This extraordinary effort is being made to "jam through" a bill which is revolutionary in character and would embark this Government in a private business in which no other nation on earth has engaged. Other nations have engaged in lines of business within their own borders which are natural monopolies, such as telegraphs and telephones, but the Administration proposes that this Nation engage in a business which must be conducted outside its own borders, in competition with its own countries. These Government ships are to "engage in trade with foreign countries," and it is provided that that they are owned not by the Government but by a corporation can remove the fact that the Government would own control of that corporation. They are bent on reporting out a copper riveted, brass-bound law which would make acquirement from without the state of wine or other alcoholic beverages for lawful use in the privacy of one's home so burdensome as to be a restriction on personal liberty.

The provisions of the bill, as now agreed upon by the House committee limit the quantity that one person may ship in by common carrier to quarts of vinous or fifteen quarts of malt liquors in any one month. Such restrictions offer but one conclusion. The liberal members on the ommittee believe that an obnoxious bill will sooner or later arouse the people to kill the entire principle of prohibition. Their working partners on the committee seem to possess a sanctimonious impression that their mission in the Legislature is to comthing like five years ago. PORTLAND, Jan. 28 .- (To the Editor.)—A few days ago you published an appeal from a Servian lady, who represented that her people were with-out seed wheat to replant their crops. We have been generous in our contributions for the relief of Beigian sufferers. It seems to me that the Slavs and the Servians have an equal claim upon us. Bosnia and Herzegovina were invaded and conquered by Austria, and Servia was invaded by the same power. Can we imagine the desperation of our people if the farmers of Oregon had been left by the desolation of war without seed wheat to renew their crops?

We constantly hear the expression that there is no justification for the present war in Europe. Do we stop to think of the great issue at stake? The issue is between pan-Germanism and pan-Slavism. The Britannica Encyclopedia gives the population of the Slavs in Europe as 120,000,000. Of these 60,000,000 are Russians and 69,000,000 are made up of Poles, Bohemians, Servians. Transivanians, Rumelians, Croats and others. All these are men without a country, and are subject to the rule of Germany and Austria. Michigan Newcomer Says His Highway Has Been Fenced in.

FORTLAND, Jan. 27.—(To the Editor.)—Some time ago I purchased a small tract of land in Columbia County, and was taken over a good traveled road to it, which was represented to me as a county road. Soon after setting a small cabin up and starting to get my supplies in, I woke up one morning to find my supposed public road fenced and four gates across it, notwithstanding that the road had been used by the public for four years. In Michigan, one year's open and notorious use of this road would have made a public road which could not be closed by the abutting property owner.

"DRY" TEMPORIZING CRITICISED Legislature Expected to Make Oregon

Prohibition in Fact.

PORTLAND. Jan. 28.—(To the Editor.)—Why are temperance people petitioning the Legislature to limit (or permit) the purchase of alcoholic liquors for a single individual, to two quarts of whicky and 12 quarts of beer every 20 days? Did not our people vote last Fall to abolish salcons because they wished individuals and families protected from the injurious effects of liquor? Did they not wish to abolish the poverty, disgrace and crime that Probibition in Fact. liquor? Did they not wish to abolish the poverty, disgrace and orime that drinking produces? Do not our people, so active for eugenics and "better babies," wish to give the children their rightful heritage to be born well, inhandicapped at birth by the debaning influence of alcohol? Then why do they wish to cater to drinking customs? Why permit a family of five or 19 to have in the home from 78 to 149 quarts every 20 days if they wish?

CONSTANT READER. The Tumalo Irrigation Project em braces about 20,000 acres of land in Crook County, lying west of the Den chutes River and adjacent to the town of Laidlaw. The latter town is something like 12 miles north of Bend. The lands run westward from the Deschutes nearly to the town of Sisters. The Tumalo project was first segregated as the Columbia Southern project but the promoters fell down and the state has just completed the reclamation of the land in a very satisfactory manuer up supervision of Engineer O.
