live up to our promises."
