

WHEAT PRICES SOAR

Local and Country Markets Are Excited.

DEMAND NEVER STRONGER

Wave of Export Buying Sweeps Over Entire Country—Farmers and Speculative Holders Not Tempted by High Offers.

Although bids for wheat were raised from 1 to 2 cents on the Merchants Exchange yesterday sellers could not be tempted to let go. The market was stronger and more excited than it has been any time this season.

For club wheat \$1.20 was freely offered on the Merchants Exchange. This is the highest price so far known, that in this market. Sellers, however, would not take less than \$1.14.

The country wheat market appeared to be going wild, and the reports of increased prices for wheat in Portland appeared to be no mistake about the strength of the export movement which is sweeping the entire country.

Strong foreign markets and more reasonable ocean freight rates are combining to take the wheat market in the hands of the large operators.

STOCK DRIFT LOWER

Wall-Street Trading Is on More Contracted Scale.

LAST PRICES AT BOTTOM

Bond Market Is Also Irregular. Pool Is Now Ready to Finance Cotton Movement—Exchange on Germany and France Easier.

NEW YORK, Dec. 17.—Stocks continued to drop today on a smaller and more contracted volume of operations.

Trading seemed to be largely for that fraction of the professional element committed to the short account and when the demand from that quarter had spent its force the list drifted idly toward lower quotations.

The significance of the somewhat irregular movement was judged from the fact that a relatively unimportant specialty—Central Leather—was the most active feature, with a gain of 1 1/2 points.

Electricity characterized the opening, followed by a general advance, which was followed by a general decline.

Wheat Rises Sharply at Chicago as Result of Heavy Foreign Business—Government Acreage Report Has No Effect.

CHICAGO, Dec. 17.—Immense export sales, said to amount to more than 5,000,000 bushels in the last 18 hours, carried the wheat market today sharply up-grade.

It was apparent from the start that sentiment in the wheat trade had turned against the bears. Signs were discovered early that business with foreigners was of much larger proportions than had been reported.

It was not until the general amount of the European demand, instead of being 3,000,000 bushels, was reported as 5,000,000 bushels, that the market was again thrown into confusion.

Notwithstanding the Government report on the winter wheat crop and condition was not so favorable as had been reported, the market was not affected.
