BOTH PARTIES FIND SIGNS OF VICTORY

Republicans Certain Wilson Has Blundered but Democrats Cannot See It.

SOME OPINIONS QUOTED

C. B. Moores Says Any Good Republican Could Win if Race Were Tomorrow-Bert E. Haney Defends the President.

At the end of the first half of President Wilson's Administration Oregon Republicans are turning their faces hopefully to the campaign of 1916, for they are convinced that the errors of the President are so numerous and so glaring that they point to the inevitable election of a Republican to succeed him.

Democratic leaders, on the other hand, look back over the last two years with satisfaction and seem not in the least disturbed over the Republican designs on the Presidency two years hence. They declare that the President's Administration has been successful and ministration has been successful and that were another election held towers. Democratic leaders, on the other hand that were another election held tomor-row he would be indorsed overwhelm-Republicans enumerate the Under-

Republicans enumerate the Under-wood tariff law, his Mexican policy, his extreme partisanship, displayed in nearly all his appointments, his dicta-torial attitude toward Congress and his support of a ship purchase policy as the principal blunders in the Wilson

The Democrats name the Mexican sit-The Democrats name the siexican att-uation, his peace policy, the currency law, the tariff law and his control over Congress as the principal points to com-mend President Wilson to the people.

Comments Are Quoted. Following are some of the comments

of leading Republicans and Democrats

in Portland:

C. B. Moores, Republican state chairman—If President Wilson were running for office tomorrow, we could beat him with almost any good Republican. The Underwood tariff has disturbed business. so that the Democratic Administration is very unpopular. President Wilson has displayed extreme partisanship in nas displayed extreme partisanship in nearly all his appointments, something that he said he would not do. His ap-pointments on the Trades Commission are the most recent example of this attitude. While the commission is sup-posed to be a non-partisan body, the Republican party has no representation

His disposition to dictate to Con-His disposition to dictate to Congress has not popularized the President with the people. His Mexican policy is another point of error. So far as his neutrality policy is concerned, I agree with ex-President Taft that we ought to support the President. His currency law is all right, but it was built on Republican framework. The results at the November election show the trend of the people away from the Democratic Administration. Recent events have done nothing to strengthen the Admin-

Defense Is Made.

Bert E. Haney, Democratic state chairman—President Wilson's Adminischairman—President Wilson's Administration has been very satisfactory. It has been a constructive one. The currency law alone ought to entitle him to re-election. He also has redeemed his platform promise to revise the tariff downward. The bill providing for a trades commission is a big piece of constructive effort. It ought to remedy a condition in our industrial affairs that it has been impossible heretofore to reach. His Mexican policy is another point upon which he merits a vote of confidence from the people. I believe that if another election were held at this time President Wilson would be reelected by a greater plurality than he elected by a greater plurality than he used.

received in 1912.

Senator Gus C. Moser, Republican—I believe President Wilson is an honest, sincere man. But his theories and his principles are entirely at variance with sound policy. His striving to put those theories into effect has caused him to lose popularity with the people. Two theories into effect has caused him to lose popularity with the people. Two years of experience have demonstrated that Democratic theories and Demo-cratic principles are wrong. Even his own party cannot agree on the best way of carrying them out, and in the light of recent events President Wilson certainly could not be re-elected. Two years more of the same conscientious effort that he has displayed in the last two years are all that are required to insure his defeat. While I want to credit him all the time with honesty and sincerity of purpose, but those very qualities applied to his erroneous theo-ries are fast eliminating his chances for re-election.

Postmaster Points to Acts.

Frank S. Myers, postmaster, Democrat

—The first two years of Wilson's Administration has shown the country that the Democratic party is the party of the people. The Democratic party has redeemed, as far as the Republicans would permit it, all the planks in its platform. It has passed the Underwood tariff bill, revising the tariff downward; the income tax bill, and the cur rency bill, making the country prac-tically panic-proof. In addition, it cre-ated the Federal Trade Commission. Such work justifies the confidence which the people have in Wilson and I selieve that he will be renominated and

S. B. Huston, Republican Representative in Legislature—While I have a high personal regard for President Wil-son, I am convinced that he could not be re-elected were the election to be be re-elected were the election to be held tomorrow. His insistence that Congress repeal the free tolls provision in the Panama Canal act was a most unprecedented violation of a party platform pledge. Never before has such action been taken. The Democratic tariff has brought disaster upon the country. His Maxican policy has

cratic tariff has brought disaster upon the country. His Mexican policy has involved us in trouble from start to finish. I think he has lost popularity through many of his appointments.

