### OWNERS OF BLUESTEM HOLDING TIGHT 36: Big Bend Farmers With 800,000 Bushels

Big Bend Farmers With 800,000 Bushels
Await Higher Market.

DAVENPORT, Wash Jan. 29.—(Special.)
—Conservative estimates place the amount of bluestem wheat, the staple product of the Big Bend country, in storage at Davenport, Creston, Wilbur. Almirs, Hartline and Cooleo City at cless to 500,000 bushels. There is little prespect of any considerable sales at the present level of prices, which yesterday averaged \$1.32 at these points, aprice 10 cents above that ever before received in the Big Bend country. In other parts of the Big Bend country. In other parts of the Big Bend, notably Sprazue, Harrington, Mohier, Odessan, Krupp and Wijsen. ### DIGHER SUGAR IS EXPECTED TODAY

Becoming Serious Problem. Jobbers are looking for an advance in

Coast sugar prices this morning. There was a 20-point advance in raws in the East yesterday and refined grades in that section have been raised twice within a week. The market on the whole is decidedly firm. The pressure of the crop movement, instead or making itself felt, seems as far off as ever, owing to the unassaonable rains which have checked grinding in Cubs. But not the present moment this is overshadowed by the freight situation, which is taking on serious proportions.

A New York authority writes:

To the misfertune of bad weather this year must be added that of a serious scarcity of steamer tourings. It has recently been stated by freight journals that the British government has chartered an estimated tonings of 1.850,000 to transport troops and smoother while Germany's merchant feet as the Prior of the per pound.

BRIED FRUITS—Apples, So per pound; Daily Delta Prior Del out the world, and even American vessels heretofore engaged in the Cuban and Porto Rican trades with the United States have lately been diverted to more lucrative transatlantic business. In these circumstances it s now estimated that from 49 per cent to so per cent of the world's total mercantile tonnage has been withdrawn for one reason or another from the usual channels of trade. from which it will be seen at a glance that

### WOOL IS BOUGHT BY GERMANY Three Million Pounds Said to Be Booked

Three Million Pounds Said to Be Booked for Early Shipment.

The landing of the steamer Carolyn with its wool cargo at Bremen has lent encouragement to other exporters and about 1,000,000 pounds, all domestic grades, are said by the New York Commercial to be booked for early shipment. This wool was bought for German account soveral weeks ago and in transfer of the New York Commercial to be booked. for German account soveral weeks ago and is reported to have been reparked in new bags, with such compactness and careful-duli; prunes firm; peaches firm,

England has been in a number of "corners" in connection with the weel situation
since the first embargo was placed. Now it
appears as though she were in a new one.
By declaring wool contraband or blockading
the German ports effectually she will prevent her enemy from getting supplies wanted
says the New York paper. Thus she would
fulfill the estensible purpose of all the emhargoes. But she would then be in a position where it would be necessary to show
whether any ulterior purpose has been in
mind, as suggested off and on by members
of the wool trade. Should the embargo be
left in force under the circumstances this
country would have reason to feel that Germany was not the only object against which
it was meant to militate. was meant to militate.

### NEW HAVEN WEAK FEATURE

Canadian Pacific Affected by De-

other speculative favorites producing a weak close.

In addition to the foreign offerings of Canadian Facific sales for European interests were probably the largest of any recent day. Abrogation of the rules prohibiting sales, except for cash, has resulted in a heavy movement of our securities from abroad. This is especially applicable to bonde of a speculative character.

Local banks are expected to make further cash gains on the movement from the interior, but supplies of cash at all reserve centers are now so abundant as to make quoted rates virtually negligible. Bank cléarings showed a decrease from the previous week, the loss being greater in the interior than at New Fork and New Engliand points.

London reported an expansion of business, that market being assisted by the remewal of our cash restrictions. The London exchange continued, however, to ignore the successive price roductions in Steel here.

Bonds as a whole were affected by the weakness of the stock list. Total sales, per value, aggregated \$1,978,000. United States the end of lam CLOSING STOCK QUOTATIONS.

NEW YORK, Jan. 29.—Bradstreet's will say tomorrow:

The pendulum of trade continues to swing in the direction of improvement. Starting at a wery slow nace three weeks age, it is new moving at a more satisfactory rate, though even yet the movement is but conservatively steady. Almost everywhere the disposition is to look on the bright side of things. Evidence of Spring buying, especially of textiles, continues to multiply. The labor situation, while far from normal, is such that ideness is decreasing. Winter weather over a wide area has helped reduce stocks of heavy goods. Money is cheaper, commodity prices are higher, funds are plentiful in the cereal growing regions. Winter wheat is in good shape, copper is higher and steel mill operations are being increased.
