

SOUTHERN PACIFIC LINES WILL WHITE

Mr. Sproule Confirms Story Company Will Take Over Subsidiaries in State.

FIRST STEPS ARE TAKEN

Total Mileage Involved Is 1198.98 and to It May Be Added Steamship Concern—Final Action Rests With Directors.

William Sproule, president of the Southern Pacific Company, confirmed yesterday, upon inquiry by The Oregonian, that the purchase of allied lines and systems in this state is contemplated, as was printed in The Oregonian yesterday. This will mean the acquisition of six lines in Oregon into the parent Southern Pacific corporation and the operation of all under one management.

Several lines involved. It is expected that the following railroads, with their indicated mileage, will be gathered into one organization under the Southern Pacific Company: Salem, City & Western, 28.2; Portland, Eugene & Eastern, 64.2; Corvallis & Eastern, 140.2; Willamette Falls, 14.2; Coos Bay & Eastern, 26; Pacific Highway & Navigation, 31.2; and Southern Pacific lines in Oregon, 790.88.

Expense to be Reduced. The keeping of separate accounts by these allied roads and added trouble and expense of auditing systems now in use will largely be avoided, it is believed, by merging them under one head.

Kavanaugh recalled the old Irish mother and her willingness to help the needy. He told of the ever-ready kindness that was always apparent when needed most.

FLOUR QUEUES FAST

England's Demand May Send More Cargoes From Here.

60 SHILLINGS IS LIKELY Tonnage at Reasonable Rate Now Issue, but Vessels Report on Way and February Exports May Be Increased.

Inquiries for flour wanted in England have been during the past week that it is estimated between three and four cargoes would be dispatched if steam tonnage is obtainable at reasonable rates. An exporter expresses the opinion that the steamer taken now would be on a basis of about 60 shillings, although the British tramp ship, fixed last week, brought 55 shillings. A mixed cargo, out of the British, was reported sold in Australia and another was said to have been sold Saturday for delivery in the United Kingdom.

Blood Sufferers Want to Know

The Light is Turned on to a Subject of Darkness.

The mere fact that S. S. S., the famous blood purifier, drives out disease is a world's story, a topic of conversation wherever men get together. They wonder why simply because most remedies are mystified and put before them as "discoveries." The fact is that we pay too much attention to poisons and not enough to real, honest, accomplishable medicine. This is a physiological fact and S. S. S. is true to the workings of a man's mind because it has done the work, driven out deep seated disease, revived hope, put the O. K. on appearances and claimed down light and effort of germs to get the upper hand. Any sore spot on the skin is an immediate demand for S. S. S. since the first principle of the famous remedy is to strike out for places of trouble. This is a physiological fact and S. S.
