It has been suggested that the burned area be fenced and hogs turned loose to devour the wheat, while others think the best means would be served if material to be dredged from the harbor was deposited there to cover it.

and suggests the aroma and flavour of mild highgrade Java. That's because the roasted "berry" of wheat, from which Postum is made, has a snappy flavour remarkably like that of the roasted coffee berry. The real taste is a delightful savor distinctively Postum-rich and nourishing.

Unlike coffee, Postum never imposes upon its users a tribute of headache, nervousness, biliousness, sleeplessness, heart flutter and other ills, because Postum contains not a particle of the coffeedrug, caffeine, or any other harmful ingredient.

# INSTANT **POSTUM**

is the concentrated form of this pure cereal fooddrink. No boiling required-made in the cup with hot water-instantly! Wonderfully convenient for the home, for travel, for the picnic handy anywhere. Delicious! 30c and 50c tins.

If coffee is interfering with your comfort and success, as it does for most users, suppose you shift to POSTUM.

### "There's a Reason"

Postum may also be had in the original formwhich must be well boiled—15c and 25c packages.

Both forms of Postum are equally wholesome and delicious, and cost per cup about the same.

SUPREME COURT AFFIRMS FORE-

Notice of Stipulation Against Liens

SALEM, Or., Feb. 23 .- (Special.)-The Supreme Court today, in an opinion by Justice Harris, affirmed the decree of Justice Harris, affirmed the decree of Circuit Judge Morrow foreclosing two liens in the case of the St. Johns Lumber Company against Katie H. Holcomb and others, who filed the appeal. Mrs. Holcomb entered into a contract with Robert Pritz to erect a building, stipulating that there should be no liens filed on the property. The contractor owed a balance on materials obtained for the structure and the liens were for the structure and the liens were filed. Justice Harris held that notice filed. Justice Harris held that notice to the persons furnishing the mate-rials was not sufficient to protect them. Other opinions today were as follows:
