saged this year in place of expert enumerators, who have had the benefit of experience in past years, there is considerable difference of opinion as to whether or not the present census is complete. The unemployed were placed in charge of the work under experi-enced supervisors, in order to give them an opportunity to earn a living. Previ-ously the school principals and teach-ers, who not only know the children who attend school, but are also famil-far with the families and residences in their respective districts, have had charge. The order to make certain that these enumerators did not miss names and

enumerators did not miss names and "I thus lose the district actual money, we devised an extensive checking system." "After TA said Clerk Thomas last night. "After the enumerators reported the principals in the schools checked up their results and added any names that might have been missed. Then a reward of 5 cents a name was offered to all school children, for any new names they could bring in. This plan was the means of adding many overlocked names and swelled the original figures by the hundreds."

That every child should be counted is important to the district from a strict important to the district from a strict business standpoint, as well as from a standpoint of pride. The law provides that the district shall receive \$8.29 from the county school fund for every child and \$2.20 from the state appor-tionment. Thus the district receives a combined appropriation of \$10 for the presence of each child.
