## PUT STOMACH IN FINE CONDITION

Says Indigestion Results From an Excess of Hydrochloric Acid.

Undinested food delayed in the atamach decays, or rather, ferments the same as food left in the open air, says a noted authority. He also tells us that Indigestion is caused by Hyper-neidity, meaning, there is an excess of hydrochloric acid in the stomach which prevents complete digestion and starts food fermentation. Thus everything eaten sours in the stomach much like garbage sours in a cau, forming acrid fluids and gases which infinite the stomach like a toy balloon. Then we feel a heavy, lumpy misory in the chest, we heich up gas, we cructate sour food or have beartburn, flatulence, water-brash or nauses.

have heartburn, flatulence, water-brash or nauses.

He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast and drink while it is effervessing and furthermore, to continue this for a week. While relief follows the first dose, it is imperiant to reutralise the aridity, remove the gas-making mass, start the liver, athuiths the kidneys and thus promete a free flow of pure digestive juices.

Jad Salts is mexpensive and is made from the scid of grapes and lemon juice, combined with lithia and codium phosphate. This harmines salts is used by thousands of people for stornach trouble with excellent results.—Adv.
