SALARY CUTS ASKED

Senator Farrell Would Knife Pay of State Officers.

\$4 MEN NOT TOUCHED

Bill Would Exempt All Under Fixed Figure, but Other Reductions Would Range From 10 to 20 Per Cent—Governor Included.

Wholesale reductions in salaries among the "higher ups" in the state and county governments are proposed by Senator "Bert" Farrell, of Portland, who is planning to submit bills to that effect at the coming session of the Legislature.

Senator Farrell referred his plan to the Multnomah legislative delegation last Monday night, but it was rejected. He insists, however, that the Legislature propose to economize it should begin at the top and cut the salaries of state and county officials.

His measure will not apply to officials, clerks and other employees who receive \$4 a day or less, as he thinks that is the lowest wage that a public official should receive.

But on all other public servants from the Governor down to the stenographers in the Legislature he plans reductions approximating 20 per cent.

Senator Farrell has not attempted to go outside of Multnomah County in applying his paring knife to salaries, but expects legislators from the outside counties to act for their respective localities.

In addition to the specific reductions enumerated, recommendations that all clerks and deputies in the state employ receiving \$125 per month or more, whose salaries are not otherwise reduced, shall suffer a reduction of 20 per cent and that all who receive less than \$125 per month shall receive cuts of only 10 per cent.

Autos Fight Streetcars

Interurban Service Began and Five-Cent Fare Is Charged.

The "Jitney Bus" is an established factor in Portland's cross-town and interurban transportation. Yesterday morning the Auto Bus company started nine lines in direct competition to the street railway and charging a 5-cent fare.

The automobiles are privately owned and under contract to the bus company. M. C. Booth is president of the organization; Fred A. Lenhart, secretary and treasurer, and Conath Conway, formerly traffic manager of rapid transit in Brooklyn and Buffalo, is the traffic manager of the local lines.

The lines today are as follows: Williams avenue to Killingsworth, Union avenue to Killingsworth, Hawthorne

IMPROVEMENT STEPS DUE

Council to Act on Paying Petitions if Certain Per Cent Sign.

Believing that it is useless for the city to go to the expense of drawing up plans for paving of streets unless a large part of the property owners on the street favor the improvement, City Commissioner Dieck announced yesterday that he will continue his plan of turning down all petitions for improvements of the kind unless they are signed by the owners of at least 40 per cent of the property to be assessed for the cost of the work.

Formerly, a petition of the owners of the street, favoring the improvement, was sufficient to start proceedings. Under the 20-per-cent rule, a small group of owners could start a proceeding and it would be knocked out by the expense of making plans. It is believed that the 40-per-cent rule will result in fewer street improvement projects being instituted and will result in fewer proposed improvements being knocked out.

Proceedings will be started by the Council this morning for street improvements as follows: East Alder street, from the east line of East Water street to the east line of East Union street.

Seventy-ninth street Southeast, from the east line of Portland street to the north line of Forty-first avenue Southeast, in La Dene Park, extended westward.

Forty-fifth avenue Southeast, from the east line of Sixty-seventh street Southeast to the east line of Seventy-ninth street Southeast, extended northerly, as laid out in plan.

Williams avenue, from the north line of Willamette boulevard to the south line of Portland boulevard.

Portions A and B of second avenue Southeast and Seventeenth street Southeast, as a district improvement.

Forty-third avenue Southeast and Forty-fourth avenue Southeast.
