WEATHER CONDITIONS. WEATHER CONDITIONS.

The depression yesterday evening off the Oregon Coast has moved rapidly northeast ward to Saskatchewan and the Eastern high-pressure area is now central on the Pacific Slope as far south as San Diego, Call, and rain has fallen locally in Florida. It is warmer in Eastern Washington, Montana, the Dakotas and Minnesota. The temperatures have fallen decidedly in Alberta.

The conditions are favorable for fair weather in this district Thursday, with lower temperatures in Eastern Washington and Northern Idahe.

FORECASTS: Portland and vicinity-Fair; westerdy winds. Oregen—Fair; westerly winds. Washington—Fair, colder east portion; westerly winds. Idaio—Probably fair, colder north portion.

Excitement Spreads to Western Growing Sections.

CLIMBING

Unusually High Market Is Expected in Spring -- Buyers Would Contract for New Clip, but Oregon Sheepmen Hold Back.

The wool market in the East is in a most excited condition and stirring times are cooked for in the Western states when the buying season opens. Everybody in the of Sacramentos at 11% cents. The Weschel-trade is bullish, the growers because they berg lot of 40 bales of Sonomas brought 11 are practically certain to get very high cents. Jacks bought 142 bales of Sonomas are practically certain to get very high rices, and the buyers because they can-

ot be otherwise.

The contracting movement is beginning to get a little headway is the West. It would 42 bales of 1913s from Mrs. Moran at 7% be booming were there enough sellers. Buyers stand ready to contract for wool any-where in Eastern Oregon, but they are not able to make any impression yet on the growers, and may not be able to do much in this line before shearing time, unless they offer a good deal more than they are talking now. Dealers would be glad to con-tract for good medium clips at 22 cents. such clips as they bought last year at 17 to 15 cents, but sheepmen turn a deaf car to such proposals. While values are going y's males were as follows:
Wt. Price
Wt. Price
176 \$6.80.30 hogs. 128 \$6.25
186 \$6.80 \$ hogs. 329 5.90
186 \$6.80 \$ hogs. 186 \$6.90 predict any definite prices.

Offers have also been made for new wools in Western Idaho, but at what prices is not known here. Some business has been done in Utah and soda Springs wools at 25 to 25 cents. Utah advices are of 25 to 27 cents being paid for quarter and three-eighths-blood and 22 cents for fine me-

Some contracts have also been placed in Nevada. It is said that buyers represent-ing German importers are busy around Caspar, Wyo., and also in Montana. The wool trade is much interested in a report that Boston firm has bought 250,000 pounds on ontract in Arizona at 2714 cents.

The extremely strong position of the Bos-

Ing when the news of the tightening of the Australian embarge on merine wools came in from Australia. Thursday on the street was a repetition of the Friday before, the pressure to get wool being tremendous and prices being marked up generally. Of course much of the business come has been between dealers, but considerable wool, nevertheless, it whom are of whom are now buying in anticipation of their needs. One dealer describes the mar-ket as one of "thrills and chilis," although so far the thrills have certainly predomnated.

"if there be only 5,000,000 pounds of wool in the Boston market at the present time, as some merchants estimate, then the Boson wool stock must have completely ton wool stock must have competent, changed hands during the week. However, much of the trading has been on wools to straight wools at prices which show very hardsome profits over the prices originally paid for these wools, All that seems neces-eary to self wool today is to put a price on it that is high enough to make it look attractive.

"Where the market will land, unless for eign supplies are allowed to come in freely, is a matter of extreme conjecture. Fredic-tions of all sorts are made as to the future.

One thousand bales were sold during the day in the Yakima section. Of this quan-tity, McNeff Bros, secured 700 bales from NEW YORK, Feb. 17.—The apprehension and uncertainty attending international conditions were once more potent factors in today's dull and heavy stock market. Trading was ultra professional and mainly on the short side. In the early session, that faction renewed its attacks on leading shares, which fell a point or more, coalers showing great weakness. Later prices made gradual recovery, but in the final hour selling of American Smelting in large volume brought renewed unsettlement, the closing being at or near the lowest level of the day. Baltimore & Ohio, New Haven and Southern Enliway preferred were among the stocks that fell to new low, or repeated formor minimum quotations.
