

1500 PERSONS HEAR NEW BISHOP'S PREACH

Eloquent Plea Made for Loyalty to Chief and Devotion to Cause.

FINANCIAL SUPPORT ASKED

Prelate Dwells on Necessity for Efficiency and Urges Christians Not to Be Backward in Gift of Personal Service.

Strength, sincerity and directness characterized the message given by Bishop Walter T. Sumner yesterday morning in his first sermon to the people of his diocese.

Oregon's new Episcopal Bishop made an eloquent plea for the right kind of citizenship, for loyalty and for action on the part of men and women of every parish. He declared that a crisis has come in the affairs of the church in Oregon; that St. Helen's Hall is in dire straits and that in consequence he expects from the diocese the sum of \$25,000.

Moreover, by the following Easter he will look to his people to raise \$100,000 for the Good Samaritan Hospital.

Trinity Episcopal Church was filled long before 11 o'clock, the hour appointed for the service. A congregation of over 1500 assembled for the occasion. The chapel as well as the main auditorium was filled and many who were unable to find seats remained standing.

The impressive musical programme was arranged for the occasion by Dr. A. A. Morrison, rector of Trinity. Assisting in the ceremonies were Dean Ramsey, Archdeacon Chamberlain, Rev. J. E. H. Simpson, Rev. T. F. Bowen, Rev. J. D. Rice, Rev. W. A. M. Breck and Dr. Morrison.

Loyalty Is Urged.

Taking his text from the seventh chapter of St. Luke, which refers to the centurion as one who is found worthy because "he loveth the nation and hath built us a synagogue," Bishop Sumner applied the thought to the people of today and to every-day affairs of civic and religious life.

"There is one thing that demands respect," said the bishop, "and that is efficiency. As it is in business and professional life, I take it, it is in citizenship. How do we measure our efficiency in citizenship? First, we must have knowledge. In these days there is no excuse for ignorance. We have the daily press, the many magazines and countless sources of information. We cannot afford to be ignorant of today unless we have a knowledge of conditions.

"Next, there is loyalty. If we are good citizens we go loyally to work and loyally we must assist in bettering conditions. Action, too, is an important part of our lives as citizens. Let us not be so indifferent to the problems of today that we give up our knowledge, our time, our interest and of ourselves. There are some men who are so indifferent to the call that they do not even take the time to cast a vote.

Church Support Demanded. "But important as these things all are, we must not forget the centurion who not only loved his country, but he built a synagogue. I challenge you to know if you love well enough to build a church, and having built one, do you have devotion enough to maintain it?"

"Last September when you called me to Oregon to be your bishop, I did not look into the thought of the diocese with the bishop of Chicago out into the woods, away from all distracting influences, to think and to pray, and at the end of a week we decided that the call had really come, and I made up my mind to come. This is an office that no man should seek, and that no man should decline, without just reason.

"For your interest in the little children, I make a special plea. I want every parish house to echo with the happy voices of the boys and girls. I want you to give of yourselves, your time, talents and services. The church is crying for workers everywhere. Social service, friendly visiting—these things are good, but often the best social service work is done right in our own homes and in our church.

"The man or woman who would be a power of strength and courage, who would stand up against evil, social and personal unrighteousness, the man who would advance the cause of God and His Kingdom in this world, and who would be the center of the love of his nation and build the church of God."

PUPILS TO GET FRESH AIR
Pittsburg Schools to Add 11 Rooms for Children Who Are Weak.

PITTSBURG, Jan. 21.—Eleven additional "fresh-air" rooms, in which pupils will be clad in sweaters, gloves and toques in cold weather, will be opened in nine public school buildings of the city at the opening of the second semester in March.

Five hundred to 600 pupils thus will be accommodated, the open-air school-rooms that have been operated in the following schools: Granville and Enoch streets, and the Franklin School, Fox-hurst and Logan streets, and one each in the Minersville School, Center avenue and Morgan street; Letache School, Bedford avenue; Holmes School, Dawson street; Larimer School, Larimer avenue and Winslow street; Hazelwood School, Second avenue and Tecumseh streets; Forbes School, Stevenson and Forbes streets, and Manchester School, Chateau and Franklin streets, North Side. It is likely that John M. Conroy school, Paste and Fulton streets, North Side, also will be equipped with an open-air room, as the elimination of that item in the budget was unintentional.

Director H. B. Burns, of the department of hygiene, said recently that the fresh-air rooms will be used for the temporary treatment of children suffering from minor breakdowns, and that restoration of health will be the paramount object. The studies will be modified.

The windows of the rooms will be taken out and screens substituted to avoid draft, but an outdoor temperature will be maintained. There will be couches for the children to rest on when fatigued, and even to sleep, warm blankets being supplied. The extra wraps that will be necessary in cold weather also will be supplied by the Board of Education. The appropriation for the open-air rooms this year is about \$2200.

