Ruth St. Denis.

While the war has kept many foreign artists at home, who were to have visited America this season, it has at the same time prevented some of the great American artists from making a foreign invasion. Among the most noted of these Ruth St. Denis, of the Oriental dance artists, who was to have opened the Municipal Theater at Cologne, Germany, August 15, for a six weeks' engagement, after which she was booked for the entire season in Berlin, Paris and London. The declaration of war was made just as she was preparing to sail, hence she decided on a tour of the American cities, including Portland, where she has just been engaged to appear at the Helig Friday and Saturday, February 5 and 6, with her entire company of noted solo dancers.

ELECTRICIANS HAVE PLAN

SYSTEM OF LICENSING AND REGISTERING IS AGREED ON.

Plan Offered for Code to Supplant Proposed Cash Bond Provision—Fee Fixed at \$25 Yearly.

A system of licensing and registering electricians was decided upon yesterday by electrical workers and electrical contractors as a satisfactory method of regulating the electrical profession in business. The plan will take the place of the proposed system of exacting a cash bond from each contractor. Under the new management a license fee of \$25 a year will be exacted for registration. Every contracting firm will be required to have either as a member of the firm or as an employee a supervising electrician who shall have had at least four years' experience in electrical work, and who shall be over 21 years of age. The measure provides no restrictions against property owners who wish to do wiring on their own premises other than to require them to conform to the provisions of the electrical code.

To cut down the expenses of the electrical inspection bureau, a charge will be made for extra inspections. For the permit fee of \$1 the person taking the permit will be entitled to three inspections, two on the first 50 cents and one on the second 50 cents. A charge of 50 cents will be made for each additional inspection.

BOOKS COVER CENTURIES

Early Ages Pictured by Larned in Introduction to History.

Prehistoric times in world history are now stretched out as a starting point. Only feeble glimmerings are anywhere discernible—the occasional discovery of human remains, with their implements of the chase, their household utensils, their traffic, their carvings and rude paintings. These, indeed, speak to us, but with dumb lips that are eloquent only in conjecture.

In his wonderful introduction to his great history, Larned takes you back to prehistoric times. It is alone worth more to the reader than volumes of ordinary history. It is as fascinating as it is instructive and should be read by every reader of this paper. The coupon offer, almost a gift, places it in the power of everyone to possess the greatest five volumes of history ever gathered together. Clip the coupons required and present at the book departments of Meier & Frank, Olds, Wortman & King, J. K. Gill or The Oregonian office.

An effort will be made to have the Columbia Slough farmers bring their produce to this market this year. Mrs. A. R. Zeller is chairman of the management committee.

JOKE POOR TO 150 IDLE

False Message Sends Men on Vain Early Morning Search for Work.

A perverted sense of humor led 150 men from the unemployed headquarters at Second and Couch streets to a large, cold walk at 6:30 yesterday morning to the offices of the Columbia Contracting Company on the East Side. Some person had telephoned the headquarters at 11 o'clock the night previous that there would be work for 150 men digging sewers, if they would reply to the Columbia Contracting Company the next day.

There was no disorder, even after the disappointment of being informed by Superintendent Burke, of the company, that no such call for work had been sent out. Police Captain Inskip detailed Sergeant Wells and Patrolmen Gouldstone, Crane and Murphy to escort the company of unemployed.
