His name he said is not Robeno, as he previously gave it but Sabina Nodata. He came to Coos Bay from Italy in 1912, then went to Eugene where he worked in a lay field, getting a check for \$25 which he carried with him all this time. From Eugene he went North and into Canada. On recrossing the line into the United States he was arrested by William Greenblatt, an immigration officer. Greenblatt stepped to a telephone and Nodata ran away. He found a file and severed the chain between the cuffs, but was afraid to ask anyone to help him get the cuffs off his wrists.

This proclamation, which is virtually the same as the manifesto which Gutlerrez offered to issue two weeks ago, while he still was in the capital, if General Obregon and others would join him in a movement to eliminate Villa and Vanata accurate both of the Villa and Zapata, accuses both of the lafter officers of murder, brigandage and high-handed insubordination, de-clares independence of Carranza as well and calls on the Mexican nation for support.

General Carranza at Vera Cruz, as "first chief of the constitutionalist army," claims executive authority by the plan of Guadalupe. Colonel Boque Gonzales Garza, temporary executive now at Mexico City, was appointed by the convention in session there on the ground that the departure of Gutterrez was an automatic resignation of his office. Generals villa and Zapata, according to official advices, still are working in harmony, supporting the convention. The hope of General Gutterrez, according to official dispatches, appears to be to form a junction with Generals Obregon, Villareal and Gonzales and such other chiefs hitherto loyal to Carranza as he believes will agree to eliminate not only the first chief, but Villa and Zapata.

"Although we were helpless as in the former case we brought to the attention of General Villa that we were all decided to cause the government to be respected and to secure the punishment of those guilty of the abovementioned assassinations. Before giving us a definite answer, General Villa left the City of Mexico and went to Guadalajara, where he was guilty of similar crimes."

Not only have rhilway officials refused to take or-ders from the central government, he says, but military instructions have also been disregarded by Vilia and his
