

SENATE AX OUT FOR POST

Judiciary Committee in Favor of Abolishment of C. C. Chapman's Office.

\$71,790 SAVING POSSIBLE

Vote on Ousting of Board is Unanimous - Chairman Moser Says Move is for Economy as Pledged to People.

STATE CAPITOL, Salem, Or., Jan. 14. (Special.) - By unanimous vote the Senate Judiciary committee today decided to regard favorably on Senator Dimick's bill providing for the repeal of the law creating the position of Oregon Immigration Agent, C. C. Chapman.

BILL CLERK DECIDED ON

SENATE RECONSIDERS DECISION AS NECESSITY IS MADE APPARENT.

Dan Kellaher Opposes Motion, Declaring Object Has Savor of Paying Political Debts.

STATE CAPITOL, Salem, Or., Jan. 14. (Special.) - Upon reconsidering the Senate today adopted a resolution which was defeated Wednesday providing for the employment of a bill clerk at a salary of \$4 a day.

The members of the Judiciary committee are: Moser, chairman; Butler, Dimick, Garland, Hollis, Vinton and Langrish. When informed of the action of the committee Mr. Chapman said:

"Portland has paid one-third of the taxes expended by the immigration commission and in addition Portland business men have matched the state money dollar for dollar, having expended \$72,990 in conjunction with the \$50,000 appropriated by the state.

These same business men are among the heaviest taxpayers of the state, and they would be the last to urge this appropriation if by so doing they would jeopardize the economy program laid down by the Legislature.

The appropriation has been well spent, for the Oregon almanac and other conservative state pamphlets for the information of the home-seeker and investor, but if it is necessary to sacrifice this valuable work in the interest of lower taxes I certainly shall not object."

AID OF CONGRESS IS SOUGHT

Legislature May Petition for Protective Navigation Laws.

STATE CAPITOL, Salem, Or., Jan. 14. (Special.) - That Congress be petitioned to take action on the Pacific Coast states may at least have an equal chance with British Columbia in shipping lumber to the Atlantic Coast is the purpose of a resolution introduced by Senator Bingham today.

It is declared that ship owners are refusing to transport Oregon cargoes of lumber to Atlantic ports, and that they are supplying the demand themselves.

O. M. Clark recently at a meeting of lumbermen in Portland announced that he had closed a contract for the sale of 500,000 feet of lumber to a Philadelphia concern, but that transportation in local and other newspapers bids are to be opened February 23.

The draw span will be near the Washington bank of the Columbia River, the setting of the bridge engineers will have an office in Vancouver, probably near First and Washington streets, less than a block from the river.

BRIDGE BIDS ARE ASKED

Opening of Proposals Will Take Place Late in February.

VANCOUVER, Wash., Jan. 14. (Special.) - Advertisements for bids for the construction of the Columbia River Interstate bridge are now being published in local and other newspapers. Bids are to be opened February 23.

The draw span will be near the Washington bank of the Columbia River, the setting of the bridge engineers will have an office in Vancouver, probably near First and Washington streets, less than a block from the river.

GUARDS TAKE COQUILLE PRISONERS.

MARSHFIELD, Or., Jan. 14. (Special.) - Deputy Sheriff W. C. Laird and guards started from Coquille today with seven prisoners convicted in the present term of court to serve penitentiary sentences.

SIDELIGHTS OF LEGISLATURE

STATE CAPITOL, Salem, Or., Jan. 14. (Special.) - One rule that is to be strictly enforced in the House while this Legislature is in session is that requiring the door leading from the Speaker's room into the House chamber shall be always open.

"Whenever I am in that room," the Speaker told Doorkeeper Miller last night, "the door is to be open. I want no secret meetings by any committee of this House and I propose to hold none myself. The business of the House is to be conducted in the open and every citizen of the state may know what is going on."

George M. Hyland, who has more or less to do with the Oregon exhibit at the World's Fair in San Francisco, walked up and down the aisles in the House this morning and shook hands with the members. He is here to see the Governor and arrange to get some fish and game exhibits for the big show down in California.

