

GERMANY STILL IS OBTAINING COPPER

Britain Gravely Suspects in Spite of Precautions Supply Is Not Cut Off.

NORWAY OPENLY DEFIANT

Nation Maintains Position It Will Ship Its Product Wherever It Chooses—Spanish Output Is Carefully Guarded.

LONDON, Feb. 16.—(Correspondence of the Associated Press.)—Admiralty officials have taken various steps to prevent shipments of copper from neutral countries into Germany, but there still are grave suspicions that Germany is getting considerable quantities from neighboring countries. The Foreign Office has emphatically denied the charges of American copper producers that Germany is getting copper from a combination through which they are able to control American copper destined for Europe which American firms formally sold direct to dealers in various countries. It has been charged by American concerns that English dealers are able to get a commission from handling copper which now must be re-exported from the United Kingdom under a special license. While figures are not available, officials here hardly any copper has been exported from Great Britain since the opening of the war.

Such Italian Copper Detailed.
In normal times Italy imports about 3500 tons of copper a month. At the opening of the war the shipments destined for Italy in one single month aggregated 14,000 tons. Much of this copper is of the kind which was from America, was detained at Gibraltar. That was previous to the British announcement December 5 that Italy had tightened its regulations concerning the re-exportation of copper, making it possible for shipments to firms not of German affiliation to go forward. Great Britain has been storing copper in many of its leading seaports. Some of this copper has gone through the port of Genoa, and it is which was not assigned to firms under suspicion on the Continent has been bought by the government at market prices. Complaints have been received from some American shippers that copper commandeered by the British government has not yet been paid for.

Leakage in Denmark Humored.
Although Denmark has strictly forbidden the exportation of copper to belligerents, it is reported that considerable quantities of the much-needed metal have been smuggled into Germany through Danish firms into Germany within the last three months, and the British government is much concerned about the leakage. At the opening of the war British officials believed Holland was also sending copper to Germany, but recently the Dutch regulations have been changed and The Netherlands has gained such control over its merchants that any shipments of copper now reaching Germany across the Dutch border are believed by British officials to be inconsequential.

Norway steadily to ship what copper it produces wherever it chooses. Previous to the war Norwegian copper mines produced only about 800 annually, but since the war their known output has been greatly increased. This crude copper is sent to Sweden to be refined, and repeated charges have been made by British officials that it is not all shipped back into Norway.

Metal Used in Sweden.
Metal works in Sweden are said by British officials to be using Norwegian copper, as well as copper imported from elsewhere, in making an alloy of metal suitable for cartridge shells, which is not on the list of prohibited exports. This is said to have been done in large quantities, and has been the subject of many investigations on the part of Great Britain.

One result of the controversy concerning copper has been the offer of many owners of copper mines in Norway to sell their properties to the British government.

SEVERE DRY BILL KILLED

Arizona House Rejects Draconic Definition of Intoxicating Liquor.

PHOENIX, Ariz., Feb. 16.—The House of the Arizona Legislature today defeated the Powers bill for the drastic enforcement of the new prohibition measure by a vote of 18 to 16. A similar measure in the Senate has not yet come to a vote. The severity of some provisions of the Powers bill was deemed by its sponsors to be responsible for its defeat. It provides that all beverages containing one-half of 1 per cent of alcohol should be considered liquor, and included all liquids which would produce intoxication. It put a ban on clubs and extended the right of search. The prohibition law, however, has already been interpreted by the Supreme Court in a test case, so that its enforcement is not dependent on legislative construction of its terms.

WAR THOUGHT WORST EVIL

Chance of Ridding World Is Now or Never, Says Viscount Bryce.

LONDON, Feb. 17.—Presiding at a scientific lecture in London last night, Viscount Bryce, ex-British Ambassador to the United States, said that if there was a chance of ridding the world of the worst evil of the human race, war, that chance ought to come now. "If this doesn't cure us," said Viscount Bryce, "nothing will." The speaker ventured the hope that there would be a stronger feeling for peace after this war than ever before and a stronger sense of the detestable consequences to which the worship of may bring a great people. If, to be added, the sacrifice would not be made in vain.

ROADS WANT HIGHER RATE

Permission to Raise Fare in Iowa Is Asked of Legislature.

DES MOINES, Ia., Feb. 16.—A committee of officials representing six Western railroads and headed by S. M. Felton, president of the Chicago Great Western Railroad, appeared before Governor Clarke and committees from

the Legislature today and asked that they be permitted to raise passenger fare rates from 2 to 2 1/2 cents a mile. It was also urged that the State Railroad Commission take the same jurisdiction over passenger rates that it already has over freight rates. Governor Clarke, in his reply to the committee, assured them that he thought the state would be fair. The Legislature is expected to consider a bill bearing on the subject.

