Commercial Clubs of State and 25 Other Organizations to Send Delegations-Dance to Be Held Opening Night.

O. M. Plummer, secretary-manager of the Pacific International Livestock Exposition, which will be held in North Portland at the Portland Union Stock-Portland at the Portland Union Stock-yards from December 7 to December 12, declares that the 1914 event will surpass in general interest anything of a similar nature held in the Northwest in the past five years. This is the third annual show of this association, and despite prevalence of foot-and-mouth disease among stock in other parts of the country, those in charge say there will be many novel displays, and a suf-

will be many novel displays, and a sufficient number of entries of fat stock to make the show one of great interest.

Outside of the judging and exhibition of superior cattle, sheep and hogs of fat stock circles, the display is caiculated to take precedence over similar shows.

Many Delegations Coming.

Many special parties will be organized in cities of the Northwest to visit Portland at that time. The Eugene Commercial Club, Pendleton Club, Salem Commercial Club, Pendleton Club, Salem Commercial Club, Seattle Chamber of Commerce and 25 other various organizations will send delegations to take part in the show. Word has been received that H. A. Jastrow, of Bakersfield, Cal., president of the American Livestock Association, and T. W. Tomily and the same organization, will deliver addresses to the Oregon Cattle and Horse Raisers' Association.

The opening function of the livestock show will be a dance for the younger people Saturday night in the assembly room, starting at 8:30 o'clock in the Multnomah Hotel.

Another special social function of the show will take place Thursday night at the Commercial Club. It will be a breeders' dinner, to be given by the Union Stockyards Company to more than 200 guests.

Overpaid Contractors \$1532.

OLYMPIA, Wash, Dec. 2.—(Special.)
—Overpayments to contractors totaling \$1522.77 are reported by the State Bureau of Inspection as the result of an examination at the City of Vancouver. Of this, \$1232.32 has been repaid the city, while the contractors have acknowledged the remaining opinion. the city, while the contractors have acknowledged the remaining overpayment and promised to repay.

The bureau also criticises the policy, recently abandoned, of drawing a sin-

gle warrant for the head of each department covering the salary of all employes, thus leaving the city no proof that the employes have been paid. The bureau recommends that improvement bonds in future be issued in denominations of \$100 instead of \$500, to allow easier retirement.

BANK ACCUSES CASHIE

Shortage of \$8500 Alleged in Var

The complaint alleges that the short-

been completed. The work was done by the state at a cost of \$450,000.

After failures by private companies, the state took over the venture July I. 1913. Mr. Laurgaard said that the reservoir, which would hold 20,000 acres ervoir, which would hold 20,000 acres would supply the tract of 22,500 acres. The Desert Land Board has fixed the price of the land at \$40 an acre, the purchasers to pay one-tenth down and the remainder in 10 years. If they irrigate and prepare for cultivation one-third of a tract of 40 acres within the first three years, payment of principal will be deferred. Mr. Laurgaard says it will cost from \$15 to \$25 an acre to prepare the land for cultivation. It is of volcanic ash and scrub cedar grows on most of it. The engineer says the land will grow all tuber plants, alfalfa and clover and that it will be fine for dairying, raising hogs and cattle.

More than \$000 acres have been sold on contract and the engineer believes it will not be long until all the land is taken. Settlers who had contracts with the private companies which started the work and who do not want to make new contracts with the state will be reimbursed as the land is sold. Mr. Laurgaard believes many of the old settlers will seek new contracts.

A steady absorption of hops is going on at all points on the Coast and it is likely that the entire stock will be worked off in due season, notwithstanding the unsatisfactory of the mysiker.

New York Bond Market Exhibits Further Reactionary Trend. London Exchange Is Likely to Reopen This Month.

NEW YORK, Dec. 2.—Business in bonds on the Stock Exchange today evinced a further reactionary trend, with a wider va-riety of offerings. Declines in some of the less conspicuous issues ran from 3 to 7 points, and in several bonds, which were points, and in several bonds, which were subject to reorganisation and readjustment, losses were even more severe.

This condition was offset in part by a decidedly better inquiry for short-term notes and the more active listed stocks, which in normal times constitute the great bulk of the daily operations. The demand for these securities, particularly notes, came from various quarters, the Middle West being prominent in the buying. The movement was primarily attributed to the caster money conditions.
