College, today selected his all-North-west basketball team as follows: For-wards, Anderson of Washington State, and Bigbee of the University of Ore-gon; 'center, Savage of Washington; guards, McFee of Washington, and Dewey of the Oregon Agricultural Col-lege.

This team would be the fastest quintet that could be selected and would have the greatest scoring power," said "Dec." "Bigbee is a

clever shot and a fast man to guard. Anderson is without doubt the best shooter, the best dribbler, and the best

scorer in the conference. McFee and Dewey are lightning fast guards. Savage is of course head and shoulders above all other centers."

O right to your dealer and get a pouch of "Right-Cut" -the Real Tobacco Chew.

It will give you better satisfaction than the old kind and last you longer and taste better.

It's a new blend of mellow, sappy leaf -seasoned and sweetened just enough.

Take a very small chew-less than one-quarter the old size. It will be more satisfying than a mouthful of ordinary tobacco. Just nibble on it until you find the strength chew that suits you. Tuck it away. Then let it rest. See how easily and evenly the real tobacco taste comes, how it satisfies without grinding, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is The Real Tobacco Chew. That's why it costs less in the end.

It is a ready chew, cut fine and short shred so that you won't have to grind on it with your testh. Grinding on ordinary candied tobasso makes you spit too much.

The taste of pure, rich tobacco does not need to be covered up with melassor and price. Notice how the sait brings out the rich tobacco taste in "Right-Cut." One small chew takes the place of two big chews of the old kind.
