## BOY GRIEVES COURT

Judge McGinn Expresses Sorrow Over Protege's Fall. REFORMATORY NEED URGED Jurist Wants Legislature to Provide Place for Wayward Youths Like Earl Riley, Auto Robber. Prison Plan Condemned.

"I am sorry to hear that Earl Riley went wrong," said Judge McGinn yesterday upon learning that his "honorable boy" has confessed another series of robberies committed within two weeks after he had shaken hands with the judge, crossed his heart and promised to be good. "I hope the Legislature will do something for boys of this type," said the judge. "We should have a law similar to those in Kansas and Michigan. We should have a reformatory so boys like this will not have to go to the penitentiary, where they learn to be hardened criminals. "A reformatory of the sort we need would be a place where such boys as Earl Riley can be kept bodily clean and mentally sane. Fellows of that age still have plastic minds. It would be wrong to send such boys to the penitentiary—wrong to ourselves as well as to them. "If boys like this can be kept in a place where they will be clean until they pass the youthful desperado stage, or until they outgrow the effects of bad association, there is some chance that they will yet become useful citizens. "I realize I am not in accord with the general sentiment on such matters, and for that reason I'm rather glad my term in the criminal department is over. I used to be a punisher myself—used to believe that the only way to stop crime was to punish someone for it. But I don't look at it that way now, and I can't send boys like that to the penitentiary." Earl Riley was arrested Monday

## MAKE YOUR OWN HAIR STAIN

This Home-Made Mixture Darkens Gray Hair and Makes It Soft and Glossy. To a half pint of water add: Bay Rum . . . . . a small box Borbo Compound . . . . . a small box Glycerine . . . . . 4 oz. These are all simple ingredients that you can buy from any druggist at very little cost, and mix them yourself. Apply to the scalp once a day for two weeks, then once every other week until all the mixture is used. A half pint should be enough to rid the head of dandruff and kill the dandruff germ. It stops the hair from falling out, relieves itching and scalp diseases. Although it is not a dye, it acts upon the hair roots and will darken streaked, faded, gray hair in ten or fifteen days. It promotes the growth of the hair and makes harsh hair soft and glossy.—Adv.