Milton A. Miller, Democrat—It is my candid opinion that Woodrow Wilson has shown himself to be the greatest President the country has had since Abraham Lincoln. There has been more constructive Legislation during the two years since he became President than had taken place in the United States from the Civil War down to his time.

MAYOR INDORSES BENEFIT

Concert for Salvation Army Should Be Well Attended, Albee Says.

Mayor Albee has lent his good offices calling attention to the benefit con-cert at Lincoln High School auditorium Tuesday evening, and in a statement to the public the Mayor calls attention to the fact that the concert is to render material aid to the Salvation Army, and cites the more esthetic fact that it will be in the hands of talented musicians of Portland. Incidentally, the Mayor puts his stamp of approval on the work of the Salvation Army. His statement to the public is:

"The announcement of the benefit

School auditorium on the evening of March 9 will be of interest to the many March 9 will be of interest to the many friends of the Salvation Army, in whose behalf the concert is given. For several years it has been the custom to give a benefit concert to assist in carrying on this splendid work, and each year has brought forth a goodly number of those who were glad to give of their talent.

for the cause,
"That this year is to be no exception
is indicated by the fact that the programme of the evening is under the
able direction of Mrs. Thomas Carrick
Burke, who, with a number of talented
assistants, will render a varied and delightful musical programme. This will
be an evening which will merit the atbe an evening which will merit the at-tendance of a large number of Fortland people, who can express in this way their appreciation of the efforts of these sicians to aid in this most worthy

"I consider that the good accom-plished by the Salvation Army among a certain class of our citizens is not to be measured, and their efforts should receive the hearty support of all citi-zens who desire the betterment of moral conditions in our city."

ROAD BOND VOTE IS DUE

The movement for an election to vote county bonds for the hard-surfacing of ing that the election be called will be Bonser's estimate of the cost of the proposed improvements is expected to be ready today. Present indications are that it will be about \$1,250,000.

The movement for hard-surfacing is the result of recommendations by Roadmaster J. B. Yvon in his annual report. The roads are the Columbia Highway from the Sandy River to the county line, Sandy, Base Line, Powell Valley, Foster, Canyon, Linnton and Slavin roads.

It will be necessary to secure 2500 signatures before the petitions can be presented to the County Commissioners for the calling of the election. One proposal has been made that the election be held on April 5, at the time of the St. Johns primaries. Under the law 20 days must elapse after the Commissioners order the election before it can take place.

can take place. The proposal is that the bond issue be made 10 years at 5 per cent. At the end of the fourth year a sinking fund would be created and into this fund

would be created and into the cone-sixth of the principal would be deposited each year.

In his report Mr. Yeon pointed out that a bond issue of \$1,000,000 would mean a charge of \$3 against each \$1000 of assessed valuation and is cents a year for interest, or, for every prop-erty owner assessed at \$1000 it would mean an annual payment of 45 cents on principal and interest.

on principal and interest.

Slavin road has been included in the estimate by the activity of residents of Southern Multnomah County. Commercial bodies in Portland as well as outlying districts already manifested considerable interest in the proposition.

A disturbance of considerable energy is over the Middle Mississippi Valley; a secondary "low" is over New Mexico. High pressure obtains on most of the Pacific Slope and over the Northern Bocky Mountain and Northern Plains States, Canada, the Middle Atlantic and New England States, Precipitation has occurred in most sections from the North Pacific Coast southeastward to the Middle and South Atlantic Coast. Snow was falling this evening in the Missouri and Upper Mississippi Valley and the line of freeing temperature extends as far south as St. Louis, Okiahoma City and Durango. The weather is 10 degrees or more warmer in Northeastern Washington. Southern Alberta, New Mexico, Northern New York, it is correspondingly cooler in North Central Monlana.

