

JAPAN'S DEMAND ON CHINA CONFIRMED

Transfer of German Rights in Shantung to Tokio Government Insisted On.

MINING RIGHTS WANTED

Control Over Railroad and Extension of Leases Part of Plans for Tightening Hold on Celestial Republic.

PEKIN, Feb. 17.—Disclosure of the demands made on China by Japan confirm the dispatches recently sent from here that the Tokio government insists that it shall have a large measure of control in the future development of the country.

In relation to Shantung, Japan asks that China transfer to her all rights and concessions previously enjoyed by Germany, and requires China to consult Japan on all matters previously agreed upon between Germany and China in the province of Shantung.

China is to agree not to alienate or lease Shantung or any part of the coast on any pretext to any foreign government, and similarly no island near Shantung is to be leased to any foreign power.

Extension of Leases Requested. In Southern Manchuria and Mongolia, the extension is asked of the terms of the lease of the Kwang-Tung, Port Arthur and Darien and the Manchurian and Mukden Railroads.

In the same region, Japan asks for the acquisition by Japanese of the rights of residence and ownership of land and the grant of mining rights.

In the same region of Southern Manchuria and Mongolia, the following four requests are made:

Before granting railroad concessions to any third power, China must agree to consult Japan in advance.

Before endeavoring to obtain capital for loans from any third power, China must consult Japan.

Before choosing any foreign political, military or financial advisers, China must consult Japan.

The transfer of the management and control of the Chang-Chin Railroad is to be made to the Japanese.

China is obliged not to alienate or lease any ports or bays on any island near the coast of Formosa.

China Makes Counter Proposals.

It is learned that China has made three counter proposals respecting that portion of the Japanese demands which concerns concessions in Manchuria, Mongolia and Shantung.

The Chinese government also has signified its willingness to make a public declaration that China shall never cede a port, harbor or island to another power, but it has declined to pledge itself to that effect to Japan.

The Pekin government also has expressed itself as willing to discuss any demands which she does not regard as infringing upon her own sovereignty or as affecting existing treaty rights with other powers.

The status of the negotiations is now rather clouded. Two opinions prevail in Chinese government circles, one that Japan will press for her demands in full, and the other that Japan cannot insist upon any stipulation beyond the 11 set forth in the communications to foreign governments.

ROTARY BODIES ARE PICKED

New Head in First Meeting Names Committees for Year.

Fred Spoor, newly-elected president of the Rotary Club, presided over his first regular meeting since his election at the Benson Hotel Tuesday and named his committees for the coming year.

The chairman of the various committees are: Entertainment, M. G. Winstock; membership, F. W. Fatt; legislative committee, Gates Snedcor; publicity, E. S. Higgins; and exposition committee, E. O. Johnston.

Announcement of plans for the visit of the Portland delegation to the Northwestern Rotary convention, in Victoria, B. C., was made at the meeting yesterday and one of the impressive parts of the programme was the putting on of the ritual connected with assembling the "Rotary wheel," which is to be one of the prominent features of the Portland delegation.

About 26 members of the Portland club will visit the convention in Victoria. N. G. Pike, vice-president of the club, will head the delegation. The convention will be held next Friday.

PARK HEAD TEST MARCH 2

Civil Service Examination to Embrace Technical Subjects.

A civil service examination to secure an eligible list from which to make a permanent appointment to the position of park superintendent has been announced by the Municipal Civil Service Board for March 2. The examination will embrace a general test on technical subjects and an oral examination.

The position is filled at present by James Conville, who is serving on temporary appointment pending the holding of the civil service test. An attempt was made in 1913 to have the voters charter excluding the position of park superintendent from civil service.

TACKS IN JITNEYS' PATH

"Self-Righting" Points Found on Street Are Shown to Council.

That scattering of tacks on streets has been resorted to in Portland as a means of "regulating" jitney automobiles was reported yesterday by Municipal Traffic Engineer Kirkpatrick, who exhibited a handful of tacks he picked up on the street as evidence in complaining before the City Council.

The tacks are the large "self-righting" kind used in upholstering furniture. They have a heavy butt, which causes the point of the tack to stick straight up regardless of how or where the tack is dropped.