FRENCH AIRMEN RAID DAILY

Alsatian Town of Eichwald Is Bombarded Frequently.

BERNE, Switzerland, via Paris, Feb. 16.—French aviators have made several attacks on the Alsatian town of Eichwald, across the Rhine from Neuenburg. Daily forays into Alsace and Baden have been made for some time, but particularly efforts are being directed against Eichwald on account of the location there of German fortifications of greater importance.

SHIP CREW MAKE WILLS

Men Taking California Oil to Britain Fear Death at Sea.

SAN FRANCISCO, Feb. 16.—The British oil tanker Lompoc of the Lion Oil Company, laden with 80,000 barrels of distilled oil, valued at \$350,000, sailed today for London. Officers and members of the crew are said to have made their wills, fearing death should they be attacked on the way by a German submarine. This is the first cargo of the kind to be sent here for the allies.

VOW BEFORE DIVORCE VOID

Wedding of Guy Bates Post, Actor, Is Annulled at Chicago.

CHICAGO, Feb. 16.—The marriage of Guy Bates Post, the actor, and Jane Dayton Post was annulled here today. The evidence showed that Mrs. Post was divorced October 23, 1907, from A. C. Gordon Wold, to whom she was married May 21, 1907. Mrs. Post testified she understood that the decree had been entered August 8, 1907. She was married to Post August 21, 1907.

ANTI-TIPPING BILL PASSES

Nebraska Senate Has Large Majority for Measure.

LINCOLN, Neb., Feb. 16.—The Nebraska House tonight, by a vote of 61 to 24, passed the bill making tipping unlawful. The State Senate today defeated the bill making it unlawful for clubs or organizations to dispense intoxicating liquors to members. The vote was 22 to 8.

W. C. Yeomans, of Pe Ell, Marries.

CENTRALIA, Wash., Feb. 16.—(Special.)—W. C. Yeomans, who operates a big sawmill at Pe Ell and who is known all over the Northwest, and Mrs. Mae Collins, who has conducted a hotel business in Pe Ell for years, were married yesterday by Judge A. E. Rice at the latter's home in Chehalis.

Child Is Hurt by Horse's Kick.

GRAYS RIVER, Wash., Feb. 16.—(Special.)—Viola, the 6-year-old daughter of Clarence Wortell, a prominent farmer of this place, was kicked by a horse Sunday and seriously injured. Doctor Pilkington of Astoria, was summoned and ordered her to the hospital at Astoria.

T. R. IS SUMMONED IN DAYTON HEARING

Ex-President Is Expected to Tell Congress of Federal Court Appointee.

MANY WITNESSES TESTIFY

Conflicting Statements Concerning Manner in Which Office Was Secured Are Attributed to Judge in Testimony.

WHEELING, W. Va., Feb. 16.—Announcement that ex-President Roosevelt had been summoned to appear before the Congressional sub-committee investigating charges against Federal Judge Dayton, of the Northern district of West Virginia, was made today by United States Marshal Smith. Judge Dayton was appointed to the Federal bench in 1905 by Colonel Roosevelt, who is expected to appear Thursday at a session of the committee to be held in Washington. The first witness today, Widener Cordeur, clerk of the Circuit Court of Barbour County, West Virginia, read a deposition alleged to have been made by Judge Dayton in a suit in Barbour County.

Flashlight Photo Mentioned.
The deposition read: "There was no man on earth responsible for my appointment as Federal Judge. President Roosevelt said to me that he wanted no influence brought to bear and that he would make it if all the Congressmen and other influences were against me."
Over objection of counsel for Judge Dayton, Floyd Teter, of Beltington, W. Va., testified that C. F. Teter, a cousin, had told him Judge Dayton had said he had used influence to obtain his appointment to the Federal bench. Teter said that the existence of a flashlight photograph of the late Judge Jackson, Judge Dayton's predecessor, taken in Atlantic City, was known to Judge Dayton. He testified Judge Jackson resigned only after he saw the picture.

Victor Accused of Criticizing Fee.
H. Roy Waugh, ex-United States District Attorney in the northern district, said he did not like the referendum and recall. The witness said that as far as he knew Judge Dayton was not guided by political influence in appointing trustees in bankruptcy.

Prisoner's Child Is Stake
Battle for Edna Hafer Starts in Court at Oregon City.

