He pointed out as examples the proposed law providing that districts may tax themselves for publicity-owned systems of communication or may bond up to 15 per cent of the assessed valuation of property to establish such enterprises. This he declares penalizes the privately-owned industry.

"Our prohibition law is so drastic that it cannot be fixed," he said. "It gives a person unlimited opportunity to obtain beer from outside the state if he desires, but our own taxpaying brewery cannot manufacture to sell even outside the boundaries of the state—and the taxes on its property and equipment, you may be sure, go on just the same year after year."
