Interstate Commerce Commission Omlts One-Way Passenger Fare Increases in Central Territory From General Ban.

WASHINGTON, Nov. 36 .- Investigation of the railway freight situation in Western and Middle Western territory was ordered today, when the Interstate Commerce Commission suspended new tariffs filed by Western carriers to become effective tomorrow. Under the Commission's ruling the new schedules and the various regulations and charges for special services included in the tariffs cannot become effective before March 31, 1915, and would be postponed "pending hearing and decision thereon."

In a general way the Western car-riers sought to advance rates in con-formity with advances recently applied for by Eastern carriers in the so-called

BERLIN, by wireless to London, Nov. 30.—The situation at the end of the past week shows, in the opinion of military critics, that the time is ripe for the resumption of active operations against the Russians, which temporarily were hindered by the advance of Russian reinforcements in Northern Poland. The German successes, the critics contend, definitely have removed the danger of any invasion of the German provinces.

Farther south the Austrians are cooperating to good effect and the Austrian advance into Servia affords a reasonable ground for believing that the campaign there soon will be brought to a successful conclusion and thus release troops for action elsewhere. An observer who has just reciping the from Servia, expresses the opinion that the Servians are "at the end of their tether."