OREGON CITY, Or., Feb. 16.—(Special.)—The first step in what promises to be an interesting fight between L. G. Roberts, of Goble, and Frank Catho, of this city, for the control of Edna May Olive Hafer, was taken Monday when the girl was declared a dependent child and placed under the control of Court Matron Church and the petition of Roberts was heard by County Judge Anderson. The Roberts family were neighbors of the Hafers and Mrs. Catho now has possession of the child. The girl's father is serving a long sentence in the state penitentiary and her mother is dead.

MAKE YOUR OWN HAIR STAIN

This Home-Made Mixture Darkens Gray Hair and Makes It Soft and Glossy.

To a half pint of water add: Bay Rum 1 oz. Barbo Compound a small box Glycerine 1/4 oz. These are all simple ingredients that you can buy from any druggist at very little cost, and mix them yourself. Apply to the scalp once a day for two weeks, then once every other week until all the mixture is used. A half pint should be enough to rid the head of dandruff and kill the dandruff germs. It stops the hair from falling out, relieves itching and scalp disease. Although it is not a dye, it acts upon the hair roots and will darken streaked, faded, gray hair in ten or fifteen days. It promotes the growth of the hair and makes harsh hair soft and glossy.—Adv.

missed by Judge Dayton because he did not support A. C. Sherr for Governor, as the judge wanted him to. He said he had discussed the candidacy of Sherr with Judge Dayton and that the judge told him that C. W. Swisher, Sherr's opponent, was unfit for the place. Chenneweth said he opposed the nomination of Sherr. His dismissal, he said, followed a sentencing bootleggers convicted in the Federal Court.

White Goes Free; Negro Jailed.
Kramer said a white man and a negro were convicted. The white man, the witness declared, was never sentenced, while the negro received six months in jail. Gibson said the resolution adopted by the Preston County Bar Association was prepared by Bliss McCrum, at that time an attorney for the Baltimore and Ohio Railroad. Of five men who voted for the resolution, Gibson testified, one was a referee in bankruptcy in Judge Dayton's court. H. J. Wilcox, a stenographer in Judge Dayton's court, said the judge never instructed him concerning the point in the proceedings where he was to begin taking notes. John H. Howard, of counsel for Judge Dayton, said Judge Dayton would ask the committee to read the testimony taken at Washington some time ago and before the judge made a statement replying to the charges against him.

PURE WATER COST CITED

Oregon City League Expects City to Get Revenue From Line.

OREGON CITY, Or., Feb. 16.—(Special.)—That with a maximum water rate of \$1.65 and no direct tax of any kind, Oregon City could easily finance the South Fork water project, was asserted by the Pure Mountain Water League at a mass meeting last night in the Commercial Club rooms. League members also said that at the end of 10 or 20 years the rate would be reduced to the one now charged. By leasing the water power now controlled by the city and used in the pumping station, by selling water to Estacada or any of the other cities seeking the right to tap the line, or by the natural increase in consumers, it was said, income could be produced which was not figured by the Water League.

Philomath College Plans Changes.

PHILOMATH, Or., Feb. 16.—(Special.)—Philomath College observed February 14 as Educational day. A special effort was made to raise funds for the improvement of the college. Dr. Fisher, dean of the institution, delivered an ad-

dress on "The Three-Fold Man." The beautiful campus is to be rearranged and the chapel put in first-class condition.

STUDY AND EXERCISE

Study does not hurt a child unless the study time is taken from time that should be spent in out-of-door exercise. Overstudy and lack of exercise make thin, bloodless children. It is a combination that provokes St. Vitus' dance. If your child is thin and pale, listless, inattentive, has a fickle appetite and is unable to stand still or sit still, you must remember that health is even more important than education. See to it at once that the patient does not overstudy, gets at least two hours of out-of-door exercise every day, sleeps ten hours out of every twenty-four and takes a non-alcoholic tonic like Dr. Williams' Pink Pills until the color returns to cheeks and lips and the appetite becomes normal. For growing children who become pale and thin Dr. Williams' Pink Pills are not only safe but in the great majority of cases they are the very best tonic that can be taken. They build up the blood and strengthen the nerves and assist nature in keeping pace with rapid growth. The Dr. Williams' Medicine Company, Schenectady, N. Y., will send you two books on the blood and nerves if you mention this paper. If your child is very young ask for the booklet "The Care of the Baby." Your own druggist sells Dr. Williams' Pink Pills.

You're never at a loss for entertainment when there is a Victrola in your home.

Any Victor dealer will gladly demonstrate the Victrola and play any music you wish to hear.

There are Victors and Victrolas in great variety of styles from \$10 to \$250.