Bernjamin Priest, of Casanov, Somerset County, Maine, observed his 103d birthday anniversary recently and he said he didn't feel much different from what he did at 50. He is said to be the oldest veteran of the Civil War.

Monday CRAWFISH "IT NEVER CRABS"

EDITORIAL. In this crisis, when pressure appears to be mounting from all sides and directions, to say nothing of several points of the compass, it would impress upon the Solons and Lycouruses at Salem the necessity of adhering firmly to the principles of democracy to which they so firmly adhered in the pre-electoral campaign—or at least to adhere to them as firmly as they can.

But they should adhere with discretion. The principle of democracy is a fine thing to adhere to, but one can spoil his chances by indiscriminate adherence to such principles almost as much as he can by not adhering to them at all.

That is what makes this a crisis. The Crawford has no bill pending which calls for an appropriation, and therefore it is impossible to repeat its advertisement about adherence to the principles of democracy, the way the common people and passing the buck to the Solons.

LOCAL AND PERSONAL. The ground hog will make its annual visit to these parts in about eight days. Mr. Forbe-Robertson and his wife, who are in the city, are expected to leave for the house the past week. The crows were good.

There is some controversy, we understand, between Mr. Tom Huriburt and Mr. Tom Huriburt, who is the editor of the Oregonian, and the judges and clerks of election who are also participating actively.

Mr. Frank Harwood, who holds the baton over the Oregonian at Broadway and Stark, says that he was formerly a member of the German Air Corps, and that he has been recently discharged from the service. He says he isn't very sorry he did not stay.

Mr. C. Cooper, of McMinnville, who, besides being an Oregonian, is also a member of the Oregonian, is in the city this week. He will be in the city again next week, when Mr. Geo. L. Baker will congratulate him on his winning the honorarium prize given by the Portland Race Track for the week ending Jan. 20.

Mr. W. L. Finley followed the visit of Mr. Forbe-Robertson to the city this week. He is in the city this week, and he is in the city again next week, when Mr. Geo. L. Baker will congratulate him on his winning the honorarium prize given by the Portland Race Track for the week ending Jan. 20.

Mr. W. L. Finley followed the visit of Mr. Forbe-Robertson to the city this week. He is in the city this week, and he is in the city again next week, when Mr. Geo. L. Baker will congratulate him on his winning the honorarium prize given by the Portland Race Track for the week ending Jan. 20.

incent figure in church affairs here. The people of this city gave liberally when Messrs. Theo. Wilcox and Sam'l Hill circulated the subscription list for the Bible in our midst. It is actually a new piece of scenery or a re-blocking of old scenery, and the good will be forwarded to the publishers today or tomorrow by mail.

Mr. Larry Fernsworth, the w. k. Banks newspaper magnate, who used to be engaged on our side, is in our midst. He said conservatively that The Crawford is under its new management was good.

Alarms of Peace. The State Immigration Board, while in the balance of the Solons and Lycouruses of Salem, found time to give the work of the past week a report to that effect. The Board is to be transferred to the Gov. and to the Solons and Lycouruses, probably reaching here before he did, carrying the clock.

Just as her train was pulling out of the station, Mr. G. G. not being a mechanic, could think of nothing else to do but to shake the instrument and "crab."

When last heard the alarm was still functioning, and Mr. Gregory spent an agonizing afternoon picturing the alarm clock over the weary miles that lay between here and the home, and then muzzling it under a washbasin to wait for him to come home with the combination.

Read Not Wisely, but Too Well. J. B. Ziegler, the w. k. water-front ex-squirt, called upon Mr. Forbe-Robertson and told him that the current issue of The Crawford on that moment was the best he had yet read. Inasmuch as the present editor was the wife of his boss, he was in question, we accept the compliment. But it looks like a joke either on the part of Mr. Lammiman or on the w. k. water-front ex-squirt.

A Busy Year for Paul. Paul Funk and wife, of Falls Creek, were in the city a few days last week. Mr. Funk for several months past has been suffering from multiple myeloma. Starting on his hand last May they have traveled up and down one side of his head and are now approaching the top. At no time since the one appeared has he been helped by a physician, to say nothing of numerous small ones.

Well-Known Dome He-Covered. "Bob" (Sheriff) Stevens, the pop and w. k. boulevardier, appeared on the streets of our city recently in the late Mr. Lammiman or on the w. k. water-front ex-squirt.

Let the Frenchmen hold the Year, Let the Germans hoed the Kaiser, Let the Russian and the Cosack smite the Turk, Let the Austrian sing the Helms, Let the Hun raise bloody hell, Let the Greek and dauntly Bull, Let the Polish, Slav and Dutch mix with Japs and Boers as such, While England, with her sliick, throat, But Villa and Carranza, did me no good, I saw 'em stand, May yet get Wood's and our Uncle Billy's goat.
