The Pierre Antonine is here discharging general cargo brought from Antwerp. It is reported that the owners will sue the Port of Portland to recover damages on the ground that the tug Oneonta did not stand by until the ship was anchored. On that score United States Inspectors Edwards and Fuller decided that the Oneonia was not at fault.

Turning a Retail Stock

It is the "quick movers" that make money for the retailer, It is goods of proven quality fairly priced that build a permanent business for him. Standard articles advertised in the dally newspaper answer

They move quickly because the newspaper advertising creates definite and sure demand. They are standard quality articles or the manufacturer would not waste his money in advertising

This is why it pays the retailer to push newspaper advertised goods, to show them and to back them up in every way.