The conditions are increased for extreme Northeastern This district Saturday except that occasional rain is expected for extreme Northeastern Washington. Temperature changes in general will not be important. Winds will be mostly easterly.

PORECASTS.
Portland and vicinity—Probably fair; eastorly winds.

Orgon—Generally fair: easterly winds.

Orgon—Generally fair except occamonal rain extreme northwest portion; winds mostly easterly.

Idaho—Generally fair.

Dealers Believe Shipments Will Have Effect on Western Prices.

on Western Prices.

Considerable stress is laid by the wool trade upon the possibility that the exportation of wool from Australia to this country is about to be facilitated. The fact that purchases have been made in the commonwealth this season by Boston houses at figures which make the scoured cost laid down here ridiculously low, compared with quotations in the American market, is considered important. It is believed that the ability to get the wools coming here would have considerable bearing on the primary domestic markets, in view of the fact that the Australian wools have been secured so cheaply. Some defective wools have been bought at figures which mean less than quotations in the American market, is con

Trade insofar as the requirements of Great Britain and allied countries will allow, will grant Beenses to export merino wool, tops, pells and back face wool to the United States, if consignment is made in accordance with an agreement entered into with the alliance.

LARGER ASSORTMENT OF VEGETABLES Early Truck From South Is Firm Because of Cold Weather.

The assortment of early vegetables, mostly from California, is steadily increasing. Green peas are now being offered at 15@20c. Asparagus was firmer at 18@22c, owing to cold weather in the south. Seet barb was in fair supply at 11 \$12c. A car yesterday put the top quotation to \$7.20.

Bank clearings for the week totalled WG, \$5,85; WW, \$5,55. Bank clearings for the week totalled Spill4,331,717, a decrease of 1.2 per cent as compared with the same week last year. Commercial failures for the week number 478, against 130 the corresponding week a year ago. In Canada the failures for the week were 54, compared with 48 a year ago.

NEW WOOL CONTRACTING SCATTERED Prices in Western Markets Are Firm, But No Higher.

BOSTON, March 5.—The Commercial Bulliant will say tomorraw:

Business has increased somewhat this week and sales of spot wool and foreign wools to arrive have made a market of fair proportions. Prices are very firm and in a few instances slightly higher.

Advices from abroad are all indicative of strong competition and advancing prices.

Contracting in the West is still scattered and prices are without material change, although very firm.

LONDON, March 5.—The wool auction sales closed today with offerings of 7500 bales, which were readily cleared at firm prices. Scoured merinos again sold at 2s 64. Compared with the previous auctions, crossbreds closed 19 per cent, merinos from 10 to 20 per cent and Cape of Good Rope and Natal from 10 to 15 per cent higher. The feature of the sales was the strong American demand for long-balred scoured and greasy merinos. They purchased 16,000 bales, for which licenses for export are now being considered. During the series the home trade bought 70,000 bales and France 2600. The next sales will be held March 16.

PEACE TALK AGAIN CAUSES SELL-ING IN CHICAGO PIT.

Widespread Snow Storm Is Regarded by Crop Experts as Beneficial and Is Cause of Slump.

CHICAGO, March 5. - Fears that expert lemand for wheat from the United States might suddenly come to a halt had a dis-turbing effect today on prices, but at the finish the market, although unsetted, was at the same level as last night to 1%c off. Cora closed % % %c down, and cats at a net decline of %c to %c. Provisions wound up with gains of 2%c to 10c. About mid-day peace talk concerning. Austria led to breaks in wheat that in some cases extended nearly &c under yesterday's, close. Invarishly, however, buying on the part of cash houses came into play on de-clines and resulted in a succession of rai-lies. night suddenly come to a halt had a dis

lies.
Widespread heavy snowfalls were regarded

Widespread heavy snowfalls were regarded by experts as highly beneficial in promoting growth later on, and as a protection at present. It was to the crop outlook that in a measure was due the July delivery touching for a brief while today the lowest price yet this senson.

Improved cash demand steaded corn even more than wheat. Nevertheless, there was much seiling by speculative holders and by shorts whenever the wheat market turned downards.

Onts took the same course as other grains, subpard call remained strongly in evience.

Higher prices for hogs lifted provisions.
The setbacks in grain were largely ignored.
Leading futures ranged as follows:
