THE workers of the Neighborhood House assembled yesterday in their institution for a luncheon and get-together meeting. The board of directors of the Neighborhood House and several honored guests also were in attendance and entered into the discussion of the various reports. It was the first gathering of its kind ever held there and proved most profitable, for, instead of "padding each other on the back" and dealing merely with the rosette side of the work as done in and about the settlement, the speakers sought out every possible or imaginary flaw with a view to making the work more efficient and stronger in every way.

The Needlework Guild recently sent an appeal to the Portland branch of the guild asking that \$100 be raised to assist in establishing a factory in France for the making of clothing for the Belgian women and children. Instead of the sum named, the Portland women sent \$25.

Other story, but I'll try. I'll tell you what I will do tonight—the story shall be about a kitten and a dog, and that, I am sure, both boys and girls will be pleased to hear.

"Once upon a time there lived a kitten named Buster, because he ate so much milk he grew fat, and in the same house there lived a dog named Rover.

"Now, Rover was a peaceable dog and liked to sleep, but Buster was never asleep—at least it seemed so to Rover—for no sooner would Rover close his eyes than Buster would come creeping up to him and tap him on the nose. "Sometimes he would wait until Rover was almost asleep and then he would jump on his back and let his claws sink into Rover's back like little needles. Then Rover would jump up and howl and run, while that naughty Buster kitten would roll over and laugh.

The Laundry Line as a Standard.

DID you ever think of the snowy clothes fluttering on the clothes-line in the yard as a standard of living?

In some ways, to be sure, they may be a standard, in their immaculate-ness they may stand for cleanliness in housekeeping.

In the fact that you do your own laundry work, they may stand for thrift.

Both these standards are worth while. But neither of these is the standard the laundry line represents for one woman. For I heard her say, "My washing is as good as my neighbor's, and so I am satisfied."

PLEA MADE FOR TENT FOLK

Funds Needed for Expenses of Placing Families on Lots.

"If we had the money to defray the expenses of placing families on vacant lots the problem of making them self-supporting would be solved immediately," said Mrs. Joseph A. Sharpe, president of the Alberta Women's Improvement Club, yesterday. Mrs. Sharpe explained that tents are wanted, but that a little lumber is needed for flooring.

By Mrs. F. A. Walker

The Despair of the Sandman.

THE Sandman sat with his head bowed on the table; his hair of ash stood beside him on the floor.

HEALTH RULES LOCK LOTS

Plan to Place Unemployed in Tents Receives Setback.

Rules issued yesterday by Dr. M. B. Marcellus, City Health Officer, may bring seriously the movement to place the unemployed upon vacant lots in Portland, according to a statement made by Mrs. Josephine B. Sharpe, who served on the health committee with the regulations of the city pertaining to health on the part of those living in tents on vacant property. One provision provides that garbage shall be kept in airtight cans having suitable covers, and that the cans shall be emptied at least every third day.

TYPIST'S AID IS DEvised

A. M. Wing Patents Appliance for Shifting Carriage at End of Line.

A. M. Wing, court stenographer in Circuit Judge McGinn's department, last week obtained a patent on a machine designed to relieve the tired tylist of the trouble of pulling back the carriage of the typewriter at the end of each line. Through an arrangement of poles and a cord, a slight movement of the operator's foot throws the carriage back to the beginning of a new line.

A REMEDY FOR BRONCHIAL COLDS

Philadelphia, Pa.—"Last Fall I was troubled with a very severe bronchitis, cold with very bad effects from it, headaches, backaches, and sick to my stomach. I was so bad I became alarmed and tried several medicines, but all failed. I did not get any relief. One of the men whom I am employed asked me to try Vinol, saying it cured his worst colds. I did so, and in a very short time received the relief which I craved. Now I am enjoying perfect health, and recommend Vinol to be all that is claimed for it.—JACK C. SINGLETON, Philadelphia, Pa."
