## STORK GUMSHOES HIS WAY INTO HOME

Mother, Father and Physician Amazed by Sudden Arrival of Little Stranger.

WARNING IS

Parents-to-Be Laugh Heartily When Doctor Unfolds His Theory, Which It Takes Only Half an Hour to Prove Conclusively.

CHICAGO. Feb. 16.—(Special.)—Mr. and Mrs. Joseph M. Jackson are entertaining an unexpected guest today in their home at 1516 East Sixty-second street. She arrived without baggage at dawn and made a loud protest when she found that no preparations had been made for her. Her welcome was warm, however, and the latest report had it that she had decided to remain. Waiving the comedy that unconsciously arises about a tremendously interesting scientific case, the facts are as follows: At 3 A. M. today Mr. Jackson communicated with Dr. Arthur F. Wolford, by means of the telephone, and asked him to hurry to his home on Sixty-second street to treat his wife for stomach cramps.

Doctor Has Theory of His Own. "Bring along your hot water bottle,"

he said.
Dr. Wolford dressed and hurried to

"You're joking, doctor," said Mrs.
Jackson, laughing heartily. Mr. Jackson joined in the laugh.
Dr. Wolford continued serious.
Half an hour later a faint, querulous cry went wavering through the house.
It was made by an eight-and-a-half-pound girl. At present the mother and child are doing extremely well. Outcome Wholly Unexpected,

able case."

The nurse was more inclined to be amused than struck by the scientific phase of the case.

"Bless their hearts," she said, "they didn't know a thing about it, and it's really too bad for the baby. She hasn't a stitch to wear. Think of the poor little thing arriving in this big, cold world without any of the pretty little clothes most babies have. When she looks at me so repreachfully I feel absolutely ashamed.

by the Senate.

Senator Smoot has given notice that the debate will be continued by the opposition until March 4, unless the Democrats withdraw the measure or some unusual tactics are resorted to by Administration forces. Charges of improper influences exerted with relan to the bill ordered investigated by the Senate yesterday were taken under consideration today by the special Sen-ate committee, and the formal inquiry

will begin tomorrow morning.

Bernard N. Baker, of Baltimore, exmanager of the Atlantic Transport Line,
and Sigmund Albert, of New York, representative of some of the German-American steamship companies, have been summened by the committee, and are expected to appear at that time.

Purchase of Belligerents' Ships Not

Even Discussed Thus Far.

WASHINGTON, Feb. 16 .- Secretary McAdoo gave out tenight a copy of a letter to Senator Fletcher emphatically denying intimations that he had en-tered into any negotiations for the purchase of merchant steamers of bel-ligerent nations for operation under the proposed ship purchase bill. Mr. Mr.Adoo Summed up his statement as

The Secretary added that since the disappearance of the emergency at the war's outbreak, when 100.000 Americans in Europe awaited transportation home, no agent or amploye of the Government, so far as he knew, had had communications with any steamship companies or ship owners except to settle charges for transporting refugees.

Replying to Senator Burton's inquiry as to whether tenders of steamers flying belligerent or neutral flags had been made to the United States or its officials, Mr. McAdoo referred to information concerning available ships contained in a report he made to the Senate on freight rate increases. He added that lists of steamers under French, British and German flags had been furnished by J. V. McCarthy, of Boston, and B. N. Baker, of Baltimore, and that offers of neutral ships were inclosed with the letter from Mr. McCarthy, These offers were submitted to the Treasury Department, he said, without solicitation on his part and probably resulted from published reports of the proposed ship-purchase legislation.

Mr. McAdoo declared he had no knowledge of any loans by anybody in the United States to owners of the ships tied up in American ports or of any options held on such ships in contemplation of their transfer to the Government or any citizen. ernment or any citizen.

Mining Engineers Look to California for Product, While Texas Also May Provide Supply.

NEW YORK, Feb. 16 .- The prospect of a great scarcity of potash in the United States because of the embargo Dr. Wolford dressed and hurried to the scene with his water bottle. He took one giance at his patient and immediately discouraged her theory. In announcing his own belief he occasioned much merriment for the Jackrecently placed on its exportation by American Institute of Mining En-

Outcome Wholly Unexpected.

The arrival of a daughter was entirely unexpected. Mr. and Mrs. Jackson, the nurse and the doctor all testify to this.

Neither Cradle Nor Name Waiting.

"Why, there isn't even a cradle. They haven't thought of a name for her. That may take weeks and weeks to decide. And she's such a nice, pretty little baby. /Oh. I feel so sorry for her. They've got to make it up to her in some way, I tell you."

Mrs. Jackson did not say much of anything. She lay with the "cute little stranger" in her arms and every now and then asked some one to wake her up from the lovely dream.

"I can't believe it." she cried over and over again. "I just can't believe it."

The rest of the things she said were those intimate, intimate confidences a mother addresses to her baby.

Poor Mr. Jackson—he had a bad morning. The story spread through the neighborhood like influenza. It is costing him a leading lady's ransom in cigars.