Ray Hedrick, of Salem, has been appointed by Speaker Selling as messenger from the House to the printer.

The House was in session precisely 45 minutes this morning. Aside from the announcement of the Speaker's committee appointments and the introduction of the usual list of bills no business was transacted.

NO EXPORTISM IS SHOWN BY SELLING

Factional and Geographical Lines Disregarded in Appointment of Committees.

EATON GIVEN GOOD PLACES

Multnomah Draws 10 of 41 Chairmanships and Opposing Faction Not Slighted - Littlefield to Act on Prohibition Bill.

STATE CAPITOL, Salem, Or., Jan. 14. (Special.) - Factional lines were studiously disregarded and geographical lines carefully ignored by Speaker Selling in making his committee appointments, which he announced at the opening session of the House this morning.

The Eaton supporters were "punished" by getting some choice chairmanships and the absence of a supposed Multnomah County machine was emphasized by distributing the best berths among the up-state members and the city members indiscriminately.

Multnomah County drew 10 of the 41 chairmanships. The Eaton men drew several good chairmanships and were well taken care of in other assignments. Eaton himself was placed on the important committee on assessments and taxation which will handle a large volume of legislation this year, and on the committees on rules and joint rules and printing. The Speaker offered him additional places, but he asked to be relieved.

As previously predicted, S. B. Cobb, of Multnomah, was made chairman of the ways and means committee.

Olson and Huston, both of Multnomah, were made chairmen of the committees on judiciary and revision of laws, respectively.

Dr. Smith drew the chairmanship of the banking committee, which always is regarded as an important post. Other chairmanships to be filled by Multnomah County members are Lewis on corporations, Kuehn on immigration and general labor committee, Stott on medicine, pharmacy and dentistry, and Wentworth on railroads and transportation.

Among the important chairmanships to be filled by up-state members will be Cartmill on agriculture, Stanfield on assessment and taxation, Jeffries on commerce and navigation, Clark on counties, Lafferty on education, Bowman on engraving bills, Oida on enrolled bills, Anderson, of Clatsop, on fisheries, Irvin on food and dairy products; Cardwell on forestry and conservation, Jones on game, Hunt on horticulture, Tom Brown on insurance, Hinkle on currency, Risley on livestock, Fenwick on manufacturing and Porter on public lands and insurance.

Porter, who was one of the most active Eaton supporters has the distinction of being the only man in the House who is a member of more than one public lands and a member of corporations, counties, immigration, mining and revision of laws.

Miss Towne on Three Committees. Forbes, of Crook, has four good places—the chairmanship of rules and a member of irrigation, judiciary and public lands.

Miss Towne was appointed a member of the education, health and public morals and salaries committees.

Members of the Clackamas delegation propose to save the state some money. The four members—Schubel, Hunt, Risley and Hurlburt—have employed only one stenographer, I. Moore, Schubel's regular stenographer at Oregon City, has come up to handle his private work and will also look after his office in the Legislature.

According to the rules adopted yesterday the delegation would be entitled to a total of four clerks and stenographers.

Chief Clerk Drager, of the House, is not only an expert in organizing and handling the clerical work of the lower branch but is an apt parliamentarian as well. While Speaker Selling doesn't appear to require any coaching on parliamentary practices, some of the members of the committee of the whole have been aided materially by Drager's prompt advice.

"Bob" Caples, of Portland, was a visitor in the House this morning and remained for the afternoon session.

Benton Bowman, chairman of the engraving committee in the House, is having his troubles. This committee requires a lot of clerks and stenographers and no less than a score of applications crowded about Bowman's desk as soon as he was announced as chairman.

Speaker Selling evidently has a lot of confidence in the integrity of the printing profession. The entire membership of the House committee on printing is composed of printers or persons allied with the printing business. Frank Davey, chairman of the committee, and F. D. Wagner, W. O. Smith and J. S. Stewart are newspaper men or printers, while Allen Eaton, the fifth member, has a bookbinding plant in connection with his business at Eugene.

Senator Barrett, of Morrow County, who took action first in the Senate
