Mrs. Nevada Briggs, the baking expert, says:

"There is just one way to make your cakes rise high and evenlygive them time to rise before a crust is formed and the batter is stiffened by cooking."

"If using a gas, gasoline or oil stove, light your oven when you put the cake in and keep the flame low until the cake has doubled in bulk; then increase the heat until it is evenly browned and will respond to the pressure of the finger. If using a coal or wood range, leave the oven door open until the cake is in; then turn on the drafts and by the time the oven is at baking temperature, the cake will have raised sufficiently."

For rich, moist, feathery cakes Mrs. Briggs always recommends

It is double acting and sustains the raise. You can open and close the oven door, turn the tin around in the oven or do anything else necessary, without any danger of making the cake fall.

Try your favorite cake next time with K C Baking Powder and see how much higher it will rise. Make it just as you always do, with the same quantity of baking powder. While K C is less expensive than the old fashioned baking powders, it has even greater leavening strength and it is guaranteed pure and healthful.

## Some Day You'll Want a Home of Your Own

Most men cherish the hope that some day they will own a home of their own. They realize that in no better way can they secure the happiness and comfort of those that are dearest to them.

Get rid of the idea that it is entirely beyond your means to enjoy the comforts of a home of your own. Don't be shackled to rent-paying for life. All you need is the determination to have a home of your own to succeed.

Don't rob yourself and family any longer of the comforts, contentment, countless pleasures, sports, entertainments and good times which your neighbors are daily enjoying, all of which can be yours (while the price of labor and materials remain at their present low stage) for practically what you are paying out for rent.

Won't you let us help you into the home-owning class? We will trust you and will finance the building of your home. Main office 2701/2 Stark St., Main 1503, A 1515.
