

EACH SIDE LOSES HEAVILY IN POLAND

Russians Mow Foes at Borj-mow; Germans Capture 4000 Near Bolimow.

CZAR WINS NEAR MLAWA

Kaiser's Artillery Keeps Up Bombardment in Vicinity of Dounaetz Day and Night, but No Progress Made, Says Enemy.

LONDON, Feb. 3.—Successes for the Russian arms in the region of Warsaw and in the Carpathians have been reported in an official Russian statement received here today.

Confirmation is given also to the report that German troops have been sent to the Carpathians to assist their Austrian allies.

The text of the communication follows:

"The engagements in the region of Mlawa have continued favorably to our troops. On the left bank of the Vistula the battles on the roads from Bolimow proceeded on February 1 with considerable intensity. A large number of heavy and light batteries participated energetically in the engagements.

"The German attack on the morning of the 2d, north of Borj-mow, was repulsed with great losses for the enemy. A violent combat was begun south of the village of Goumne, where we recaptured advanced trenches which we lost January 31. The position of a small farm still is undecided.

"South of the Piles, near Dounaetz, the enemy increased the intensity of his bombardment, continuing night and day, but attempts of the enemy's troops to make progress are without success.

"In the Carpathians the conflict continued January 21 and February 1. Our forces advanced, fighting along the road from Duka to the village of the Lower San, having crossed the principal ridge of the mountain range in the region of Jasiska and Meso Labort, where we took a battery of the enemy, two mortars, a number of rapid-firers and numerous prisoners. An offensive movement undertaken by the enemy south of the village of Panna was repulsed with enormous losses.

"German Battalion Destroyed. "News relative to the transportation of German troops to the Carpathian front finds confirmation in the fact that on February 2, southeast of the Bekid Pass, we destroyed a battalion of the 24th German regiment, a remnant of which, notably battalion and company commanders and 29 soldiers, were made prisoners.

"According to the German version of the recent fighting in Poland, as given in the official reports from Berlin, the Russians have been forced back near Bolimow. It is said the Germans captured a village and took 4000 prisoners. Russian attacks elsewhere, the German War Office asserted, were repulsed.

"The Berlin communication follows: "There have been no new developments along the East Prussian frontier.

"Russian Cavalry Repulsed. "In Poland, north of the Vistula, cavalry onslaughts by the Russians have been repulsed, while south of the Vistula German attacks at a point east of Bolimow ended with the occupation of the village of Humin (to the north-east). Fighting in the region of Waszy-Lowitzka has been going on since February 1. In these engagements we have taken over 4000 prisoners and captured six tanks and a number of other weapons.

"It is suggested that Field Marshal von Hindenburg, the German commander, is again hammering toward the Polish capital with the idea of holding there Emperor Nicholas' crack troops, which otherwise might be transferred to the Carpathians where the Russians and Austro-German forces still are fighting in the mountain passes. Neither side has been able to force the other onto the plains, though the Russians claim to be more than holding their own.

SHIP BILL PLAN AWRY

which might menace the neutrality of the country.

In any event the Republican leaders insist that the bill cannot reach a vote at this session. Should the effort to amend the bill and return it within 48 hours succeed, they declare, the Republican attack will be resumed and kept up until the measure either is withdrawn or is killed by the adjournment of Congress March 4.

"We are through canvassing," said Senator Kern, the majority leader, tonight, "and expect to make progress tomorrow. The shipping bill is not dead, by any means."

Some Arrivals Insurgents. In denouncing his Democratic colleagues Senator Stone held the Senators through the lunch hour and attracted scores of listeners at the House who crowded in the rear of the room. He charged the group members with open hostility to their party, and declared that they had formed in a devious alliance with the enemy.

Senator Stone's remarks, however, did not deter the Democrats from their defense of President Wilson and the Administration, asserting that he would rather follow his leadership than that of "Billie Dick, Henry Cabot Lodge, Theodore E. Burton, William Edgar Borah, Jacob Gallinger or any recent alleged Democrats who goes about with a dagger in his stomach."

FRENCH WHISTLE HAMMERING BY FOE

Heavy Masses of Germans Repeatedly Return to Assault in Argonne.

ATTACKS LAST ALL NIGHT

Flaming Explosive Rafts Set Adrift Against Positions of Allies in France Are New Weapons of War Used by Invaders.

LONDON, Feb. 3.—German forces, in heavy masses, have carried on almost incessant hammering since noon yesterday against the French position near Bagatelle, in the Argonne. The third violent assault within a few hours at this point continued through a good part of last night and was successfully repulsed, according to a report received tonight from the French War Office.

The French official communication was as follows:

"There is nothing of particular importance to report except that in Champagne three German attacks were all repulsed to the west of Perthen, north of Mesnil-le-Hurlus and to the north of Massignac.

"Blazing Rafts Used. "In the Argonne a fresh attack at Bagatelle was repulsed by our troops during the night of February 2-3. "Flaming rafts, loaded with explosives, are new engines of warfare the Germans are using against the allies on the western battlefield in Europe. These rafts are set adrift in the stream, as they were in the River Ancre yesterday, with the explosive timed to detonate when abreast of the enemy's positions. The something to defend was because the conflict on land has practically become a deadlock, with the conflicting forces facing one another a few yards apart and unable to move without severe losses—have so far been destroyed before they did any damage.

"The French War Office earlier today issued a report as follows: "In the country north of Lys there is nothing to report.

"Artillery Fire Successful. "Between the Lys and Oise, in the sector of Novette, west of Lens, French batteries put an end to a splintered fusillade from the enemy. The Germans endeavored to float down the River Ancre some blazing rafts, starting from their positions at the north of Albert. We were successful, however, in stopping these rafts before they exploded.

"Our artillery has continued to secure excellent results in the Valley of the Aisne. We have made slight progress, have taken prisoners and repulsed a German attack west of Hill No. 200, near Perthen.

"In the Argonne a second German attack took place yesterday near Bagatelle at about 8 o'clock in the evening. This also was repulsed, as had been the attack previously reported, and which took place at 1 o'clock in the afternoon.

"The front from the Meuse to the Vosges has been quiet. In Alsace we are organizing our forces on the ground won by us to the south of Ammertzwiller.

"The German army headquarters' report of today said: "The attacks made by the French on the German positions near Wehrth have been repulsed. On the remainder of the western battle front there was yesterday nothing more than artillery exchanges.

"The German army headquarters' report of today said: "The attacks made by the French on the German positions near Wehrth have been repulsed. On the remainder of the western battle front there was yesterday nothing more than artillery exchanges.

Chat No. 5.

We all like the sensational, the bizarre, the unusual. It is a characteristic we cannot possibly avoid.

Chat No. 5.

That is the reason I have selected for the latter part of this week at the STAR THEATER until Saturday night one of the most gripping photo-plays I have ever seen.

It is "The House of Fear," and once you see it you will never forget it. Daring, intense realism makes "The House of Fear" perhaps the most sensational dramatic photo-play ever produced. I can recommend it to those who desire thrills that just WILL chase themselves down your spine as they did down mine.

Our old friend Sydney Ayres is at the Star in "Her Bargain." Ayres is very real. You will enjoy seeing him in the star part. He wrote the scenario himself.

Don't forget that we have winsome Marguerite Clark till Saturday at the PEOPLES in "The Goose Girl." Of course you'll be at the Peoples next week, beginning Sunday, to see Mary Pickford in "Miss Nell."

My next chat will be in Saturday's Oregonian.

John F. Cordray

have been driven mad from fright and the terrible scenes they have seen.

Along the railroad line from Djedjell to Skopje (formerly Ukub) the stations are crowded with refugees—women, children and decrepit old men, huddled together. Many refugees in this part of the country are without shelter, most of the available buildings having been given over to the wounded.

Americans' Work Invaluable. In the party of doctors and nurses taken out of Serbia last November by Lady Paget was an American, Mr. Markov, whose father and grandfather were New York surgeons. This party arrived in Djedjell in the month of January of wounded Serbians and Austrian prisoners sent down from the front in the battles which drove the Austrians from Belgrade. Every available space in the general hospital was filled with straw. As many as three persons slept under one blanket. Lady Paget's party, which had taken charge of the general hospital here, consisted of more than 50 persons, surgeons, nurses, orderlies and servants. Their work is regarded by the Serbians as invaluable.

If it were not for the pitiable sufferings of the thousands of homeless people, seen everywhere, who do not get any food, and who are being brutally enduring their misery, it might be said that Skopje wears a gala air, so proud are the Serbians of the recent victories of their army.

LAKE VESSELS ICEBOUND TWENTY STEAMERS HELD FAST ON CHICAGO-MILWAUKEE LINE. Many Others Are Marooned Off Racine and Six Are Stalled in Harbor. Wind Change Only Hope.

CHICAGO, Feb. 3.—Charles F. Clyde, United States District Attorney, announced today that he was investigating the rise in the price of wheat and other cereals, but declined to indicate what action he purposed taking. He said that there is a much smaller amount of wheat in Chicago at present than there has been at any time in several weeks.

Subpoenas for representatives of three of the largest grain companies and elevator concerns to bring in their books and records of business transactions covering several months were ordered issued by the District Attorney today.

