BOND ISSUE IS PROPOSED

Bethlehem Steel Continues Its Up ward Movement-Canadian Pacific Makes Good Showing. Bonds Are Irregular.

NEW YORK, Feb. 9.—Stocks were inclined to make further upward progress in the early stages of today's sessies, but sudden weakness in New York Central, which declined 4'4 points, seen caused general unsertlement, the list sossies with a heavy tone and numerous not bosses, Central's precipitate decline was asseciated with the proposed lesue of \$100,000,000 bonds at 6 per cent interest.

Another development which should have redounded to the advantage of the local market was a further break in exchange on Lendon to the lowest quotations since Cepuber of 1907. The decline resulted from extensive efferings of bills against supplies bought in this country by some of the foreign governments now at war. Incidentally Germany's gold status once mere came into consideration with a new low reserved for marks, while London reported the removal of about \$1,500,000 foreign gold coin from the Hank of England.

Declaration of the regular dividend on American Sugar shares was in keeping with popular expectations, abelt the stock was reverlab pending definite announcement. Another advance in the refused product was made by independent products.

Bethiehem Steel, which has been the object of much manipulation recently, went to a higher price than before, but receded on realizing sales.

Canadian Pacific made a better showing than any of the other high-priced railway shares, although it relinquished all of the two-point gain made at the outset, intermatousle, as a whore, moved within fractional limits, receiving little support in the London market, where trading proceeded cautions, as a whoir, moved within fractional limits, receiving little support in the London market, where trading proceeded cautions, as a whole, moved within fractional limits, receiving little support in the London market, where trading proceeded cautions as a support of the curb for linguishing of the rais for long-times economodations was manifested. Wheat traders who musally act for seaboard export-houses were consplexous in the purchasing here of the May delivery, and it was said a good deal of European business was done at the scaboard, but not made public. In addition, cash handlers here were known to have soid 120,000 bushels for export by way of the gulf said to have received bids for more. Liverpool quotations, too, were higher and there were advices of a further rise in freight rates from Argentina. Apparent lossening of the country hold on reserves nearly gave the hears control of the wheat market about midday. to supply irrigation.

Snowfall this year has been from three to four feet below normal in the mountains around Baker, and in the valley there is now not a trace of snow. Continued warm weather threatens to play havoc with the little snow remaining in the mountains. Many thousands of acres of hay lands are about to be planted with wheat, and the farmers have been counting on enough water for irrigation. Unless there is a good snowfall soon there promises to be a drought which will offset the high prices in prospect for wheat.
