I should have been better off could I have gone away from home several miles to work, but my mother didn't wish me to go so far away, as I was young and, of course, did not know the ways of the world. So I stayed nearer by to please her.

well, it was from "pillar to post," and it was being slave and dog to everyone for a few wages, as at that time wages, were only \$1.50 to \$2 per week. To make a long story short, I met a man of 51 years of age, a bachelor, who wanted me to marry him. I didn't love him and I told him so. He said that wouldn't matter; that I would learn to love him after we were married. I didn't care to marry him so far as my heart was concerned, but I thought like this: "No matter what kind of a husband I get, it won't be any worse than the life I am now leading slaving for others." So I married him.

That is a good many years ago and I have regretted it all my married life. All the love I have had for him has been such love as a father might expect from a daughter, but never the love a wife should give her husband. I was only 17 at the time of my marriage; so you see, Fauline, the ages are just the same.

I could add more, but happiness hasn't been for me, and it isn't because I have looked on the dark side, either, I have girls, and I would rather bury them than have them marry old men.

Don't, don't, girls, marry men older, much older, I mean, than yourselves. It may not make so much difference right at the time, but in a few years is what tells. Also if girls marry when they do not love a man there is the awful liability of later-meeting someone they liability of later meeting someone they can and will love, so beware!

An effort by many prominent people of Portland to have Colonel Charles H. Martin retained as Colonel of the Third Regiment, Oregon National Guard, will be of no avail, according to a telegram celved yesterday from Senator George

In his telegram Senator Chamberlain says in part: "Have had up with the War Department the matter of retention of Colonel Martin with the Oregon National Guard. His services are recognized and appreciated by the department, but the act of August 24, 1912, provides that every officer holding a permanent commission in line of the Army must have been actually present for duty at least two of the last preceding six years with a troop, battery or company of that branch of the Army in which he shall hold such commission.