"There are 1,350,000 bushels of wheat in Chicago today, if my investigation is correct," Mr. Clyde said. "Last year at this time there were between 3,000,000 and 10,000,000 bushels of wheat in Chicago. These figures do not mean anything unless it is granted that the conditions last year and this year are the same. That question is a debatable one. There are 15,000,000 bushels of wheat in Milwaukee and a large amount has been shipped to the East. Against the 1,350,000 bushels of wheat in Chicago there are 17,000,000 bushels of corn."

Oiliness

Without "oiliness" any lubricant would be worthless. You can feel the oiliness of Zerolene by pouring a little on a piece of glass and rubbing it around with your finger. Oiliness is in reality the substance of the oil rolling over each other—causing ball bearings to slip. Thus when you use a good oil like Zerolene the wearing surfaces of your engine roll over these "ball bearings" instead of rubbing together. Dealers everywhere.

SUFFERING SERBIA STILL UNDAUNTED

"Something to Defend, Something to Reclaim," Motto of Fighting Force.

KINSMEN TO BE HELPFUL

Plans Go Forward Rapidly for Organize Movement Which People Hope Rumania Will Share. Whole Nation Is Proud.

SKOPJE, Serbia, Jan. 16.—(Correspondence of the Associated Press.)—Serbia, once the focal point of the European war, but later almost lost to view in the maelstrom of the Balkan territory, is undaunted.

Since the recent defeat of the Austrians freed Serbian soil of invaders, the spirit of the troops is undaunted.

The traveler in Serbia is somewhat dazed at first to discover among the Serbs of the purest race and tongue. Living in Austrian territory, they were forced to serve in the army of the Emperor. They have the opportunity to serve their own country. Some are helping in the military hospitals, while others are doing scout and picket duty along the Balkan border.

Lying far beyond the European war center, Serbia seemed a difficult destination for a journey beginning at New York, but experience proved easier than anticipation. Belgrade, the front door of the Balkans, was impossible, indeed, but Salonika, the back door, was found hospitably.

Sign of War Are Many. With Paris easily attained, the rail journey from there to Brindisi, via Turin and Milan, differed little from what it might have been in ordinary times. The crowds of uniformed soldiers, the guard stationed in the Parli-

ment buildings will be more numerous than usual and will be provided with ball cartridges. Strict scrutiny has been applied to the issuance of tickets of admission to the opening functions.

The chief business of the session will be the voting of funds for the maintenance of the Canadian troops in the field and those which are now being raised and trained. It is understood that the appropriation will be \$1,000,000 and that Parliament will be asked to give the government authority to borrow that amount from the Bank of England, which is largely financing the war operations of Canada. There also will be a war revenue bill, which is expected to take the form of a stamp tax and increased customs charges against a number of necessities, including tea, sugar and citrus fruits.

WAR ACTS ONLY ARE URGED House of Commons Is Asked to Consider No Other Measures.

LONDON, Feb. 3.—Premier Asquith presented a resolution in the House of Commons today to discuss the present session entirely to government measures.

"There is no precedent for this resolution," said the Premier, "but all our energies as a nation are concentrated on the war and every moment spent on anything but the war is a moment lost for the purpose. Accordingly, the government proposes to take away the opportunity for private members to introduce bills and will confine its legislative proposals to measures for the prosecution of the war."

A House Law, speaking for the opposition, agreed to the resolution. He said the opposition intended to treat the present sitting of the House as a war session, as had been done in Canada and France.

Asland to Vote on Charter Feb. 4d. ASHLAND, Ore., Feb. 3.—(Special.)—The city will hold a special election on February 12 to amend the charter in order to change slightly the boundaries on the eastern border, vacating a portion in favor of the county. This is to be done in order that the County Court may have clear sailing in fixing the boundaries of the city.

PECULIAR JAW WINS OUT (Continued From First Page.)

Charles E. Slingsby, formerly a Lieutenant in the British Navy, and afterward a resident of San Francisco, is in possession of the property which was devised to the orphanage. When he asked the court to annul the disposition, a younger brother, possessed on the ground that the child was not a legitimate son, but an infant substituted for the Lieutenant's wife when her own child died.

Since the case has been on trial evidence has been taken in California and records produced there to prove the child the legitimate son and heir of the Slingsbys.

Ray Campbell to Meet Parslow. Ray Campbell will meet "Parley" Parslow tonight at the Army Hotel. Manager Harry Hansen clinched the bout yesterday. For a time it was undecided whether Ray would be able to go on at night. Fats Schindler was in reserve. Ten bouts in all make up the card, which will be started at 8:30, Jack Day will referee.
