Death Knell of Graft in Paving Petitions Is Sounded.

AFFIDAVITS ARE REQUIRED

Ordinance Prepared by City Attorney Provides That Property Owners Shall Give Reasons for Having Signed Lists.

The death knell of fraudulent preferential paving petitions is sounded in an ordinance which will be presented to the City Council this morning by City Attorney LaRoche requiring city Attorney LaRoche requiring an petition signers to make affidavit to the effect that he or she understands fully the substance of what is being signed and requiring a full statement on the petition as to who circulated it and for what reason.

Preferential paving petitions have been the cause of trouble for the Counterly has

Paving Company Men Active. When bids are opened for a paving contract the paving companies send men into the district and get signatures of property owners favoring one or another type of pavement. It may not be the type upon which the lowest bid is submitted. At present the petition may be in almost any form. It is tion may be in almost any form. It is signed and sent in. The Council does not know who circulated it or why.

Upon many occasions it has been charged that paying concerns have bribed property owners into signing the petitions on promise of remittance of part or all of the cost of the payement to be assessed against that property owner. This has led to many sources.

Affidavits Are Required. The ordinance which will start on its course this morning provides that thereafter no petition requesting the laying of pavement shall be received for filing by the Auditor of the City of Portland unless the same shall have at Lambs tached thereto an affidavit or affi-davits signed by all persons who have signed such petition, which affidavits shall contain the following statements: That the affiant has read such petition and is familiar with its contents; that it expresses his wishes in regard to the character of pavement requested; that he has received nothing of value and will receive nothing of value or benefit that he has received nothing of value or benefit or similar such petition. of any kind for signing such petition or refraining from opposing such petition, and that his only interest relative to the matters set forth in such petition is the interest of the property owner whose property will be affected ner whose property will be affected the laying of the pavement peti-

"Each and every such petition requesting the laying of pavement shall, before being filed with the Auditor, have appended thereto a statement showing who has circulated such petition and the names of all persons interested in the circulation thereof."

MARSHFIELD CALL TAKEN

Rev. J. S. Stubblefield Resigns Charge in Klamath Falls.

County from collecting penalties on the second half of taxes not paid by April 1 was filed today by the First National Bank of Eugene. The suit is identical with a suit filed last year, under which Judge Harris enjoined the Treasurer from complying with the terms of the 1913 law that abolished

the two payment system.

The law recently passed by the Legislature changing this provision will not go into effect for 90 days. In the meantime, a penalty of 2 per cent would accrue on the unpaid second

The Circuit Court, it is understood, will give this suit immediate attention and it is believed that an injunction can be obtained within the next two or three days.

The case is based upon a technicality in the law of 1913, which eliminated the two payment system. The court held it the intent of the Legislature to allow two payments even though the words did not so state.

Sensational Break in Wheat Prices at Chicago.

SELLING ENORMOUS

Smash Due to Sharp Drop at Liverpool and Belief That Dardanelles May Be Forced - Export Sales Disappointing.

CHICAGO, Feb. 23.—Wheat plunged heavily downward today, extreme losses amountains to 5 cents a bushel. The market closed much flurried at 5% to 7% lower, as compared with Saturday hight. Other net 11% delines were: Corn. 2% gFic to 2% c. ears. 1% gFic to 2c, and provisions 15c to 26c. Sensational breases in the price of wheat began right at the outset and became unmistakably werze as the session neared a faish. The first smash was influenced by a sharp drop in quotations at Liverpeol and by news that Constantinople was to be attacked from the north as well as to be endangered from the south through the onstaught against the forts on both sides of the Dardauelles. CHICAGO, Feb. 23.-Wheat plunged heav

slaught against the forts on both sides of the Dardauelles. General attempts to liquidate, despite more and more evident lack of support, rendered the pressure on the wheat market especially severe in the last hour. Expart sales had been disappointing in volume and no reliance apparently was pinced in assurances that the amount of Russian wheat readily available for shipment through the Dardenelless would be mail. The most pessimistic view was taken that the trade faced a prispect of the recent almost unlimited European demand being perhaps suddenly reduced to an unknown extent.

Corn suffered from the same reasons as wheat.

The Board of Trade unofficially intimated that a Recuse for the experiation of merinos would be granted if there was a surplus when needs of the allies were supplied.

Coffee Futures.

Caffee Futures.

NEW YORK, Feb. 22.—Predictions that March notices would be atouped by houses with European connections and the supply shipped to Europe were accompanied by some covering of hear-menth shorts in the coffee market today and after opening unchanged to two points higher, prices closed at a net advance of two to five points. There was a little scattered haying on the firmness of the March position and the steadier ruling of Brazillan exchange. Esies, 14,000 hags.
