REPUBLICAN NOW RULES

(Continued From First Page.) Withycombe spoke briefly of his ideals and purposes.

"It is my hope and intention." h said, "that my administration shall be both economical and constructive. Ore gon needs capital to develop its resources. Capital must be encouraged, not hampered. We do not want capital that will override us, but we must make investments attractive and not by undue restrictions drive them away. The future of Oregon rests primarily in agricultural development. It must be given ald and encouragement. I shall-surround myself so far as it is possible with men who are in sympathy with my purposes. The changes that may be made in appointive offices will not be on political grounds, but in the interest of efficiency and in that of carrying out the policies I have outlined."

Selection of members for no other committee attracted so much neterest from persons outside the membership of the Legislature as did appointments to the Fish and Game Com mission. So frequent were the long-distance calls for President Thompson, of the Senate, concerning his selec-tions for this committee that there was actual interference with the per-formance of his duties.

Game Compromise Suggested.

Many sportsmen violently oppose any diversion to the general fund of moneys accruing from hunting and fishing licenses. In this they have the support of Governor Withycombe. Still, many members are not unmindful of the fact that enforcement of the game Mr. Gill also is the author of a bill introduced today that would stop all commercial fishing in the Willamette River between the falls at Oregon City and the Oswego bridge, a distance of six miles. Members of the Clackamas delegation are laying their plans to oppose this mer laying their plans to other drain upon the funds accruing from taxation. The County Clerk of Wasco County recently estimated that in his office alone issuance of fish and game licenses cost \$200 per annum. in his office alone issuance of rish and game licenses cost \$200 per annum.

As a compromise it has been suggested that a portion of the fish and game fund be transferred to the fund for the propagation of commercial-food fish and that the customary appropriation for that purpose be reduced ac-

A cough is really one of our best friends. It warns us that there is inflammation or obstruction in a danger-ous place. Therefore, when you get a bad cough don't proceed to dose yourself with a lot of drugs that merely "stop" the cough temporarily by deadening the throat nerves. Treat the cause-best that inflamed membranes. Here is a homemade remedy that gets right at the cause and will make an obstinate cough vanish more quickly than you ever thought possible.

Put 234 ounces of Piney (50, cents.)

Put 2½ ounces of Pinex (50 cents worth) in a pint bottle and fill the bottle with plain granulated sugar syrup. This gives you a full pint of the most pleasant and effective cough remedy you ever used, at a cost of only 54 cents. No bother to prepare. Full directions with Pinex.

It heals the inflamed membranes so gently and promptly that you wender how it does it. Also loosens a dry, hourse or tight cough and stops the formation of phlegm in the throat and broachial tubes, thus ending the persistent loose cough.

Pinex is a highly concentrated com-pound of Norway pine extract, rich in guaiacol, and is famous the world over for its healing effect on the membranes.
